Re: Anti-Litter Program

Since the presentation of the report in December, the following elements have been added to our Anti-Litter Program:

Enforcement:

We have received a commitment from the Oakland Police Department, via the Office of the City Administrator, to perform city-wide litter stings each semester, focusing on the areas described in the report. These stings are in addition to all current litter and illegal dumping enforcement activity.

Litter Fee Ordinance Changes:

- On page 3, we have changed the definition of fast food convenience market to exclude large membership retailers and standard-sized grocery stores. We've also added the specific definition of a Fast Food business.
- On page 4, we have inserted language that reducing the fee for eligible businesses within BIDs by 50%. Additionally, we have given the City Administrator authority to exempt businesses within BIDs *entirely* if the BID agrees to perform litter removal consistent with the Ordinance.
- On page 7, we've required the City Administrator to produce a *written* decision on any appeal

Education

My office has met with representatives from Stopwaste.org and the Alameda County Office of Education to find ways to work with students to encourage stewardship of neighborhoods around Oakland High Schools. We will request that the Oakland Unified School District take their own steps to reduce litter in neighborhoods surrounding High and Middle Schools.

INTRODUCED BY COUNCILMEMBER _____ BRUNNER _____

ORDINANCE NO. _____ C.M.S.

AN ORDINANCE ENACTING A FEE ON FAST FOOD BUSINESSES, LIQUOR STORES, CONVENIENCE MARKETS, AND GASOLINE STATION MARKETS TO DEFRAY THE COST OF LITTER AND TRASH CLEAN-UP RESULTING FROM THEIR OPERATION

WHEREAS, The accumulation of trash and litter on our streets, sidewalks and other public spaces, particularly near schools, requires significant City resources to collect and dispose of, detracts from the look and livability of our City, and hampers Oakland's ability to attract investment and retain quality businesses; and

WHEREAS, The accumulation of trash and litter in or near storm drains or other conduits of water runoff hampers the City's storm water drainage system, can pollute storm water runoff, Lake Merritt and other City streams, creeks and waterways, and risks putting the City of Oakland in violation of its Federal Clean Water Act Permit; and

WHEREAS, But for the trash and litter produced by businesses and general business types, no City resources would be required to collect and dispose of it, creating a nexus between the services required as a result of these business' operation and real costs to the City of Oakland; and

WHEREAS, the City wants to encourage businesses to sell and use products that do not end up as litter on City streets; and

WHEREAS, The Oakland City Council has an explicit goal to "Maintain and Enhance Oakland's Physical Assets," and has adopted citywide goals of 75% landfill diversion by 2010; and

WHEREAS, It is accepted and common practice among cities throughout California, and in the City of Oakland itself, to adopt fees to defray added costs related to the practices or operations of certain businesses; now therefore

THE COUNCIL OF THE CITY OF OAKLAND DOES ORDAIN AS FOLLOWS:

Excess Litter Fee

Section 1. PURPOSE

The purpose of this ordinance is to create and maintain safe, clean and sanitary streets, sidewalks, and public spaces by assessing a fee on businesses of types known to generate particularly high amounts of disposable materials that end up as trash and litter on our streets. The fee will not only provide the resources to collect and dispose of such trash to keep our City clean, but will also prevent trash and litter from entering the City's storm water runoff system, and potentially polluting those waters and/or

hampering the proper performance of our system.

Section 2. FINDINGS.

The City Council does hereby find and declare as follows:

- A. The expenses incurred by the City in collecting excess litter caused by certain businesses may be met by fees adopted by the City Council pursuant to the City's police powers;
- B. It is difficult, if not impossible, to trace individual pieces of litter to individual businesses, but it is possible to trace the litter to business or industry types;
- C. Eligible Businesses are specifically chosen because they are of the type of business commonly known to significantly rely on disposable products for the regular operation of their business. These are businesses that conduct most of their food service, or convenience store, activity on a walk in-walk out or drive in-drive out basis, relying on customers to collect and dispose of the trash and litter generated by the operation of their business. Fast food businesses, convenience markets, and gasoline station markets sell products that commonly result in litter on City streets;
- D. Litter originating from the Eligible Businesses constitute a nuisance, and the City seeks to control and abate the nuisance;
- E. The expenses incurred by the City in implementing an excess litter collection program are reasonable and necessary for the protection of the health and safety of the public;
- F. The schedule of fees prescribed in this chapter reasonably reflect the City's expenses in cleaning up excess litter caused by the businesses covered by this ordinance, and the fees are proportionate to the burdens caused by the businesses;
- G. The fees imposed will deter businesses from selling products that commonly result in litter on City streets and encourage the businesses to clean up litter resulting from products that they sell;
- H. The revenue generated by the fees will be used to clean up and mitigate the effects of litter caused by products sold by the businesses covered by this chapter; and
- I. An Eligible Business's gross receipts is a reasonable measure for a business's market share. That market share is a reasonable measure of the amount of excess litter that the business produces relative to other businesses.
- J.

- C. The fees shall be administered to eligible businesses on a "sliding scale" system that will base the amount of fee owed to the City on the classification of the business.
- D. The City of Oakland's Revenue Division shall send a notice showing the classification for each eligible business, the information upon which the classification was based, and how much that eligible business owes. That notice shall include the
