WHEREAS, here in Oakland, we have experienced over 76,000 cases of COVID-19 involving over 500 deaths; and

The CDC recommended that fully vaccinated persons wear a mask in public indoor settings, in addition to its recommendation that unvaccinated and not fully vaccinated persons wear a mask in public indoor settings, in addition to its recommendation that unvaccinated and not fully vaccinated persons wear a mask in public indoor settings; and

WHEREAS, on August 5, 2021 the State Public Health Officer issued an Order requiring vaccination of workers in 'high risk' healthcare settings; and

WHEREAS, unvaccinated persons are somewhat more likely to get infected and spread the virus, and most current hospitalizations and deaths are among unvaccinated persons; and

WHEREAS, on September 28, 2021, the California State Public Health Officer issued an order requiring the vaccine at all adult care facilities and direct care workers as adult and senior care facilities and settings where direct care and services are provided, are high-risk settings where COVID-19 transmission and outbreaks can have severe consequences; and

WHEREAS, the federal Centers for Disease Control CDC, the California Department of Public Health and the Alameda County Health Officer agree that COVID-19 poses a serious risk, particularly to individuals who are not fully vaccinated; and

WHEREAS, medical professionals, scientists, and epidemiologists agree that vaccines are proven the most effective in preventing infection and the subsequent spread of COVID-19, and to reduce hospitalizations and death; and

WHEREAS, the City Administrator has implemented a Mandatory Vaccination Policy that requires all City of Oakland (City) employees to be fully vaccinated and verify that status to the City no later than November 29, 2021; and

WHEREAS, on January 3, 2022, the Oakland City Council (City Council) adopted an emergency ordinance adding Oakland Municipal Code Chapter 8.68 to require Proof of a Covid-19 Vaccination (Vaccine Proof Requirement) for patrons at the following indoor public locations: (1) establishments or events where food or drink is served including restaurants, bars, coffee houses, clubs, and banquet halls; (2) entertainment venues, theaters, concert venues, museums, and recreation facilities; (3) gyms, fitness centers and yoga studios; (4) senior adult care facilities and city senior center programs; (5) City Hall; and (6) large indoor events at City and privately-owned facilities; and

They may leave quarantine after day 5 if they test negative on or after day 5, if they have no symptoms. People who are symptomatic or who test positive must follow isolation requirements; and

WHEREAS, the Centers for Disease Control and Prevention COVID-19 Community Level does not apply in healthcare settings such as nursing homes; and

WHEREAS, businesses and facilities are allowed to impose proof of COVID vaccination and masking requirements to enter into their respective establishments regardless of the provisions in the Oakland Municipal Code or any related County health order; and

WHEREAS, certain types of masks (N95/KN95/KF94) are considered by public health experts as providing greater protection from the COVID virus; and

WHEREAS, on February 11, 2022, the Centers for Disease Control and Prevention published the findings of a study that show use of a mask in indoor settings protects against COVID-19 by lowering the odds of testing positive by as much as 83%; and

WHEREAS, as of April 20, 2022, the California Department of Public Health strongly recommends all persons regardless of vaccine status wear masks in indoor public settings; and

WHEREAS, the Centers for Disease Control and Prevention have made clear that people who are older are more likely to become very sick with COVID-19; and

WHEREAS, the California Department of Public Health has indicated that “mega events” including indoor events with more than 1,000 people, are riskier than other events; and

WHEREAS, the City Council finds and declares that this update to Oakland Municipal Code Chapter 8.68 is required for the immediate protection of the public peace, health, and safety for the following reasons: (1) eliminating the Vaccine Proof Requirement for the most of the locations and events subject to the rule is warranted in light of current COVID-19 case levels; (2) keeping the Vaccine Proof Requirement for Senior Adult Care facilities and City Senior Centers is warranted in order to protect seniors, an age group especially susceptible to the harm of COVID-19; and (3) requiring masks at Large Indoor Events is warranted due to the effectiveness of using face masks to mitigate against the spread and harm of COVID-19 in such settings.
