**NOTICE OF OAKLAND CITY COUNCIL HEARING ON
PIEDMONT WALK HOMEOWNERS ASSOCIATION'S REQUEST FOR
RESOLUTION ON STATEMENT OF NECESSITY**

Date: Tuesday, July 21, 2020

Time: 1:30 p.m.

Place: Via Tele-Conference

PURSUANT TO CODE OF CIVIL PROCEDURE SECTION 1245.350 PLEASE TAKE NOTICE: On July 21, 2020, during a regularly noticed meeting, the Oakland City Council will address the Piedmont Walk Homeowners Association's Request for Resolution on the Necessity of the temporary exercise of private eminent domain of the property located at 58 Yosemite Ave. Oakland, CA 94611 for the purpose of completing necessary repairs to the north facing exterior of the building located at 70 Yosemite Ave., Oakland, CA 94611. Enclosed with this notice is the draft city council resolution and accompanying exhibits.

You have the opportunity to attend and be heard on this resolution and may do so by contacting the Oakland City Clerk's office at: (510) 238-3226 or by email at: cityclerk@oaklandnet.com. You may also contact Councilman Dan Kalb's office at (510) 238-3557 or by email at: dross@oaklandca.gov.

OAKLAND CITY COUNCIL

RESOLUTION NO. _____ C.M.S.

INTRODUCED BY COUNCILMEMBER KALB

ADOPTION OF A RESOLUTION OF NECESSITY FOR THE ACQUISITION, BY EMINENT DOMAIN, OF A TEMPORARY RIGHT OF ENTRY TO THE PROPERTY LOCATED AT 58 YOSEMITE AVENUE, OAKLAND, CALIFORNIA, PURSUANT TO CALIFORNIA CIVIL CODE SECTION 1002 AND CODE OF CIVIL PROCEDURE SECTIONS 1245.326 ET SEQ., BY THE PIEDMONT WALK HOMEOWNERS ASSOCIATION OF 70 YOSEMITE AVENUE, OAKLAND, TO COMPLETE NECESSARY REPAIR WORK

WHEREAS, Piedmont Walk Homeowners Association is located at 70 Yosemite Avenue, Oakland, California (the "Association"); and

WHEREAS, The Association is a 23 Unit condominium project ("Association Building") originally constructed in 1982; and

WHEREAS, The Association, pursuant to its recorded Declaration of Covenants, Conditions, and Restrictions ("CC&Rs"), is required to maintain, repair, and replace all elements of the common area of the Association Building, including the exterior siding and framing members; and

WHEREAS, The Association Building has sustained severe water intrusion to the structure which now requires the Association to perform necessary testing and repair work to the north exterior side; and

WHEREAS, Without repairs, the Association Building will continue to experience water intrusion, further damaging the structure and could potentially collapse and endanger the building's residents and those in neighboring properties (the "Repair Work"); and

WHEREAS, To the north of the Association Building is a neighboring building located at 58 Yosemite Avenue, Oakland, California, specifically defined in the Grant Deed attached as Exhibit A, a rental investment property owned by Bethoven and Dina Payumo (the "Payumos" and their property, the "Payumo Property"); and

WHEREAS, In order for the Association to perform the Repair Work to the north exterior of the Association Building, it needs to gain temporary access to the Payumo Property, primarily to the exterior side yard abutting the Association Building, limited access to the portion of the exterior rear parking lot nearest to the Association Building, and potentially limited roof access, in the area more specifically depicted on Exhibit B attached hereto and made a part hereof (“ROE Area”); and

WHEREAS, The Association Building hired Scott Swinton of Unlimited Property Services, Inc., who reported, (see Declaration of Scott Swinton attached hereto as Exhibit C and testimony of Scott Swinton), that based on the condition of the stucco, the Association Building likely has severe deterioration of the wall framing which negatively impacts the structural integrity of the wall and building as a whole; and

WHEREAS, Mr. Swinton further reported that testing and repairs to the exterior siding cannot, in fact, be accomplished without placing ladders and scaffolding on the Payumo Property because completing the repair work from inside the Association Building cannot be completed safely or at all, or would be extremely cost prohibitive; and

WHEREAS, Mr. Swinton further confirmed, that because of the sloped roof on the Association Building and the extension of the soffit from the Payumo Property, the use of swing stage scaffolding suspended from above the Association Building is not an option; and

WHEREAS, For nearly five years, the Association has attempted to obtain permission from the Payumos for access to the Payumo Property through a temporary right of entry; and

WHEREAS, The Payumos have persistently refused to execute the requested access agreement as evidenced in the attached Exhibit D; and

WHEREAS, Without the Repair Work, the occupants of the Association Building will be negatively impacted through permanent loss of property and adverse health conditions related to severe and persistent water intrusion, which outweigh any hardship to the occupants of the Payumo Property which may include noise disturbances from the Repair Work and limited restrictions to the parking lot located on the Payumo Property; and

WHEREAS, The entry to the Payumo Property and Repair Work will be conducted in a manner that will provide the least damage to the Payumo Property and the least inconvenience or annoyance to the owners and occupants by limiting entry onto the Payumo Property to only the exterior side yard abutting the Association Building, staging the repair work from the street, and limiting the use of the Payumo Property parking lot to allow for the continued use of the parking lot by the occupants of the Payumo Property; now therefore be it

RESOLVED: That the City Council has determined that there is a great necessity to complete the Repair Work at the Association Building, because without the Repair Work, the surrounding community is adversely affected through the potential hazard caused by the unrepaired building and the continued degradation of the building contributes to neighborhood blight; and be it

RESOLVED, That City Council has determined that there is a great necessity to enter upon the Payumo Property to complete the testing and Repair Work, because the testing Repair Work cannot be completed safely or at all without entry onto the ROE Area; and be it

RESOLVED, That City Council finds that the hardship to the Association Building clearly outweighs any hardship to the owners and occupants of the Payumo Property if the Association is unable to temporarily obtain the right of entry on the ROE Area to conduct the necessary Repair Work; and be it

RESOLVED, That City Council has determined that the Association has exhausted all other possible remedies to obtain entry to the Payumo property in order to complete the Repair Work; and be it

RESOLVED, That City Council finds that the right of entry on the ROE Area will be exercised by the Association and its contractors in a manner which provides the least damage to the property and the least inconvenience or annoyance to the occupants or owners thereof consistent with satisfactory completion of the repair or reconstruction work; and be it

FURTHER RESOLVED, That City Council finds that the requirements set forth in California Civil Code Section 1002(a) and Code of Civil Procedure Sections 1245.326 et seq. have been met and hereby adopts this Resolution of Necessity for the property interest and purposes set forth herein; and be it

FURTHER RESOLVED, That City Council directs the Association Building to diligently take all steps necessary to procure the requisite temporary right of entry on the ROE Area and to perform the Repair Work in a manner that provides the least damage to the Payumo Property and creates the least inconvenience or annoyance to the owners and occupants of such property.

EXHIBIT C

DECLARATION OF SCOTT SWINTON

I, Scott Swinton, declare as follows:

1. I am the principal of Unlimited Property Services, Inc., which is located at 2250 Central St. Suite A, Richmond, CA 94801. I have personally inspected the property located at 70 Yosemite Avenue, Oakland, California and the information provided in this declaration is based on my personal knowledge unless otherwise stated.

2. I hold a Class B contractor's license with the Contractors State License Board for the State of California. (See Exhibit 1.) I have extensive experience performing repair and reconstruction projects. My current curriculum vitae is attached as Exhibit 2.

3. I have been engaged by the Piedmont Walk Homeowners Association to consult on a repair project to the south elevation of the building. From my visual inspection of the building, the south elevation has a stucco exterior that appears to have suffered from extensive water intrusion over the years. The condition of the stucco, plus historical data from other elevations on this building indicate to me that there may be deterioration of the framing at the south elevation of the building. However, in order to evaluate the structural integrity and condition of the framing, we need to perform destructive testing at the south elevation.

4. The HOA building is located at 70 Yosemite Avenue, Oakland, California. On January 6, 2020, I personally inspected the property and determined the necessity of obtaining access to the neighboring property in order to test and conduct the repairs to the building's stucco exterior (See Exhibit 3.) The south elevation of the building immediately abuts the common property line with the neighboring property located at 58 Yosemite Avenue, Oakland, California. The properties are separated by a gap varying between 36" and 38" wide. The entire gap is part of the property located at 58 Yosemite. In order to perform destructive testing, it is necessary to gain access to the neighboring lot located at 58 Yosemite Avenue. To perform destructive testing, we would need access to the neighboring property for three days. We would need to place ladders on the neighboring property and strip portions of the stucco from the building to evaluate the framing members behind the stucco.

5. After completing destructive testing, we can then develop a scope of work for the repair. Depending on the extent of damage, we would need access to the neighboring property for anywhere between a few weeks and several months. The repair work would require the installation of scaffolding on the neighboring property. There should be no damage to the neighboring property or residential structure. No excavation would be required.

6. Because the neighboring structure and the HOA building are in such close proximity to each other, especially at the roof line, it may be necessary for use to stand on the roof of the neighboring residential structure. No damage to the roof would result from this activity.

7. Access to the neighboring property is the only way to perform the required repairs to the south elevation of the HOA building. Accessing the framing members through the HOA

residential units is not feasible given that residents would be displaced and would have to move out of their unit's altogether. Furthermore, it would be impossible to reapply exterior stucco from the interior of the HOA building. Therefore, it is an absolute necessity that we access the south elevation from the neighboring property.

8. In my view, repairs to the south elevation of the HOA building are necessary to ensure continued performance of the building. Without repairs, the building will continue to suffer from water intrusion which would compromise the structural integrity of the building.

9. As the construction manager of the destructive testing and repair project, we will ensure that entry upon the neighboring property will be exercised in a manner that minimizes any possible damage to the property and minimizes inconvenience to the residents.

I declare under penalty of perjury that the foregoing is true and correct. Executed this 22nd day of January, 2020.

Subject: Response to Piedmont Walk - Access Agreement

Mr. Windust,

As we have repeatedly stated before, for safety and liability reasons, we do not want any construction that you perform to take place on our property.

Thank you,
Dina Payumo

January 8, 2018

Reference: Piedmont Walk HOA Access for Water Damage Repair

Mr. Windust,

This is in response to your letter to us dated December 21, 2017 in which you asked for our response to your request for us to allow access to our property at 58 Yosemite Avenue, Oakland to complete a construction project at your client's adjacent property at 70 Yosemite Avenue. After giving your request considerable thought, and considering the wellbeing of our tenants, we decline your client's request to have access to our property. Allowing your client access to our property will cause undue hardship to our tenants and the potential for injury to them and damage to our property. You have not offered any compensation and indemnification for this.

In the San Francisco Bay Area, there are many single family homes and multi-unit residential buildings that are very close to each other. Many, especially in San Francisco, have exterior walls that actually touch the house next door. If the type of remediation is performed on these buildings, like that your client is proposing to do, this would need to be done from the interior of the building. There are certainly many contractors locally who have experience doing this. We suggest that your client hire one these contractors who can perform the work from the interior of the building so that they do not need to access our property at all.

We like to be good neighbors, but in the leases that we have with our tenants, they are guaranteed quiet enjoyment of the premises. They are also provided with parking spaces. If we allow your client access to our property, the construction noise and the denial of our tenants' parking would cause a breach of contract on our part with our tenants. This may cause some or all of our tenants to vacate the premises and result in a great loss of rental income to us.

We hope that you understand our position on this and that you advise your client to perform the remediation project from the interior of their building and to do this as quietly and safely as possible so as not to disturb or cause harm to our tenants.

Respectfully yours,

Bethoven Payumo
