WHEREAS, prepaid debit cards and Clipper cards were identified as the best way to provide financial incentives to Oakland residents in order to achieve this project's goal, provide program participants with the greatest autonomy of how to spend travel funds, and inform future efforts by the City, such as the establishment of a long-term Universal Basic Mobility program; and

WHEREAS, Usio, Inc. (Usio) is a C Corporation founded in 1998, and incorporated into Mastercard's City Possible Network; is an integrated payment solutions provider that specializes in providing tailored solutions for prepaid debit card issuance, payment acceptance, and bill payments; and has an extensive track record of successfully implementing financial assistance and relief programs for public agencies across the United States, including the City of Oakland's East Oakland Universal Basic Mobility Pilot project; and

WHEREAS, Clipper, a public agency product and service managed by the Metropolitan Transportation Commission, is the only provider of prepaid cards for public transit services in Oakland that are usable across all public transit providers in Oakland, including AC Transit and BART; and

WHEREAS, the City of Oakland wishes to enter into agreements with Usio and Clipper to purchase and provide 1,000 Project participants with restricted prepaid cards and/or transit passes that are each loaded with up to \$320.00 of grant funds and that can only be used to purchase trips or passes with transit or shared mobility operators; and

WHEREAS, the total contract cost for Usio and Clipper to provide this product is \$350,000.00; \$320,000.00 for subsidies and \$30,000.00 to cover Usio and Clipper administrative costs; and

WHEREAS, after extensive research and coordination with banks, prepaid card providers, and other organizations, the City recognizes that Usio was one of only two (2) vendors that could provide the City with this product; and

WHEREAS, the City recognizes that among only two (2) potential providers of prepaid cards, Usio is the only viable vendor option because of the vendor's unique services that allow the City to recoup unused funds at the completion of the program and their ongoing work with another City department for an upcoming program; and

WHEREAS, the City recognizes that Clipper is the only provider of prepaid cards for public transit services in Oakland that are usable across all public transit providers in Oakland; and

WHEREAS, Oakland Municipal Code (OMC) section 2.04.050 requires formal advertising and competitive bidding when the City purchases services, supplies or combination thereof required by the City which exceeds \$50,000.00; and

WHEREAS, OMC section 2.04.050 I.5 permits the Council to waive these requirements upon a finding and determination that it is in the best interests of the City to do so; and

WHEREAS, OMC section 2.04.051.A requires staff to conduct a competitive RFP/Q selection process for the procurement of professional services; and

WHEREAS, OMC section 2.04.051.B authorizes the City Council to waive the RFP/Q requirement upon a finding that it is in the best interests of the City to do so; and

WHEREAS, this action is exempt from the California Environmental Quality Act ("CEQA") pursuant to Public Resources Code Section 21080(b)(13) and CEQA Guidelines Section 15273 (Transportation Improvement And Congestion Management Programs) because CEQA does not apply to preparation and adoption of a congestion management program by a county congestion management agency pursuant to Government Code Section 65089, et seq.; now, therefore be it
