RESOLUTION NO. \_\_\_\_\_ C.M.S.

INTRODUCED BY COUNCIL PRESIDENT PATRICIA KERNIGHAN

## RESOLUTION IN SUPPORT OF CALIFORNIA SAFE DIGGING MONTH

**WHEREAS**, excavators, homeowners, and professional contractors can save time and money while making California's communities a safer place to live and work by dialing 811 in advance of all digging projects; and

**WHEREAS**, the 811 "Call Before You Dig" program is a vital public education and awareness program dealing with the safety of subsurface excavation, and education is the key to promoting safe digging practices; and

**WHEREAS**, the five steps to a safe excavation are: survey and mark, call before you dig, wait the required time, respect the marks, and dig with care; and

**WHEREAS**, utility lines are often buried only a few inches underground, making them easy to strike and cause damage and harm even during shallow excavation projects; and

**WHEREAS**, more than 170,000 underground utility lines are struck each year in the United States and approximately 33 percent of all digging damages in the United States result from not calling 811 before digging; and

**WHEREAS**, undesired consequences, such as service interruption, outages, damage to public and private infrastructure and property, damage to the environment, personal injury, and death, are risked by failing to call 811 before digging or safely marking utility lines; and

**WHEREAS**, calling 811 to be connected to a "One Call Center" before digging, respecting the color-coded lines that demarcate underground utilities, and digging with care around the marked lines will help keep Californians safe and prevent damages and destruction; and

**WHEREAS**, as California's economy recovers from the recent recession and the state's economic recovery stimulates new construction, new construction requires supporting infrastructure, and California's underground utility infrastructure is jeopardized by unintentional damage caused by those who fail to call before digging; and

**WHEREAS**, Underground Service Alert of Northern California and Nevada, in cooperation with California's public and private utilities, provides an effective damage prevention service that protects California's citizens, communities, public services, environment, and underground facilities at no cost to the caller; and

**WHEREAS**, the free notification service provided by Underground Service Alert of Northern California and Nevada has dramatically reduced the number of accidents causing property damage, personal injury, and interruption of vital services; and

**WHEREAS**, California public agencies should enforce California Government Code 4216 regarding safe excavation practices, permitting and civil penalties; now therefore be it

**RESOLVED** That the Oakland City Council declares November 2014 as California Safe Digging Month and encourages all excavators, homeowners and professional contractors to call 811 in advance of all digging projects.
