OFFICE OF THE CITY CLERK

My name is Diana Alonzo and I am a sophomore at Oakland Tech. I live with my mother and two younger sisters. My family is from Guatemala. I have kept a 4.0 since sixth grade. In the eight grade I joined Mills Upward Bound because I want to go to college.

This is my second year working with Attitudinal Healing Connection, with whom I started out as a student in the Fashion Design class. Helping teach the classes that *Attitudinal Healing Connection* provides helps me make a big difference in my community. I am keeping a lot of kids off the streets and I gain something from this program everyday.
