Attachment B: Clear Channel's Response to Becker's Claims

May 30, 2023

Brendan Moriarty
Real Estate Manager, Economic and Workforce Development
City of Oakland
1 Frank H. Ogawa Plaza
Oakland, CA 94612

RE: Oakland Community & Economic Development Committee - Clear Channel Outdoor Response

Dear Mr. Moriarty:

This letter is in response to the Oakland Community and Economic Development Committee meeting that occurred Tuesday, May 23, 2023 ("Meeting").

During the Meeting there were a number of mischaracterizations and misstatements of fact in regard to the proposal and sites offered by Clear Channel Outdoor ("CCO"). In particular, these misstatements were made during public comment regarding Agenda Number 4, which involved the authorization by the City of Oakland ("Oakland") to enter into two (2) advertising sign relocation agreements ("Agreements") with Becker Boards L.L.C. ("Becker") and Outfront ("Outfront") Foster Interstate ("Foster") L.L.C. (Outfront and Foster, collectively "OFI"). The Becker relocation agreement is being facilitated through Becker's partnership or joint venture with OFI which is providing the takedowns necessary to make the relocation comply with the current city billboard ordinance. These statements disparage CCO's reputation in the community, but, more importantly, mislead the City as to the value of CCO's proposal. As explained by City Staff in its presentation to Council, CCO's proposal is valued at $2,310,000 in annual revenue, totaling $53 million more than the Becker-OFI proposal in the base term and $88 million more over the extended term. This is "substantially more revenue" than the Becker-OFI proposal and is expected to result in $2.31 million more per year to the Coalition of nonprofits and the City than the Becker-OFI agreement. *See* Staff Supplemental Presentation, Community and Economic Development Committee, City of Oakland, at pgs. 5–6, 11.

As a longstanding partner with Oakland, CCO offers the following responses to three (3) critical inaccuracies made as against CCO:

I. Competitive Landscape

First, during the Meeting, Nema Link, Director of Land Development for Becker, and Councilmember Kevin Jenkins, made inaccurate comments and inferences that CCO owns the majority of digital billboards in Oakland. Truth be known, CCO currently only operates five (5) digital billboard faces in Oakland, meanwhile Becker's partner OFI operates ten (10) digital billboard faces in Oakland — two times as many billboards as CCO. Accordingly, CCO only operates 33.3% of the current digital billboard market in Oakland. Further, if the proposed Agreements between Oakland and OFI are approved, it would create an additional twenty (20) digital billboard faces operated between Becker and Outfront, which would drop CCO's market share to a nominal 14.3%.

As noted during the Meeting, Caltrans issues permits for all outdoor advertising structures in the State of California that are intended to be viewed primarily from the freeway by drivers. As demonstrated in *Table 1: CCO Share of Alameda County and Statewide ODA Permits*, CCO does not hold the majority of permitted digital faces within either geographic category. CCO operates forty-one (41) digital and static signs near freeways in Alameda County, representing 40.2% of the total. When combined, Outfront and Foster operate a total of 45 boards, representing 44.1% of the total ODA permitted boards. At the state level, CCO's total share is only 13.1% compared to Outfront and Foster at 27.0%.

Table 1: CCO Share of Alameda County and Statewide Permits

	Company	Digital	Static	Total	% of Total
Alameda County	All Others	5	11	16	15.7%
	Becker Boards Small LLC	0	0	0	0.0%
	Clear Channel Outdoor LLC	10	31	41	40.2%
	Foster Interstate Media Inc.	4	2	6	5.9%
	Outfront Media LLC	13	26	39	38.2%
	Total	***27***	***59***	***102***	***100%***
Statewide Outdoor Advertising Permits*	All Others	94	6,369	6,463	59.8%
	Becker Boards Small LLC	6	2	8	0.1%
	Clear Channel Outdoor LLC	99	1,314	1,413	13.1%
	Foster Interstate Media Inc.	4	3	7	0.1%
	Outfront Media LLC	71	2,840	2,911	26.9%
	Statewide ODA Permits Total	***180***	***4,159***	***10,802***	***100%***

** Outdoor Advertising Permits ("ODA Permits") are issued for billboards adjacent to the freeway*

II. Conversion and City-Owned Sites

Second, Mr. Link made several comments that the CCO proposed billboard conversion sites were "unbuildable" or ineligible for conversion from static to digital format. As discussed below, the City provided CCO with general locations of the City-owned sites, with no specifics on the locations. If provided the necessary background information on the City-owned locations, CCO will revise its proposal accordingly. However, we want to reinforce that every 14' x 48' bulletin location proposed by CCO, was built within the past fifteen (15) years and is *legal* under both City and State law. California Code, Business and Professions Codes - BPC § 5412 and BPC § 5443 provide a path for the development of billboards when local municipalities allow billboard companies to remove existing billboards via relocation agreements. CCO's proposal, in part, sought to leverage the relocation agreement opportunities defined in state law and is also permitted with takedowns according to the City ordinance.

Additionally, Mr. Link asserted that the landscaped designation of the freeway segments adjacent to several sites prevents any possible conversion of the existing static boards to digital billboards. That is not quite accurate as, in addition to the relocation agreement opportunities cited above, it is also possible that several of these sites could be declassified and removed from the landscape freeway list. And, if that is not possible, the California Code, Business and Professions Codes - BPC § 5412 and BPC § 5443 would be utilized for State-level permitting.

Further, Mr. Link specifically attacked the viability of two (2) City-owned sites. On April 21, 2023, CCO was supplied a brief list of City-owned sites. City officials requested that CCO review the viability of the sites within a couple of days. Despite asking for additional information on the potential new sites, CCO was not provided enough identifiable information such as Assessor Parcel Numbers ("APN") or addresses. CCO provided a good faith effort to analyze the viability of the sites based on the limited information provided. There was no ability for CCO to review deeds or other site-specific information during the initial review.

While Mr. Link provided faulty "analysis" of all proposed CCO upgrade and conversion locations, his commentary focused substantively on two (2) specific CCO locations. The first location is located at an East Bay Municipal Utility District ("EBMUD") parcel near the Bay Bridge Toll Plaza. Mr. Link claimed that CCO did not have property owner authorization to convert the two (2) static faces located on the property to digital. Exhibit A, attached, is a letter from EBMUD, dated January 4, 2022, to CCO acknowledging that CCO "already has the right to upgrade existing back-to-back bulletin(s) to digital—a right which EBMUD never denied or obstructed in anyway." The second location is located at the Fruitvale Station Shopping Center. Mr. Link stated that CCO was "illegally" operating off-premise signs at Fruitvale Station Shopping Center. However, as evidenced in Exhibit B, attached, both Panels located on the site have active ODA permits (i.e., D04-0213 and D04-0214).

III. Financials

Finally, we must take issue with Mr. Link's statement that CCO has "*exploited*" Oakland and underpays its landlords. This is categorically false. CCO paid Oakland nearly $9,000,000 for its share of revenue generated by billboards relocated to locations adjacent to freeways. In addition to the removal of billboards and the revenue paid to Oakland, CCO made additional payments to Oakland and the community. In January 2008, CCO agreed to pay $125,000 to the Chabot Space and Science Center, including an additional $125,000 to Oakland's General Fund. The April 2009 relocation agreement between CCO and Oakland resulted in a $125,000 contribution to the After School 6-9 Sports Program at the Cesar Chavez Education Center. Finally, as part of the June 2010 relocation agreement, CCO made a one-time payment of $1,000,000 to Oakland's General Fund. As to CCO's relationships with its landlords, it is curious how Mr. Link could ever make such a broad general allegation without first specifically discussing CCO's leases with each and every landlord in the City. CCO has numerous landlords and locations and every relationship is different. However, CCO believes it pays its fair share of rent and seeks to maintain good relationships with its landlords.

Based upon CCO's relationship with the City over the years, we believe CCO has a proven record of honesty and good faith dealing with both Oakland and CCO landlords. The financial deals with Oakland are based on industry standards, which includes comparable contemporaneous deals with Outfront and Foster. All contracts between CCO and Oakland and CCO landlords are in good standing.

IV. Conclusion

Finally, we must express our significant concerns regarding the process and a lack of transparency in the criteria being used by the City, particularly given the inconsistencies between the Staff's recommendations and the City's actions. We note that CCO was only invited to submit a bid late in the process and based on limited information. We also note that at least of some of locations at issue involve the lease of public property, and we are unaware of what clear and objective criteria or procedures are being used for the bid process. We would

thus ask you clarify those matters so that we can understand the process and better address any concerns the City may have.

As always, CCO remains committed to meaningful and honest conversations that work toward the continued success of the community.

Sincerely,

Sarah Fishleder
Director of Real Estate Development, Northern California

Oakland, CA 94507

RE: Lease #89857, Oakland
I-80 e/o Bay Bridge Toll Plaza

Dear Bruce,

[redacted]

[redacted]

I would like to clarify that the current lease between Clear Channel and EBMUD gives your company the right to upgrade the existing structure:

Section 2, Lease Purpose, allows the Lessee to remove, replace, erect, upgrade, renovate, construct, repair and maintain the Existing Billboard and New Billboard.

Section 6, Prior Approval Before Construction Commences, paragraph (b), contemplates that any alteration can be done with written approval of Lessor which will not be unreasonable withheld.

Section 9, Rents, contemplates rent amounts for the Existing Billboard and each face of the New Billboard for all three styles, Static, Tri-Vision, and LED. The rents are detailed in such a way that if the style changed, the rent can be identified depending on the year of the lease and whether it is the Existing Billboard location or one of the New Billboard locations.

In effect, your company already has the right to upgrade existing back-to-back bulletin to digital – a right which EBMUD never denied or obstructed in anyway. In fact, if Clear Channel makes a formal request per Section-6 of the lease, EBMUD would immediately approve it. In addition, EBMUD is ready and willing to support Clear Channel in any way in the permitting process related to converting the current bulletin boards to digital.

[redacted]

In conclusion, EBMUD acknowledges Clear Channel's lease right to convert any of the bulletin billboard to digital, and fully supports such conversion. We stand ready to support your organization in any way during the permitting process.

Best Regards

Matt Elawady, MCR, CCIM
Manager, Real Estate Services
East Bay Municipal Utility District
