City Council
Oakland, California

President Brunner and Members of the City Council:

RE: Supplemental Informational Report on the Status of Oakland's Grant Awards Under the American Recovery and Reinvestment Act of 2009 ("Federal Stimulus Package") As Compared to Similar Bay Area and Other Cities

SUMMARY

This supplemental informational report provides additional information on a preliminary comparison of the City's award of competitive grants under the American Recovery and Reinvestment Act (ARRA) with selected cities in California and nationwide.

FISCAL IMPACT

This is an informational report, there are no fiscal impacts.

KEY ISSUES AND IMPACTS

The information provided in this report is preliminary as many ARRA grant applications are still pending and new applications are being submitted.

The following cities were selected for comparison of competitive ARRA grants awarded:

Item #: _____
ORA/City Council
December 8, 2009

- San Francisco and San Jose were selected as major Bay Area cities, despite the fact that they have significantly greater population sizes than Oakland.
- Long Beach and Sacramento were selected as California cities of similar size and demographics to Oakland.
- Baltimore was selected as a mid-size city with demographics and community needs similar to those of Oakland.
- Chicago, Seattle, and San Francisco were selected based upon the identification by the City's federal lobbyist of these cities as having an "activist" presence in Washington including having native residents in top positions in President Obama's Administration and strong Congressional delegations.
- Kansas City was selected based upon having received a great deal of recent media attention on its Recovery Act efforts, including having top Administration officials attend press conferences on its efforts.

Information was obtained from public information provided by websites and reports from the selected comparison cities. In addition, staff contacted the Recovery Act staff in the selected cities to verify the information provided.

Some of the selected cities own and/or operate entities that are eligible for additional ARRA funds, such as utility companies, regional transportation authorities, or also serve as a county entity. In order to provide for a more uniform comparison, grants restricting eligibility to counties, regional transportation authorities, school districts, ports and airports and regional water management authorities or utilities were separated out. In addition, grant programs provided by Alameda County were also not included for the comparison. As such, the preliminary comparison charts in this report do not provide comprehensive information on the ARRA funds obtained by each selected city.

A preliminary comparison of how the different cities have fared on the specific competitive ARRA grant opportunities is contained in **Attachment A**.

Chart 1 compares the results of the selected cities within California (Oakland, San Jose, Long Beach, Sacramento, and San Francisco) and includes both the federal and state ARRA competitive grants for which all these selected cities were eligible and awards received at this date.

Chart 2 compares the results of the selected cities outside of California with Oakland (Kansas City, Seattle, Chicago, and Baltimore) and includes only the federal competitive grants for which all these selected cities were eligible and awards received at this date.¹

The following are the ten (10) competitive federal grants that all the selected cities were eligible to apply for and have been awarded to date: Brownfields Assessment, Brownfields Revolving Loan Fund, Byrne JAG, Clean Cities Petroleum Reduction Technologies Projects, COPS, Solar America Cities, Fire Station Construction, Local Youth Mentoring, NEA Grant for Nonprofit Jobs, and Port Security. While the City of Oakland did not receive an award on the Fire Station Construction grant during the first round of award notifications, this application is still pending.

The following are the three (3) competitive California State grants that all the California selected cities were eligible to apply for and have been awarded to date: California Clean Energy Workforce Training, Clean Water State Revolving Loan Fund, and the Green Jobs Corp.

Charts 3 and 4 provide information on the formula grants for municipal governments like Oakland, Recovery Zone bonds eligibility, and Port Authority and Housing Authority grants awarded. The formula grants selected for the comparison were based upon the grant awards for which the City of Oakland was eligible. Other cities may have received other formula grants that were awarded to partner nonprofit and other agencies—this information, however, was not readily available. For example, Kansas City's Head Start and WIA formula grants were received by nonprofit agencies operating those programs and not tracked by the municipal government.

The following is a summary of the results:

Selected Federal and California Competitive ARRA Grants Received by Selected California Cities

City	Oakland	San Jose	Long Beach	Sacramento	San Francisco
Population	425,068	1,007,223	492,682	491,097	845,559
Competitive \$ Received	\$30,334,628	\$1,101,636	\$6,233,453	\$10,154,860	\$16,612,750
Competitive \$ Received Per Capita	\$71	\$1	\$13	\$21	\$20
# of Grants Received	8	1	4	2	2

¹ Given that each State had different competitive grant opportunities, the State-operated competitive grants were removed for the national cities comparison in order to provide a more uniform comparison.

Selected Federal Competitive ARRA Grants Received by Selected U.S. Cities

City	Oakland	Kansas City	Seattle	Chicago	Baltimore
Population	425,068	475,830	602,000	2,853,114	636,919
Competitive \$ Received	\$23,647,117	\$15,992,161	\$2,096,039	\$36,313,100	\$11,946,826
Competitive \$ Received Per Capita	\$56	\$34	\$3	\$13	\$19
# of Grants Received	4	5	4	5	4

Selected Formula ARRA Grants Received by Selected California Cities

City	Oakland	San Jose	Long Beach	Sacramento	San Francisco
Population	425,068	1,007,223	492,682	491,097	845,559
Formula \$ Received	\$30,047,715	\$44,888,749	\$32,434,560	\$39,464,005	\$40,198,732
Formula \$ Received Per Capita	\$71	\$45	\$66	\$80	\$48
# of Grants Received	11	8	7	5	7

Selected Formula ARRA Grants Received by Selected U.S. Cities

City	Oakland	Kansas City	Seattle	Chicago	Baltimore
Population	425,068	475,830	602,000	2,853,114	636,919
Formula \$ Received	\$30,047,715	\$31,187,706	\$33,097,232	\$237,766,473	\$76,269,317
Formula \$ Received Per Capita	\$71	\$66	\$55	\$83	\$120
# of Grants Received	11	5	8	9	9

The preliminary review shows that Oakland has received more selected competitive Federal and California ARRA funds (\$30,334,628) and number of awards (8) than any of the selected comparison cities in California, all of which are larger in population than Oakland.

Chicago, with a population over six times the size of Oakland's population, was the only selected comparison city that received more selected competitive Federal ARRA funds than Oakland – a total of \$36,313,100 to Oakland's total of \$23,647,117.

In addition to the \$60,382,343 in ARRA funds that the City or application lead agency partners have received, the Port of Oakland has received \$28,400,000 and the Oakland Housing Authority has received \$10,575,376; for a total of \$99,357,719.

It is the Administration's assessment that the City has been highly effective in its efforts to obtain ARRA grant funds, based upon the following preliminary information:

- The amount of funds received to date--over \$60 million, half of which comes from competitive grants. This amount only includes the grants where the City served as lead agency or an active participant in the grant planning, application, and implementation.
- The number of applications submitted over a short period of time--34 total. Many of these grants provide for short time frames from the release of guidelines to application deadlines.
- The results of competitive grant applications--two thirds have been awarded so far. Out of 12 applications on which the City has received notification, 8 were awarded and 4 were not.
- The receipt of the nation's largest grant award for the competitive Community Oriented Policing Services (COPS) program.
- Comparison of award results with other select cities, with Oakland as the second city with the largest grant awards after Chicago.
- The receptivity of Oakland's approach to the stimulus efforts in Mayor Dellums' meetings with federal officials. **See Attachment B.**

ACTION REQUESTED OF THE CITY COUNCIL

The Council is requested to receive this informational report.

Respectfully submitted,

Dan Lindheim
City Administrator

COMMUNITY & FAITH-BASED PROGRAMS

SUSTAINABILITY STRATEGIES INCLUDE:

Community Level
Strategies to result in triple wins: environment, jobs, capital and neighborhood improvement priorities.
Partners include City of Oakland, Oakland Housing Authority, OUSD, Port of Oakland, PG&E, workforce trainers, Building Trades Council, private employers, Alameda County, social services agencies, and community and faith-based groups.

Program Level
Revolving loan funds for CDBG weatherization and energy retrofit fund; Neighborhood Stabilization Program; and Competitive Energy Efficiency and Conservation Block Grant.

Individual Level
Enhance employability through on-the-job training subsidies; longer placement support for trainees; and community college coursework and industry certification.
