RE: **A Report And Resolution Granting Press Building Associates, LLC, A Revocable And Conditional Permit For A Building At 406 12th Street To Allow The Existing Basement To Encroach Under The Sidewalk Along 12th Street And Franklin Street**

SUMMARY

A resolution has been prepared granting Press Building Associates, a California limited liability company (no. 200613510245) and owners of the former Tribune Press Building at 406 12th Street, a conditional and revocable permit (EMNJ 07097) that will allow the existing basement to encroach under the sidewalk along 12th Street and Franklin Street.

FISCAL IMPACT

Staff costs for processing the proposed encroachment permit are covered by fees set by the Master Fee Schedule and have been paid by the property owner and were deposited in the special revenue Development Service Fund (2415), Engineering Services organization (88432), Encroachment Permits account (42314), Engineering and Architectural Plan Approval (PS30). The standard conditions of the encroachment permit require the property owner to maintain liability and property damage insurance and to include the City as a named insured.

PROJECT DESCRIPTION

The property is located at the intersection of 12th Street and Franklin Street (APN 002-0051-004-00) in the downtown district. The developer is renovating the interior and exterior of the office building (OCHS historical rating Dc1+) and repairing the structural sidewalk above the basement. Building Services requires that property owners obtain permits retroactively for existing encroachments into the public right-of-way when an application is submitted for work associated with the encroachment.

KEY ISSUES AND IMPACTS

Oakland Municipal Code Section 12.08.030 requires that applications for encroachments of basements, vaults, etc. into the public right-of-way receive approval of the City Council as a condition of permit issuance. The existing basement extends approximately fourteen (14) feet under the sidewalk along 12th Street and thirteen (13) feet along Franklin Street. The basement has not interfered with the public's use of the right-of-way or with the maintenance of underground public utilities since it was constructed in 1912. The City Council has previously approved other existing basement encroachments for buildings in the downtown district.

SUSTAINABLE OPPORTUNITIES

Economic

The remodeling of the building will provide opportunities for professional services and construction related jobs for the Oakland community.

Environmental

Land use approvals and construction permits for real property and building improvements require that the permittee comply with City ordinances and regional Best Management Practices for reducing nuisance noise, fugitive dust, construction debris disposal, and pollutant runoff.

Social Equity

The renovation project will assist the economic revitalization of the commercial district.

DISABILITY AND SENIOR CITIZEN ACCESS

Construction permits for the sidewalk repair and the building remodeling will conform to State and City requirements for handicapped accessibility.

RECOMMENDATIONS

Staff recommends that the Committee accept this report and forward it to the City Council to adopt the proposed resolution approving the encroachment under the public sidewalk.

ACTION REQUESTED OF THE CITY COUNCIL

Staff recommends that the City Council accept this report and adopt the proposed resolution granting Press Building Associates, LLC, a conditional and revocable encroachment permit to allow an existing basement to encroach under the sidewalk along 12th Street and Franklin Street.
