Mayor Schaaf and Councilmembers: I am a resident of Oakland since 2005, and a longtime library patron. Especially since my partner and I welcomed our first child, we have appreciated the Oakland library system's support for diverse families like ours. As queer, transgender parents of a mixed-race child, we feel included in programming and content represented in our Oakland libraries. I am also an educator with a Masters in Museum Education who now teaches maker-style engineering education to racially and culturally diverse 2nd-5th graders, including English Language Learners and students with learning differences, in an independent school outside of Oakland. I see the social and emotional benefits of maker education for my students, and I want those benefits to be accessible to low income families and older adults as well. I also have experience in fundraising and development, human resources, and non-profit management. I would like to support the Oakland Public Library System in becoming more financially sustainable and more widely used by its diverse constituents. I would like to preserve the Oakland Public Library System's commitment to our diverse community. I would also like to support the Oakland Public Library System in developing programming that can attract financially supportive partnerships and bring the benefits of maker education to those who have not been able to afford or access such programs. Thank you for reviewing my qualifications for Library Commission, and for your support for public libraries. Regards, Kerrick A. Goodman-Lucker
