RE: **A Report And Resolution Granting Buttner Properties, Inc., A Revocable And Conditional Permit For A Building At 534 Thomas L. Berkley Way To Allow Vaults And Electrical Transformers To Encroach Under The Public Sidewalk Along 21st Street**

SUMMARY

A resolution has been prepared granting Buttner Properties, a California corporation (no. C0183284) and owner of an existing building at 534 Thomas L. Berkley Way (APN 008-0645-033-01), a conditional and revocable permit (ENMJ07053) that will allow two (2) concrete vaults with electrical transformers to encroach under the public sidewalk along 21st Street.

FISCAL IMPACT

Staff costs for processing the proposed encroachment permits will be covered by fees set by the Master Fee Schedule and paid by the developer and will be deposited in the special revenue Development Service Fund (2415), Engineering Services organization (88432), Encroachment Permits account (42314), Engineering and Architectural Plan Approval (PS30). The standard conditions of the encroachment permit require the property owner to maintain liability and property damage insurance and to include the City as a named insured.

KEY ISSUES AND IMPACTS

Oakland Municipal Code Section 12.08.030 requires that the City Council approve encroachments that intrude beneath the sidewalk (basements, vaults, earth retaining structures, etc.). Pacific Gas and Electric requires new electrical transformers which the utility company will maintain to be installed in under-sidewalk vaults.

Each of the proposed vaults will be approximately five (5) feet wide and nine (9) feet long and will encroach into the public right-of-way approximately nine (9) feet. The transformers will be accessed through removable covers set flush with the pedestrian walking surface. The subsurface encroachments will not interfere with the public's use of the right-of-way nor with the maintenance of underground public utilities. The City Council has previously approved similar underground encroachments for other buildings throughout the City.

SUSTAINABLE OPPORTUNITIES

Economic

The building is undergoing a major renovation (permit B0504594) that will provide opportunities for professional services and construction related jobs for the Oakland community.

Item No. _____
Public Works Committee
February 27, 2007

Environmental

Construction permits for public right-of-way improvements require that the permittee comply with City ordinances and regional Best Management Practices for reducing nuisance noise, fugitive dust, construction debris disposal, and storm drainage pollutant runoff.

Social Equity

The renovation project will assist the economic revitalization of the downtown district.

DISABILITY AND SENIOR CITIZEN ACCESS

Construction permits for right-of-way improvements will conform with State and City requirements for handicapped accessibility.

RECOMMENDATIONS

Staff recommends that the Committee accept this report and forward it to the City Council to adopt the proposed resolution approving a conditional and revocable encroachment permit.

ACTION REQUESTED OF THE CITY COUNCIL

Staff recommends that the City Council accept this report and adopt the proposed resolution approving a conditional and revocable encroachment permit for Buttner Properties, Inc., to allow two (2) concrete vaults and electrical transformers to encroach under the public sidewalk along 21st Street.
