17.10.140 Essential Service Civic Activities.

Essential Service Civic Activities include the maintenance and operation of the following installations:

- A. Electric, gas, and telephone distribution lines and poles, and water, storm drainage, and sewer lines, with incidental appurtenances thereto, but excluding electric transmission lines;
- B. Community gardens. For the purpose of this classification, Community Gardens are defined as land that is used individually or collectively for the cultivation of fruits, vegetables, plants, flowers, herbs, and/or ornamental plants for personal consumption and/or donation. Typically in community gardens, the land is divided into individual plots, and each individual participant is responsible for their own plot and the yielding or the production of which belongs to the individual, but can also include land that is not divided and the participant group cultivates the subject land together. This classification does not include any cannabis activities; livestock production or the cultivation of animals and/or animal products by agricultural methods, except for bee keeping involving no more than three (3) hives; the use of heavy mechanized farming equipment; or commercial sales on or off the premises, except for limited seasonal sales;
- C. Botanical gardens;
- D. Private streets;
- E. Public polling places;
- F. Freeways, rapid transit routes, streets, alleys, and paths, but excluding activities on, under, or over such ways which activities are not customarily appurtenant thereto;
- G. Seasonal retail sales Activities that do not involve the construction of a permanent fixed foundation building (only temporary structures are allowed) conducted for a limited duration under valid license or lease on property owned or leased by the City;

- H. Police and Fire stations;
- I. Post offices, but excluding major mail processing centers;
- J. Telecommunications activities including the transmission, between or among points specified by the user, of information of the user's choosing, without change in the form or content of the information as sent and received;
- K. Electrical Vehicle Charging Stations and similar infrastructure;
- L. All activities not classified elsewhere in the use regulations that are conducted on City and regional parklands and which are specifically referenced in master plans which are adopted by the Oakland City Council.

This classification also includes certain activities accessory to the above, as specified in Section 17.10.040.

Chapter 17.106 GENERAL LOT, DENSITY, AND AREA REGULATIONS

Sections:

17.106.010 Lot development standard area and width exceptions.

The minimum lot development standards area and lot width requirements prescribed in the applicable individual zone regulations shall be subject to the following exceptions:

- A. **Existing Substandard Parcel.** Any existing substandard parcel of contiguous land may be developed as a lot if such parcel existed lawfully under the previous zoning controls.
- B. **Division of Parcel with Existing Buildings.** Where a parcel contains two (2) or more existing principal buildings which were lawfully established, said parcel may be divided into two (2) or more lots which do not have the minimum lot area, minimum lot width, and minimum frontage, yards, open space, and parking requirements otherwise applying to the divided lots may be waived or modified upon the granting of a Conditional Use Permit pursuant to the Conditional Use Permit procedure in Chapter 17.134. Each resulting lot shall accommodate at least one existing principal building and each lot shall have frontage on a street. A Conditional Use Permit may be granted only upon determination that the proposal conforms to the general use permit criteria in Chapter 17.134 and to the following special criteria:
 - 1. That all principal structures existed lawfully under the previous zoning controls, and are habitable or in sound condition;
 - 2. That the proposal will not result in a lot which is so small, so shaped, or so situated that it would be impractical for subsequent permitted uses;

3. That the proposal will maintain the existing amount of usable open space and off-street parking spaces for any Residential Facilities involved. If there are more parking spaces or usable open space on the lot than required, then the number of parking spaces and/or amount of open space can be reduced to the minimum required.

C. **Division of Parcel under State Law SB 684.** Where a project is subject to State law SB 684, as codified under California Government Code Sections 65852.28 and 66499.41, and said parcel is no larger than five (5) acres and shall be subdivided into ten (10) or fewer lots for a for-sale housing units development project, the minimum lot development standards prescribed in the applicable individual zone regulations shall be subject to the following exceptions:

1. The resulting parcels of an SB 684 subdivision shall have a minimum lot size of six hundred (600) square feet, and the minimum lot width and minimum lot frontage dimensional requirements otherwise prescribed shall not apply.
2. Interior side setbacks are not required between units of an SB 684 subdivision.
3. A minimum rear setback of four (4) feet is required for each SB 684 lot; and a minimum street side setback of four (4) feet or the setback for the underlying zone, whichever is less, is required between SB 684 lots and adjacent streets.
4. A minimum side yard setback of four (4) feet or the setback for the underlying zone, whichever is less, is required between SB 684 lots and adjacent lots not part of the SB 684 subdivision.
5. For SB 684 subdivisions creating three (3) to seven (7) units, the maximum floor area ratio (FAR) allowed shall be no less than 1.0; and for SB 684 subdivisions creating eight (8) to ten (10) units, the maximum FAR allowed shall be no less than 1.25. This subparagraph shall only apply where the Oakland Planning Code otherwise imposes a residential floor area ratio and shall not be interpreted as establishing a residential floor area ratio requirement where none exists.
