Dwayne Anthony Aikens Jr. currently resides in Oakland California; he received his degree in psychology with a concentration in special education from Xavier University of Louisiana in 2005. Dwayne is the cofounder and executive director of We Lead Ours (WELO). WELO is a 501c3 nonprofit organization that provides at-risk youth in Oakland with school and community based enrichment programs that use hands-on learning experiences to nurture life skills that focus on; career exploration, civic leadership, college preparation, and health and wellness. Under Dwayne's leadership WELO have developed a career exploration field-trip program that have partnerships with Lockheed Martin, Google, Caltrans, Bart, Pacific Gas & Energy, San Francisco Save the Bay Foundation, Littarati, and Waste Management. The objective of the program is to provide youth from underserved communities with the opportunity to learn in the real-world from minorities working in STEM. Dwayne is committed to uplifting young man in his community and mentoring them through his male leadership program Men At Power Strategically (MAPS). Young men grades 6th through 12th participate in this year-round mentoring program participating in community service projects, homeless feedings, sporting events, performance arts, and other social activities. When Dwayne is not working for WELO he is participating as an active member of Alpha Phi Alpha Fraternity Incorporated Hayward graduate chapter and a member of Organizing for Action. Dwayne serves on the Board of Directors for Keep Oakland Beautiful and the Bay Area Urban League Young Professionals; where he currently serves as the vice president over both boards.

Parks and Recreation Advisory Commission: Submitted

Interests & Experiences

Please tell us how your qualifications and participation will relate to the requested board and/or commission's mission.

I am passionate about increasing access to safe, inclusive, and fun spaces that promote play and recreation for all Oakland residents. I received my Master's degree in Sport Management in 2011 from Washington State University, where I spent three years teaching an undergraduate course on sport and recreation programming, with emphasis on youth development through physical activity. I also earned my Ph.D. conducting research on the empowering potential of physical activity for vulnerable populations. My research and teaching experiences provide me with a strong expertise and foundation for understanding the importance of the work conducted by the Parks and Recreation Advisory Commission. In addition to my research, teaching, and educational experience, I currently work as a research associate for an Oakland-based, mission-driven consulting firm that specializes in evaluation, planning, and grant-writing for County agencies and non-profits. As such, I have a strong understanding of local governance, including both the importance and complexity of developing, implementing, and evaluating the impact of local policy. I grew up in the South Bay and, after spending time in Washington for graduate school, have happily returned to California. I am grateful to call Oakland my home and am eager for opportunities to contribute to the health and well-being of my neighbors. I believe my understanding of the implementation and benefits of play, the intricacies of public policy making, and my skills as a writer and researcher make me an excellent fit for this Board.

Interests & Experiences

Please tell us how your qualifications and participation will relate to the requested board and/or commission's mission.

My name is Christopher Norman, and I am a queer, mixed-race (black and Mexican) individual currently living in Oakland's Longfellow neighborhood. All of my professional and volunteer experience to date has focused on civic engagement, diversity in representation, and ensuring that opportunities are accessible to all types of communities. I am interested in joining the Oakland Parks and Recreation Advisory Commission because I would like to play a role in ensuring that Oakland's public and open spaces can be enjoyed, respected, and accessed by all. My professional career started as a seasonal park ranger in the Presidio national park where I learned to communicate the value of our area's natural and cultural resources. The experience developed me as a steward of nature, recreation, and equity in access, as I realized that not many people who looked like me utilized the space. My previous experience in local government via the San Francisco Mayor's Office equipped me with the skills to comprehend and work with budgets, public processes, strategic planning, and more. My work with the new Oakland LGBTQ Center has helped me learn more about the needs of a vulnerable, yet large and diverse population in Oakland, and in my current role with Urban Habitat in Downtown Oakland I focus on preparing leaders all around the Bay Area to serve on boards and commissions. I believe there is much awareness, skill, and curiosity I would bring to the Parks and Recreation Advisory Commission, and I would love the opportunity to do so. Thank you!

Interests & Experiences

Please tell us how your qualifications and participation will relate to the requested board and/or commission's mission.

I am passionate about the design and programming of public spaces and city parks. Through my experience as a landscape architect, I have aided in multiple community engagement processes and in design processes from concept to implementation. I understand what goes into a community process, the tension and mediation that occasionally come up during meetings. As a young designer, I am gaining further knowledge into city codes and planning processes in the Bay Area and understand the different drawings and design sensibilities that accompany them. My work experience and lifestyle has allowed me to learn about current critical issues in the Bay Area, when it comes to public space, such as pedestrian and cyclist safety, access to transit, homelessness, right to occupy a space, etc. As a private citizen, I helped lead a youth education program for environmental design, where each student designed a portion of an open lot. In addition, I volunteer as a mentor for the East Bay College Fund and participate in cleanups and planting in my Eastlake neighborhood.

Please tell us how your qualifications and participation will relate to the requested board and/or commission's mission.

As an Urban Planner, I am interested in the successful progress of all cities, specifically in regards to urban form, community atmosphere, connectivity and preservation of natural resources. I am passionate about making cities better places to live, work and play, and take this mission very seriously. I am currently a Planner at Urban Planning Partners, a small women owned firm based in Downtown Oakland. We work on many projects in Oakland including the Downtown Specific Plan, the Claremont Hotel Environmental Impact Report (EIR), 2100 Telegraph EIR, and entitlement services for areas surrounding the West Oakland Bart Station. In addition, to the work I have done at Urban Planning Partners, in my previous job as a Planner at PlaceWorks, I worked on a variety of Open Space and Parks Master Plans in the Bay Area including parks in San Jose, Half Moon Bay, and a California State Park on the coast near Pescadero. I am familiar with Parks and Open Space Master Plans and day to management of Parks through my work as a volunteer coordinator with San Francisco Recreation and Parks Department. I am passionate about preserving parks and open space and value the importance of park access for all especially in Oakland. I am part of the Outreach Team looking into Sustainability, Health, Natural Resources, and Climate Change for the Downtown Oakland Specific Plan and am knowledgeable about many of the great open spaces that exist in Downtown Oakland. I would be a great asset to your commission and hope you consider me for this vacancy.

Interests & Experiences

Please tell us how your qualifications and participation will relate to the requested board and/or commission's mission.

I look to government to lead the public in an equitable decision making process. As a member of the Parks, Recreation Advisory Commission I hope to do my best to lead the community into more participation through representation of their interests. Oakland has a large second language speaking population who may have had a negative experience with government, in some capacity, generally due to cultural and language barriers. I want to bring their voices to the table and get them outside more, everyone should feel welcome and comfortable using recreation and open spaces. I also want to encourage the City of Oakland's participation in the Healthy Parks, Healthy People Park Prescription Program, which East Bay Regional Parks spearhead. This is an opportunity to get more people outside. As an employee of the San Francisco Recreation and Park Department I have been involved with our Equity analysis and data collection – I work with a group of analysts and planners to increase Park usage, especially in under served communities. I am also charged with increasing participation and representation at community meetings; I have increased participation by 150% or more on the more than \$250 million dollars in projects, my Division oversees. This experience will allow me to contribute my skills to the residents of Oakland and empower them to participate in the decision-making process regarding Parks and Open Space. I want to break down the barriers that contribute to a lack of participation and affect policy change in the process. I would be honored to serve. Thank you for your consideration.
