PERSONAL STATEMENT

In the early years of my practice, I developed the Issue Based Design Process as a way to avoid the frustration of developing a design that satisfied the needs of my immediate client, but later required major revisions when those who needed to approve the design had different objectives or new information. Since then, some of my greatest satisfaction has come from this collaborative process to identify client needs and achieve consensus between owners, users, and public administrators.

SPECIAL EXPERTISE

Along with general expertise in architectural design and organizing teams of architects to find solutions for clients' needs, Rosemary Muller has special expertise in the following areas.

- Pre-design Services
- Master planning
- Site Analysis and Design
- Use of computers in architecture
- Seismic Upgrade
- Historic Preservation
- K-12 Schools

PROJECT SPOTLIGHT

Issue Based Design was key in bringing together a community sharply divided over the historic status of *Thousand Oaks School* in the Berkeley Unified School District. The final new building and site design won two awards before it was even built for its sensitive treatment of historic elements, and the school has been well received by the staff and community.

Rosemary emphasized the development of the building and site as an integrated whole, unifying the building design with the contours of the gently sloping site. A library and walkway over the main entry facilitates dual use of the site by bridging two halves of the school but providing community access to the shared public park and playground.

REPRESENTATIVE PROJECTS

- *East County Hall of Justice, Dublin, CA.* Project Director. Bridging documents for new construction of Alameda County court facilities, \$61M.
- *Broadway Building, Oakland, CA.* Addition and restoration. Winner of design-build competition with Fentress Bradburn. Total project / Broadway Building cost \$78/\$7M.

- **Oakland Plaza Building.** Seismic strengthening and restoration of Civic Center landmark, \$2.1M.
- **Thousand Oaks School,** Berkeley Unified School District. New K-5 school, \$10.1M.
- **UC Davis, North and South Hall.** Structural upgrade, \$4M.
- **Alameda Carnegie Library.** Seismic upgrade and historic preservation, \$2M.
- **Cox Cadillac Building, Oakland, CA.** Preservation of historic car dealership, \$1.5M.
- **Acorn Apartments, Oakland, CA.** HUD master plan, \$50M.

BACKGROUND

SINCE 1976, ROSEMARY MULLER, FAIA, has compiled a body of work from seismic upgrade of government facilities, new and renovated offices and schools, historic buildings, vehicle maintenance facilities, to new and remodeled housing. A leader in seismic safety since 1972, she was appointed by the Governor to the State Seismic Safety Commission from 1984 to 1987. She founded her firm in 1977 and merged with Tom Caulfield to form Muller & Caulfield in 1992. A former IBM systems engineer, she is a leader in the use of CAD and other computer applications in architecture.
