---

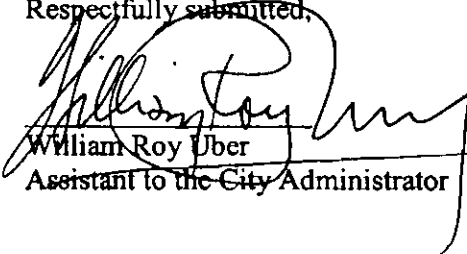

**SUMMARY**

There are no Council Tracking Reports available for the month of August 2009.

- The Sidewalk Liability report was approved for removal from the item tracking list by the Council President at the September 24, 2009 meeting. Staff is preparing a final report on Public Works' plans to complete the database project on City street trees.
- Summer recess and vacation schedules slowed progress on the Retail Enhancement Strategy. Staff is currently working on streamlining the *Action Steps* reporting.
- Council President Brunner added the Oakland Police Department's In-Car Video project to the Tracking Report list. OPD staff are working on establishing the form's Action Steps.

September 2009 Tracking Report data will be presented to the Rules and Legislation Committee at their November 5, 2009 meeting.

Respectfully submitted,
