FURTHER RESOLVED: that should Becker be required or desire to change a non-City Entity listed in **Exhibit D** attached hereto, then the City Council shall review and approve any new or substitute non-City nonprofit entity. The City Council has sole and absolute discretion in determining whether such a nonprofit entity shall be removed and/or whether a new or substitute nonprofit entity shall be appointed; and be it

FURTHER RESOLVED: that the City will agree to cooperate with Becker to process building permits after the Relocation Agreement has been fully executed by all parties and Becker have fully satisfied any conditions precedent to receiving any such permits; and be it

FURTHER RESOLVED: that each of the Advertising Signs to be built by Becker in the Permitted Becker Advertising Sign Locations shall be exempt from design review requirements, if applicable; and be it

FURTHER RESOLVED: that nothing herein signifies that the City has determined that agreements entered into as a result of this Resolution, including the Relocation Agreement, comply with the Subdivision Map Act, and nothing in this Resolution authorizes any non-compliance with the Subdivision Map Act; and be it

FURTHER RESOLVED: that the City Council authorizes the City Administrator to accept, deposit, and appropriate the payments described herein into the City’s General Purpose Fund; and be it

FURTHER RESOLVED: that the Council’s action in approving the Relocation Agreement relies on the following California Environmental Quality Act (“CEQA”) documents

including: The Coliseum Area Specific Plan Environmental Impact Report (“EIR”) (2015); Broadway Valdez Specific Plan EIR (2014); West Oakland Specific Plan EIR (2014); Central Estuary Area Plan EIR (2013); Land Use and Transportation Element of the General Plan EIR (1998); the Oakland Estuary Policy Plan EIRs (1999, 2006) and Supplemental EIR (2013); the Redevelopment Area EIRs- West Oakland (2003), Central City East (2003), Coliseum (1995), and Oakland Army Base (2002); and various Redevelopment Plan Final EIRs (collectively, “Previous CEQA Documents”). No further environmental review is required under CEQA Guidelines Sections 15162 and 15163. Moreover, each as a separate and independent basis, the Relocation Agreement is also exempt from CEQA pursuant to Public Resources Code Section 21080.17 and CEQA Guidelines Sections 15183 (projects consistent with General Plan and Zoning) and 15061(b)(3) (general rule, no significant effect on the environment). In addition, the Relocation Agreement is exempt pursuant to CEQA Guidelines Sections 15301 (Existing Facilities); 15302 (Small Structures); 15303 (Minor Alterations to Land); and 15332 (Infill Development Projects). No exceptions to these exemptions apply. The proposed Advertising Signs are in areas within the City on existing highway corridors not deemed to be a Landscaped Freeway by the California Department of Transportation (“CalTrans”), and are in areas already highly urbanized. Furthermore, the advertising signs to be allowed under the Relocation Agreements will only be allowed in conformance with state law, and subject to outdoor advertising application approval from the CalTrans Office of Outdoor Advertising as to design, sightline and driver safety considerations. Each of the foregoing provides a separate and independent basis for a CEQA exemption and when viewed collectively provides an overall basis to support the finding that this project is exempt from CEQA; and be it

FURTHER RESOLVED: that the City Council hereby directs the City Administrator to (a) negotiate and execute a Relocation Agreement with Becker and such other additions, amendments or other modifications to the foregoing documents that the City Administrator, in consultation with the City Attorney’s Office, determines are in the best interests of the City, provided that the terms and conditions of the Relocation Agreements are in substantial compliance with the terms and conditions contemplated in this Resolution with respect to, among other specifications, the number and location of new Advertising Signs, term of the Agreement, and monetary payments, and do not materially increase the obligations or liabilities of the City, and are necessary or advisable to complete the transactions contemplated by this Resolution; and (b) to negotiate and execute such other documents as necessary or appropriate, in consultation with the City Attorney’s Office, to implement the Relocation Agreements in order to consummate the transaction in accordance with this Resolution, or to otherwise effectuate the purpose of this Resolution and its basic purposes.

Detailed Description of Carbon Offset Fee

Average project annual power use for each double-sided digital Advertising sign is approximately 40,000 kilowatt hour (kWh)/year* = 40 megawatt hours (MWh)/year

PG&E Carbon Dioxide Emission Rates for Electricity usage is = .524lbs of CO₂ per kWh, or 524lbs per MWh**

40MWh/year/sign X 524lbs CO₂/MWh = 20,960lbs/year/sign

20,960lbs = 9.51 metric tonnes

The California Carbon Allowance, per the California Cap and Trade Program***, sets the prices for carbon offsets cost per metric tonne of carbon. The cost per metric tonne of carbon as of March 28, 2023 is \$28.99/tonne.

9.51 metrics tonnes X \$28.99/metric tonne = \$275.69/sign/year

40 years x \$275.69 = **\$11,027.80**/sign to offset the carbon emissions for the life of the sign.

For purposes of this estimate, rounded up to 40,000 kWh/year = 40MWh/year.
