**Interests & Experiences**

**Please tell us how your qualifications and participation will relate to the requested board and/or commission's mission.**

I was born and raised in Oakland, and I am a proud homeowner and active member of this community. My church and community service are rooted in Oakland, and the majority of my family, including my children, live and worship here. With a professional background in community corrections, I understand both the challenges and opportunities within our public safety systems. I have loved ones who have experienced law enforcement as public servants and others who have been impacted by the criminal justice system. This dual perspective gives me a balanced, community-centered approach to public safety—one that values both accountability and prevention. My lived and professional experiences align with the mission of Measure NN by supporting violence reduction strategies, emergency response services, and public safety initiatives that create lasting change. I am committed to ensuring that these funds are used effectively to make Oakland a safer, more resilient city for all residents.
