ATTN: Deborah Edgerly, City Manager  
FROM: Public Works Agency  
DATE: March 29, 2004

2004 APR -1 PM 4: 50

RE: **SUPPLEMENTAL REPORT RESPONDING TO A REQUEST MADE  
AT THE MARCH 23, 2004 PUBLIC WORKS COMMITTEE  
MEETING ON THE CITYWIDE TRAFFIC SIGNAL PRIORITY LIST**

---

**SUMMARY**

At the March 23, 2004 Public Works Committee meeting, committee members requested the Citywide Traffic Signal Priority List during the committee review of the report, for the resolution authorizing the City Manager to award a construction contract to W. Bradley Electric for the construction of traffic signal projects at the intersections of International Boulevard and 25<sup>th</sup> Avenue, and Broadway at Broadway Terrace and College Avenue. The priority list information is presented in the attached document.

The traffic signals at International Boulevard and 25<sup>th</sup> Avenue, and Broadway at Broadway Terrace and College Avenue were programmed during the 2001-2003 budget cycle, and approved as part of the 2001-2006 Capital Improvement Program (CIP). The Traffic Signal Priority List is updated periodically to respond to community requests, and to proactively evaluate intersections with high accident histories or with significant changes due to development since the intersection was last evaluated. These periodic re-evaluations of intersections can result in changes to the rankings on the Citywide Traffic Signal Priority List. While the Citywide Traffic Signal Priority List has over 300 intersections evaluated and rated, it is likely that only about the top 25 to 30 locations would warrant installation of a traffic signal.

Respectfully submitted,

\_\_\_\_\_  
**RAUL GODINEZ II**  
Director, Public Works Agency

Prepared by:  
Wladimir Wlassowky, P.E.  
Interim Transportation Services Manager

APPROVED AND FORWARDED  
TO THE CITY COUNCIL:

\_\_\_\_\_  
**OFFICE OF THE CITY MANAGER**

Item #: 22  
City Council  
April 6, 2004

## Citywide Traffic Signal Priority List

**GENERAL** - The City's existing traffic signal system currently consists of 550 signalized locations. Traffic signals are added when there is an identified need in the areas of traffic flow and safety, and pedestrian safety and access.

**PRIORITIZATION** - The prioritization of traffic signal installation is based on the following factors:

- **Traffic Signals (Primarily for Vehicular Safety with Consideration for Pedestrian and Bicycle Safety):** Projects are prioritized based on the following criteria, in accordance with established standards published by the State of California, Department of Transportation (Caltrans), Traffic Manual, and Public Works standard practice:
  - Vehicular Volumes, 10 points max.
  - Interruption of Continuous Traffic, 5 points max.
  - Pedestrian Volumes, 5 points max.
  - Accident Data, 7 points max.
  - Other, Site Specific Special Conditions to be Evaluated, No Points
  
- **Pedestrian Priority Intersections (Primarily for Pedestrian and Bicycle Safety):** Public Works establishes guidelines for pedestrian priority intersections. Improvements to pedestrian safety may include features such as striping and signage, bulbouts and sidewalk improvements, medians and islands, as well as traffic signals. The programming of pedestrian priority intersection locations is prioritized based on the following factors:
  - Intersection Pedestrian Accident Historical Data
  - Other, Site Specific Conditions

**FUNDING** - Traffic signals are funded in the Capital Improvement Program (CIP) from Measure B sales tax and gas tax, and the City generally programs two to three signals per year from these sources. One signal per year is funded from a set-aside from Measure 'B' funds specifically earmarked for bicycle and pedestrian improvements. Additional signals may be funded from state and federal grants, and traffic impact mitigation for developments.

The attached tables, Exhibit A and B, show the Traffic Signal Priority List and the Pedestrian Priority Intersections, showing historical pedestrian accident data for the top high incident intersections.
