# AGENDA REPORT

**TO:** Sabrina B. Landreth  
City Administrator

**FROM:** Ian Appleyard  
Director, HRM

**SUBJECT:** Semi-Annual Vacancy Report

**DATE:** October 23, 2017

---

City Administrator Approval

Date:

11/1/17

## RECOMMENDATION

**Staff Recommends Acceptance Of This Semi-Annual Informational Report On Budgeted Vacant Positions Through October 9, 2017.**

## EXECUTIVE SUMMARY

This is an informational report that provides an update on vacant positions as of October 9 2017. **Table 1** on the second page of this report provides a citywide summary by fund categories and position type, illustrating that 9.50 percent of positions citywide are vacant. **Attachment A** provides a list of the vacancies citywide, broken out by department or agency, including the primary fund associated with the position. **Attachment B** provides a list of positions that were added in the fiscal year (FY) 2017-19 Adopted Policy Budget and indicates the status of filling each position. **Attachment C** provides a list of the vacancies in the Oakland Public Works Department (OPW) and the Department of Transportation (DOT), including the primary fund associated with the position and the date which the position became vacant.

## BACKGROUND / LEGISLATIVE HISTORY

The Human Resources Management Department (HRM) provides a semi-annual report on vacancies to the Finance and Management Committee and Public Works Committee as a standing item.

## ANALYSIS AND POLICY ALTERNATIVES

The lists of vacancies provided in **Attachment A** reflect "true vacancies" citywide. A "true vacancy" is defined as a vacant position that is available to be filled and is not personnel-encumbered in any other way, i.e. linked, frozen, funding allocated (fully or partly) to temporary personnel staffing, overtime, or to fund backfill/acting costs.

In the last report presented in April 2017, there were 348.37 Full Time Equivalent (FTE) positions vacant citywide; as of October 9, 2017, there were 406.70 FTE positions vacant

citywide, which represents 9.50 percent of positions. In general, six percent to eight percent of positions are vacant at any one time. The percentage of vacant positions supports the budgeted “vacancy factor” of zero-six percent, depending on the department. The budgeted vacancy factor is a percentage of a department’s overall budgeted personnel cost – but the budgeted value of the vacancies may or may not be sufficient to cover the budgeted vacancy factor. The vacancy factor would not be met if, for example, all of a department’s vacancies are in positions with the lowest value. Additionally, this report regarding vacant positions always reflects a snapshot in time. The number of vacant positions and which positions are vacant changes constantly. The budgeted vacancy factor is a fixed ratio applied to the total personnel allocation for a given department – the number of vacant positions and the percentage of vacant positions does not correlate directly to the budgeted vacancy factor.

The vacancy rate is currently above the range that is considered the general average. The slight increase in the vacancy rate is attributed to the establishment of 133.00 FTE of new positions added to the FY 2017-19 Adopted Budget. Human Resources Management has recruitments for ninety-one (91) positions in various stages of planning or completion.
