THIS REPORT IS HIERARCHY BASED. CRIME TOTALS REFLECT ONE OFFENSE (THE MOST SEVERE) PER INCIDENT.

These statistics are drawn from the Oakland Police Dept. database. They are unaudited and not used to figure the crime numbers reported to the FBI's Uniform Crime Reporting (UCR) program. This report is run by the date the crimes occurred. Statistics can be affected by late reporting, the geocoding process, or the reclassification or unbounding of crimes. Because crime reporting and data entry can run behind, all crimes may not be recorded.

* Justified, accidental, fetal, or manslaughter by negligence. Traffic collision fatalities are not included in this report.

Police Area 4 – Captain Jake Bassett

Aggravated firearm assaults – 91 percent increase; a 65 percent decrease from 2021 Quarter 1 - but significant increase YTD.

- A significant portion of the violence was being driven by group or gang conflicts and homeless encampment related circumstances.
- Area 4 Command initiated the following to address the firearms assault increase:
 - Intelligence reports were provided to Patrol Commanders to direct available resources to those areas most effected by violent crime.
 - Prioritized patrol and supplemental presence during times, days and locations where offenses were trending.
 - A ShotSpotter detail was developed focusing on crime analysis of where to direct resources on a bi-weekly basis.
 - Collaboration with Department of Violence Prevention on known victims of violent crime with attention to the mitigation of retaliatory violence.

Police Area 4 – Captain Jake Bassett

- The Violent Crime Operations Center (VCOC) and stakeholders directed resources to those locations and those individuals who were most likely driving the violence.
- Prioritized Ceasefire strategies and referrals/requests to and for assistance, outreach, and prevention.
- A walking detail was created to mitigate robberies due to increased trend of victims being shot despite their cooperation.
- Ensured thorough preliminary investigations were being completed and followed up on in partnership with the Criminal Investigations Division.
- Hosted community meetings with Councilmembers, the City Administrator Office, local community groups, and OPD Unhoused Unit to identify encampments responsible for violent criminal activity and submit them for potential relocation.

This report is hierarchy based. Crime totals reflect one offense (the most severe) per incident.

These statistics are drawn from the Oakland Police Dept. database. They are unaudited and not used to figure the crime numbers reported to the FBI's Uniform Crime Reporting (UCR) program. This report is run by the date the crimes occurred. Statistics can be affected by late reporting, the geocoding process, or the reclassification or unbounding of crimes. Because crime reporting and data entry can run behind, all crimes may not be recorded.

All data extracted via Coplink Analytics. All totals include attempts except homicides.

Police Area 5 – Acting Captain Casey Johnson

Homicides in Area 5 have increased by 85 percent as of June 30th, compared to 2020. Area 5 Command, as a result, has deployed the following measures:

- Data and intelligence reviewed to identify possible groups or gangs escalating the violence, as well as individuals most likely engaged in at-risk circumstances.
- Partnered with the Department of Violence Prevention who assisted in reaching out to involved parties to prevent further violence.
- The VCOC focused on individuals driving the violence who have also refused resources.
- Weekly meetings (Shooting Review) conducted with local stakeholders and law enforcement partners to share information, resources, and strategies; monthly meetings with District 7 Councilmember (Reid) and other city stakeholders to discuss resources and strategy.

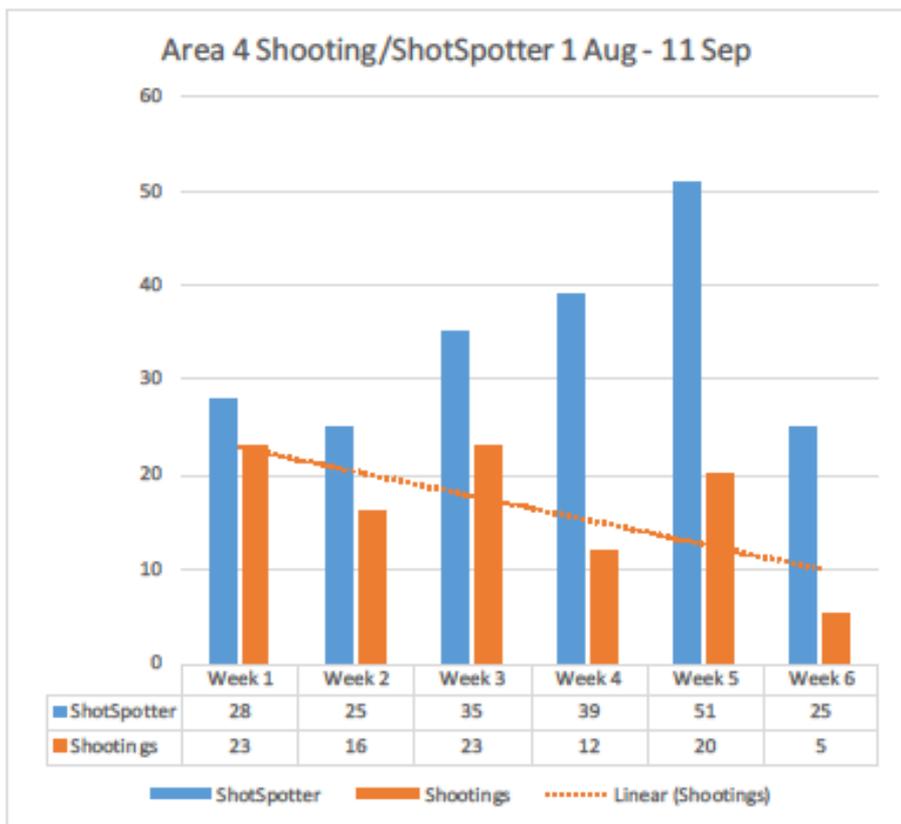

Police Area 5 – Acting Captain Casey Johnson

Aggravated firearm assaults in Area 5 increased 135% during this period compared to 2020. Area 5 Command, as a result, has deployed the following measures:

- Prioritized Ceasefire strategies and referrals and requests to and for assistance, outreach, and prevention.
- Review of ShotSpotter activity as well as information from victims of shootings showed concentrations in areas where groups or gangs were known to gather. Information provided to patrol commanders to direct available resources in those areas most effected by violent crime.
- Overtime details (ShotSpotter response and walking officers) added to focus on identified locations with increased firearm-related aggravated assaults. Also Prioritized patrol and supplemental presence for prevention and intelligence-led stops during times/days and locations where offenses were trending.
- Emphasis on ensuring thorough preliminary investigations completed and sent to the Criminal Investigations Division for follow-up.

Dispatched Calls for Service

- Several times a month OPD Communications (dispatch) faces 100+ calls for service waiting to be assigned to available patrol officers at any one time.
- This service queue occurs nearly everyday, as OPD often faces a higher call volume than can be handled by available personnel. The complexity or nature of individual calls can also cause delays when additional personnel are needed to safely or adequately handle critical incidents or investigations.

Dispatched Calls for Service

- During these times of 100+ calls for services queues, OPD takes the following actions:
 - A “no 950” status” notification is sent. A “no 950 status” means that a watch commander has made the determination that available patrol resources are dedicated to answering active and standing calls for service rather than respond to “cold” calls for crime reports where the suspect is no longer on-scene and no immediate or imminent danger exists.
 - Calls are dispatched and answered based on priority.
 - For non-urgent calls, OPD dispatchers may be directed to tell callers to call back when there is greater capacity to respond and/or that online reporting options may be available.
 - When possible, OPD Command redeploys officers from a lower crime and lower call volume Police Beat or Police Area to Police Beats and Areas impacted by a disproportionate number of standing calls for service.
