development projects in response to increasing volume of applications for such projects. Funding for the work will be fully paid by the requesting applicants.

The professional services agreements for declared emergency response are needed to provide timely damage assessment report review, plan check, inspections and public right-of-way plan checks in the event of federally declared disaster. Funding for the declared emergency response contract will initially come from the Development Service Fund Balance (Fund 2415), and by fees paid by requesting applicants. In the event of a federally declared natural disaster, at least 75 percent of the funds for the services provided in the contract may be eligible for Federal Reimbursement through the Federal Emergency Management Agency (FEMA) to repay use of fund balance.

BACKGROUND / LEGISLATIVE HISTORY

The Bureau of Building in the Planning and Building Department (PBD), the Division of Strategic Planning in the Oakland Department of Transportation (DOT) and the Oakland Fire Prevention Bureau (FPB) in the Oakland Fire Department (OFD) assist builders, property owners, architects, engineers, and realtors in understanding and processing permits related to building construction. The Bureau of Building, Engineering Services, DOT Right of Way Management Division and Oakland Fire Prevention Bureau include engineering plan check staff and inspectors who review and approve development plan submittals and inspect for code compliance related to building safety, fire/life safety, accessibility, energy conservation, and other related issues.

A Request for Proposals (RFP) was issued in March 2016 (2016 RFP) and in accordance with Resolution No. 86302 C.M.S. Following the 2016 RFP, professional services agreements were executed with two firms, CSG Consultants, Inc., and TRB + Associates, Inc., to provide on-call plan check services. Both contracts were for two-year terms and a not-to-exceed amount of one million dollars (\$1,000,000) for each firm.

A second Request for Proposals was issued in March 2017 (2017 RFP) and in accordance with Resolution No. 87041 C.M.S. Following the 2017 RFP, professional services agreements were executed with two firms, 4Leaf Inc., and West Coast Code Consultants Inc. (WC3 Inc.), to provide on-call plan check services. Both contracts were for two-year terms and a not-to-exceed amount of one million five hundred thousand dollars (\$1,500,000) for each firm. Additionally, in accordance with Resolution No. 87041 C.M.S., the term and amount for existing professional services agreements with CSG Consultants Inc. and TRB + Associates, Inc. were amended to add two-year terms and a not-to-exceed amount of one million five hundred thousand dollars (\$1,500,000). The City has been utilizing all four firms and each contract is currently near the not-to-exceed limit.

In August 2019, The City of Oakland's Planning and Building Department, Fire Prevention Bureau, and Department of Transportation issued a Request for Qualifications (2019 RFQ) for on-call (as-needed) Plan Check and Inspection services and Post Disaster Building Damage Assessment Review, Plan Check and Inspection Services. Five proposals were received in response to this 2019 RFQ. The five firms in the 2019 RFQ included four firms currently under

contract from the 2017 RFP and one new firm. All five firms were evaluated by subject matter experts from PBD, DOT, and FPB.

ANALYSIS AND POLICY ALTERNATIVES

Adopting the attached resolution will enable the City to enter into contracts with a total of five consulting firms to provide supplemental engineering plan checking and inspections of building permit applications to maintain acceptable turnaround times during periods with a high volume of activity. The resolution will also ensure the City will have additional capacity to perform inspections, plan checks and review damage assessment reports after a declared emergency. Contracting with five firms will provide the City with flexibility to distribute work as-needed, to maximize the benefits to the development community while accounting for the work backlog of both staff plan reviewers and each consultant.

Prior to the issuance of the 2019 RFQ, and in accordance with current Memorandums of Understanding (MOUs) terms, the Contracts and Compliance Division issued formal notification to labor unions International Federation of Professional and Technical Engineers (IFPTE) Local 21 and Service Employees International Union (SEIU) Local 1021. Prior to issuing the notification, PBD met with SEIU Local 1021 on December 17, 2018, and January 9, 2019 to discuss the union's concerns related to On-Call Inspection services. After issuing the notice of intent to publish the RFQ, PBD management met with SEIU Local 1021 on August 19, 2019. All information requested by SEIU Local 1021 was transmitted on August 27th and August 30th. To date, the City has not received any additional information or request from SEIU Local 1021 related to this RFQ.

The City's Contracts & Compliance Division received five proposals in response to the 2019 RFQ. The five firms were:

- 4Leaf, Inc.
- WC3 Inc.
- TRB + Associates, Inc.
- CSG Consultants
- Bureau Veritas North America, Inc.

Each firm was evaluated by PBD, DOT, and FPB subject matter experts based on relevant experience, qualifications, organization, approach, and fee structure. PBD and FPB rated each of the five firms as well-qualified to perform the requested services for their respective divisions. DOT determined that only 4Leaf, Inc., WC3 Inc., and CSG Consultants were responsive and qualified to provide the desired plan check and inspections services for DOT.

The proposals also received a Compliance Analysis by the Contracts & Compliance Division. 4Leaf, Inc. and Bureau Veritas North America, Inc. received credit (50 percent) for proposed Local and Small Local Business Enterprise (L/SLBE) participation. Bureau Veritas North America, Inc. would need to come into compliance with the Equal Benefits Ordinance (EBO) prior to full contract execution.

FISCAL IMPACT

The On-Call service agreement for WC3 Inc., 4Leaf, Inc., and CSG consultants Inc. will be for an amount not-to-exceed \$2,655,000 each. The On-Call service agreement for TRB + Associates Inc., and Bureau Veritas North America Inc., will be for an amount not-to-exceed \$2,460,000 each, over a three-year term, with two one-year options to extend. Funding for the on-call contract work will be fully paid by the requesting applicants. As a result, approval of these resolutions will allow the City Administrator, or designee, to appropriate these applicant funds as they are received. Approval of this resolution does not have a negative impact on the City's budget.

The total On-Call Service Agreements for the five consulting firms will be for an amount not-to-exceed \$12,885,000 over the total three-year term. PBD's portion of the total service agreements will be for an amount not-to-exceed \$10,500,000. DOT's portion of the total service agreements will be for an amount not-to-exceed \$585,000. OFD's portion of the total service agreements will be for an amount not-to-exceed \$1,800,000.

The Declared Emergency Response Agreement for WC3 Inc., 4Leaf, Inc., and CSG consultants Inc. will be for an amount not-to-exceed \$620,000 each. The Declared Emergency response agreement for TRB + Associates Inc., and Bureau Veritas North America Inc. will be for an amount not-to-exceed \$520,000 each, over a three-year term, with two one-year options to extend.

The total Declared Emergency Response Agreement for the five consulting firms will be for an amount not-to-exceed \$2,900,000 over the total three-year term. PBD's portion of the total service agreements will be for an amount not-to-exceed \$2,200,000. DOT's portion of the total service agreements will be for an amount not-to-exceed \$300,000 OFD's portion of the total service agreements will be for an amount not-to-exceed \$400,000.

Funding for the declared emergency response contract will initially come from the Development Service Fund (Fund 2415). The funds will be paid back to the Development Service Fund from federal reimbursements and by fees paid by requesting applicants.

PUBLIC OUTREACH / INTEREST

The bidding, contracting, and purchasing processes were conducted in accordance with Oakland Municipal Code (OMC) 2.04.051 for professional services contracts. The City's procurement system, iSupplier, was used for distribution of the 2019 RFQ and it was also formally advertised in the *East Bay Times*, *San Francisco Chronicle*, and posted with the International Code Council, the International Association of Plumbing and Mechanical Officials, National Fire Protection Association, Structural Engineers Association of California, and the American Institute of Architecture.

COORDINATION

This report and resolution were coordinated with PBD Bureau of Building, OFD Fire Prevention Bureau, DOT Strategic Planning Division, and reviewed by the City Attorney's Office and the Budget Bureau.

SUSTAINABLE OPPORTUNITIES

Economic: Expedited plan check services will result in quicker issuance of building permits and subsequently, building construction. New construction creates jobs during construction and new buildings result in new residences and/or businesses in Oakland. In the event of a declared emergency, the added capacity to make damage assessments and provide plan check services will minimize the economic impact on the residents of the city.

Environmental: These services contracts would provide assistance on projects throughout Oakland that would adhere to City environmental standards. In the event of a declared emergency, the added capacity will allow us to identify potential environmental hazards in a timely manner.

Race and Equity: These services contracts would provide assistance on projects throughout Oakland that would ensure that the City's resources are distributed equitably to its residents.
