RECOMMENDATION

Staff Recommends That The City Council Accept This Quarterly Informational Report From The Oakland Police Department (OPD) On Crime, Crime Trends, And Crime Reduction Activities in the City of Oakland.

EXECUTIVE SUMMARY

Attachment A to this report provides information on crime, crime trends, and crime reduction activities in Oakland for the period of April 1 to June 30, 2016. Attachment B to this report provides additional information from Oakland's Human Services Department (HSD) on adult case management service indicators, related to the Ceasefire Program.

BACKGROUND AND LEGISLATIVE HISTORY

In 2013, the Public Safety Committee requested a quarterly report from OPD on crime trends and crime reduction activities in the City. This report is provided four times a year and updated to include the preceding three-month period (January to March; April to June; July to September; and October to December).

ANALYSIS AND POLICY ALTERNATIVES

This informational report is presented to the City Council and the Oakland community to provide an update on crime and crime reduction activities in Oakland. The attached presentation contains information as follows:

- Ceasefire Violence Reduction Strategy
- Crime by Area-Presentation by Area Commanders: Trends and Reduction Activities
- Human Trafficking Intervention Efforts

Item: _____

FISCAL IMPACT

This item is for informational purposes only and does not have a direct fiscal impact or cost.

PUBLIC OUTREACH / INTEREST

No additional outreach was deemed necessary for this report beyond the standard City Council agenda noticing procedures.

COORDINATION

OPD coordinated with the City's Human Services Department (HSD) in the development of this report.

SUSTAINABLE OPPORTUNITIES

Economic: There are no economic opportunities associated with this report.

Environmental: There are no environmental opportunities associated with this report.

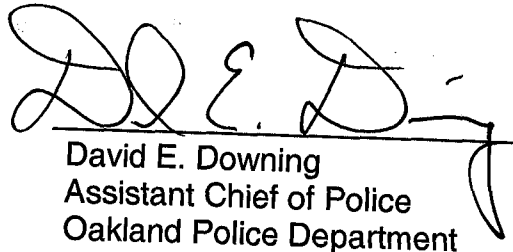

Social Equity: This report provides valuable information to the Oakland community regarding crime trends and reduction activities; all residents and visitors share an interest in lowering Oakland crime rates.

ACTION REQUESTED OF THE PUBLIC SAFETY COMMITTEE

Staff Recommends That The City Council Accept This Quarterly Informational Report From The Oakland Police Department (OPD) On Crime, Crime Trends, And Crime Reduction Activities.

For questions regarding this report, please contact Nicole Freeman, Crime Analysis Manager, OPD Criminal Investigations Division (CID), at (510) 238-3209.

Area 4: Robberies and Shooting

- Area 4 has seen a recent increase in elderly robbery victims. Most robberies in Area 4 occur along the International Blvd. corridor. Victims are approached on foot with a stolen getaway vehicle nearby. Many suspects are repeat offender juveniles. Loss is often cell phones, money, and visible jewelry.
- Victims are getting in or out of a vehicle. We will be issuing these observations to community partners through Nixle and Nextdoor.
- Increase in shootings on Beat 26 and 27. Shootings are gang related and continued retaliation. Our response strategy is to identify and address both victims and suspects of violent activity within the Ceasefire strategy.

Area 4: Robbery Trends (1)

- Multiple suspects in stolen vehicles
- Physically searching victims during robberies
- Often elderly victims
- Targeted Items:
 - Money
 - Cell phones
 - Jewelry
 - Electronics (laptops, notebooks, and so on)

Area 4: Robbery Trends (2)

- Primary Areas:
 - **Beat 23X** (Fruitvale BART Station, Fruitvale Village, and surrounding areas)
 - Beat 27X
 - Beat 27Y
- Locations:
 - In front of residences
 - Entering/exiting vehicles
 - Sidewalks – talking on cell phones

Oakland Human Services Department - Adult Case Management Service Indicators

Background: Oakland Unite Programs, based in the City's Human Services Department, currently funds 12 Case Managers to provide intensive support to young adults identified as at highest risk for involvement in violence. Participants are connected to support through targeted referral sources, including Ceasefire, and meet specific criteria that indicate risk for involvement in violence (see demographics and risk factors below). The goal of the strategy is to re-direct these individuals towards healthy participation in their families and communities through coaching and mentoring, system navigation, advocacy, and connection to needed resources.

Engagement in Services: During the January 1st – June 30th period, Oakland Unite-funded Case Managers served 67 individuals referred through Ceasefire Call-ins or Custom Notifications. These 67 individuals include individuals referred during this period as well as those contacted previously through the strategy. Since 2012, Oakland Unite Case Managers have successfully engaged with 65-68 percent of participants referred through Ceasefire efforts.

During the January to June 2016 period, Oakland Unite Case Managers also worked with 70 additional high-risk individuals referred by Street Outreach, other law enforcement agencies, or directly by the Ceasefire-identified participants described above.

Demographics of Participants: Of the 137 total participants served during the period, 97 percent are male, 75 percent are African American and 21.7 percent are Latino. The majority are between the ages of 18-23 (45 percent), followed by those between 24-29 years-old (30 percent) and 30-34 (12 percent), with participants over 34 being the smallest percentage served

(10 percent). Participants live in ZIP codes reflective of areas most affected by violence (see figure for detail).

Risk Factors for Violence: Individuals identified by the Ceasefire strategy are believed by OPD to be in immediate risk of harm, and participant demographics mirror the demographics of individuals most likely to be involved in shootings and homicides in Oakland.

Oakland Unite Case Managers also ask participants to self-identify what puts them at risk of violence: 58 percent of participants disclosed having been on probation/parole for a violent incident, 46 percent of participants say they have been shot and/or seriously injured due to turf/group-related violence, and 88 percent had a close peer, friend, or family member shot and/or killed due to turf/group-related violence in the last 3 years.

Preliminary Outcomes of Service Engagement: The City Administrator's Office is currently in the process of identifying an independent evaluator to help assess outcomes of service engagement for individuals who work with Oakland Unite. In preparation for this formal evaluation, Case Managers will continue to track participant needs upon engagement in services, and goals and life milestones achieved during service provision.

Preliminarily, participants have achieved 64 milestones related to employment preparation such as accessing soft skills or other pre-employment training. Participants met 54 milestones related to job placement, either subsidized or unsubsidized, during the period, and 37 milestones related to job retention, meeting marks of 30, 60, 90, and 180 days of employment. In addition, participants achieved 22 milestones related to education, ranging from re-enrollment in school to receiving a vocational certificate. Participants met 10 milestones related to securing stable housing, and 26 milestones were reported around coming into compliance with terms of probation/parole.

These outcomes are preliminary, and Oakland Unite looks forward to the selection of the new independent evaluator to deepen the analysis of services accessed and outcomes achieved by individuals identified as highest-risk for violence in Oakland.
