

City Attorney's Office

OAKLAND CITY COUNCIL

RESOLUTION NO. _____ C.M.S.

RESOLUTION OF INTENTION TO 1) ORDER IMPROVEMENTS AND TO FORM THE CITY OF OAKLAND UTILITY UNDERGROUND ASSESSMENT DISTRICT NO. 2021-232, PIEDMONT PINES PHASE II; 2) FIND THAT THE IMPROVEMENTS ARE OF MORE THAN LOCAL OR ORDINARY PUBLIC BENEFIT, AND THE COST AND EXPENSES, INCLUDING INCURRED CITY COST OF DISTRICT CREATION THEREOF, ARE MADE CHARGEABLE UPON THE ASSESSMENT DISTRICT; 3) PROVIDE THAT THE COUNCIL INTENDS TO LEVY A SPECIAL ASSESSMENT UPON THE LAND WITHIN THE ASSESSMENT DISTRICT; 4) PROVIDE THAT BONDS SHALL BE ISSUED TO FINANCE A PORTION OF THE COSTS OF IMPROVEMENTS; 5) APPOINT HARRIS & ASSOCIATES AS THE ENGINEER OF WORK FOR THE ASSESSMENT DISTRICT; AND 6) DIRECT THE ENGINEER OF WORK TO MAKE AND FILE THE ENGINEER'S REPORT WITH THE CITY CLERK.

WHEREAS, the City Clerk of the City of Oakland (the "City") has received written indications of interest from the owners of approximately 67% of the parcels in the Piedmont Pines Phase II area of the City with regard to the formation of an assessment district for the purposes of upgrading the street lighting system and undergrounding power, telephone and cable utility lines in the Piedmont Pines Phase II area of the City; and

WHEREAS, it appears to the Council that an assessment district should be formed for the purpose of upgrading the street lighting system, as well as the construction of main line underground power, telephone and cable conduit, with appurtenant facilities, the construction of service conduit and appurtenances to the boundary of the proposed assessment district, removing existing overhead power, telephone and cable wires, poles and street lights and the installation of replacement street lights and poles, all as more fully described in Exhibit A hereto (the "Improvements"), all in order to enhance public safety, reliability of utility service, and the overall aesthetics of the Piedmont Pines Phase II area of the City; and

WHEREAS, the Council proposes to accomplish the formation of the assessment district pursuant to the Municipal Improvement Act of 1913, being Division 12 of the California Streets and Highways Code (the "Act") and to finance a portion of the costs of the Improvements by means of the issuance of municipal bonds pursuant to the Improvement Bond Act of 1915, being Division 10 of the California Streets and Highways Code (the "Bond Act"); and

WHEREAS, the proposed territory and boundaries of the assessment district are shown on a map of the assessment district (the “Map”), a copy of which is on file in the office of the City Clerk; and

WHEREAS, the Council now desires to express its intention to order the Improvements and to form the assessment district; now, therefore, be it

RESOLVED: That the Council hereby finds and declares that the public interest and necessity require the construction of the Improvements and the Council hereby declares its intention to order the Improvements and to form an assessment district covering the real property specially benefited by the Improvements. Except as herein otherwise provided for the issuance of bonds, all of the work shall be done as provided in the Act. The proposed assessment district (the “Assessment District”) shall be designated “City of Oakland Utility Underground Assessment District No. 2021-232 (Piedmont Pines Phase II)”; and be it

FURTHER RESOLVED: That the Council hereby finds and determines that the Improvements are of more than general or ordinary public benefit, and are of special benefit to the lands within the Assessment District. The cost and expenses, including City costs of district creation, are made chargeable upon the Assessment District, the exterior boundaries of which are shown on the Map. The Map, in the form on file with the City Clerk, is hereby approved, and shall govern for all details as to the extent of the Assessment District. The City Clerk is hereby directed to endorse the City Clerk’s certificate on the Map evidencing the date and adoption of this Resolution. The City Clerk is hereby directed to retain the Map in the City Clerk’s office and, within 15 days after the adoption of this Resolution, file a copy of the Map in the office of the County Recorder of the County of Alameda. The City Clerk is hereby authorized to pay any and all fees required by the County Recorder to record the map; and be it

FURTHER RESOLVED: That the Council intends to levy a special assessment upon the land within the Assessment District, as indicated on the Map referenced in Section 2 above, in accordance with the special benefit to be received by each parcel of land, respectively, from the Improvements; and be it

FURTHER RESOLVED: That where any disparity occurs in level or size between the Improvements and private property, the Council determines that it is in the public interest and more economical to eliminate the disparity by doing work on the private property instead of adjusting the work on public property. Accordingly, work may be done on private property for this purpose with the written consent of the applicable landowner; and be it

FURTHER RESOLVED: That notice is hereby given that serial and/or term bonds to represent unpaid assessments to be levied in the Assessment District, and to bear interest at a rate not to exceed the maximum rate provided by law, shall be issued pursuant to the Bond Act, and that the applicable provisions of Part 11.1 of the Bond Act, providing an alternative procedure for the advance payment of assessments and the calling of bonds, shall apply. The last installment of such bonds shall mature not to exceed 31 years from the second day of September next succeeding 12 months from their date; and be it

FURTHER RESOLVED: That the Council finds and declares that a special reserve fund as provided in Part 16 of the Bond Act (commencing with Section 8880) shall be required, the amount thereof to be fixed and determined upon the sale of bonds for the Assessment District; and be it

FURTHER RESOLVED: That the Council hereby covenants with the owners of said assessment bonds to be issued that it will commence and thereafter diligently prosecute to completion foreclosure actions regarding delinquent installments of the assessments, as will be more fully specified in the resolution of the Council authorizing the issuance of said assessment bonds; and be it

FURTHER RESOLVED: That notice is further given that the City will not obligate itself to advance available funds from the City General Fund to cure any deficiency which may occur in the bond redemption fund for the bonds; and be it

FURTHER RESOLVED: That the procedure for the collection of assessments and advance retirement of bonds shall be as provided in Part 11.1 of Division 10 of the Bond Act; and be it

FURTHER RESOLVED: That it is further determined pursuant to Section 8571.5 of the Bond Act, that the bonds may be refunded in the manner provided by Division 11.5 of the Bond Act if the Council determines that it is in the public interest or otherwise necessary or appropriate to do so; and be it

FURTHER RESOLVED: That notice is hereby given that, in the opinion of the Council the public interest and convenience require, and that it is the intention of the Council, that administrative expenses shall be added to each annual installment of the unpaid assessments to pay costs incurred by the City and not otherwise reimbursed, which result from the administration of the bonds and reserve or other related funds, all as set forth in Section 10312 of the Act; and be it

FURTHER RESOLVED: That notice is hereby further given that pursuant to Section 8682.1 of the Bond Act, in addition to or as a part of the assessment lien levied against each parcel of land within the Assessment District, each parcel of land shall also be subject to an annual assessment to pay costs incurred by the City which result from the expenses of (i) registration of any bonds and (ii) compliance with federal arbitrage laws. The amounts collected will be based on actual administrative expenses or projected administrative expenses, and no maximum need be stated in the Engineer's Report referenced below (the "Engineer's Report"). If the City performs any transfer, registration, authentication, payment or other related registration function, the City may be reimbursed for its actual expenses, including a pro rata amount of the salaries of the City employees involved in the performance of these functions. In addition, no public hearing shall be required prior to their levy. These costs are to be distinguished from the costs of reimbursing the City for non-registration administrative expenses, described above, for which an annual estimate will be provided in the Engineer's Report; and be it

FURTHER RESOLVED: That notice is hereby given that this Council intends to comply with the requirements of the Special Assessment Investigation, Limitation and Majority Protest Act of 1931 ("Division 4") by proceeding under Part 7.5 thereof. The following information shall be included in the Engineer's Report.

- (1) The total amount, as near as may be determined, of the total principal amount of all unpaid special assessments and special assessments required or proposed to be levied under any completed or pending assessment proceedings, other than that contemplated in these proceedings, which would require an investigation and report under Division 4 against the total area proposed to be assessed.
- (2) The total true value, as near as may be determined, of the parcels of land and improvements which are proposed to be assessed. Total true value may be estimated as the full cash value of the parcels as shown upon the last equalized assessment roll of the County of Alameda. Alternatively, total true value may be determined by other reasonable means, including, but not limited to, by adjusting the value shown on the last equalized assessment roll to correct for deviations from market value due to Article XIII A of the California Constitution; and be it

FURTHER RESOLVED: That this Council declares that all public streets, highways, lanes and alleys, and properties owned by any public agency or department of the United States of America, the State of California, the County, any city or special district, in the Assessment District and used for a public function shall be omitted from the assessment unless and to the extent found to be specially benefited by the Improvements; and be it

FURTHER RESOLVED: That the Improvements are hereby referred to the firm of Harris & Associates, which firm is hereby appointed as the Engineer of Work for the Assessment District, and the Engineer of Work is hereby directed to make and file, or cause to be made and filed, with the City Clerk a report (the "Engineer's Report") in writing, presenting the following, as applicable:

- (1) Plans and specifications of the proposed Improvements.
- (2) An estimate of the cost of the Improvements and the costs of any related lands, rights-of-way and easements, and incidental expenses in connection with the Improvements, including any costs of registering bonds.
- (3) A diagram showing, as they existed at the time of the passage of this Resolution, all of the following: (i) the exterior boundaries of the Assessment District; (ii) the boundaries of any zones within the Assessment District; and (iii) the lines and dimensions of each parcel of land within the Assessment District, with each subdivision given a separate number upon the diagram.
- (4) A proposed assessment of the total amount of the cost and expenses of the proposed Improvements upon the several subdivisions of land in the Assessment District in proportion to the estimated special benefits to be received by each subdivision, respectively, from the Improvements. The assessment shall refer to the subdivisions by their respective numbers.
- (5) A proposed maximum assessment upon each of the several subdivisions of land in the Assessment District to pay costs incurred by the City and not otherwise reimbursed which result from the administration and collection of assessments or from the administration of any associated bonds and reserve or other related funds: and be it

FURTHER RESOLVED: That any excess realized from the assessment, including the proceeds of the bonds, shall be used, in such amounts as the Council may determine, in accordance with the provisions of the Act.

FURTHER RESOLVED: That City will enter into agreement(s) with public agency(ies) or public utility(ies) under Chapter 2 (commencing with Section 10100) of the Act for the Improvements, to provide for the construction, ownership, operation and/or maintenance by such agency or utility of the Improvements, and for the providing of service to the properties in the Assessment District by such agency or utility in accordance with its rates, rules and regulations, and that such agreement shall become effective after proceedings have been taken for the levy of the assessments and sale of bonds and funds are available to carry out the terms of any such agreement; and be it

FURTHER RESOLVED: That pursuant to Section 20487 of the California Public Contract Code, in the opinion of the Council, the public interest will not be served by allowing owners of property in the proposed Assessment District to enter into a contract for the performance of any of the work of the Improvements herein referenced, so that no notice of award of contract shall be published; and be it

FURTHER RESOLVED: That the descriptions of the Improvements and the termini of the work for them are general in nature. All items of work do not necessarily extend for the full length of the description thereof. The plans and profiles of the Improvements and maps and descriptions referenced in the Engineer's Report shall be controlling as to the correct and detailed description thereof; and be it

FURTHER RESOLVED: That the City hereby confirms the appointment of Jones Hall, A Professional Law Corporation, San Francisco, California, as bond counsel, and Fieldman Rolapp & Associates, Irvine, California, as municipal advisor; and be it

FURTHER RESOLVED: That it is hereby acknowledged that, for all purposes of the Act and the Bond Act, the Director of Department of Transportation is the Superintendent of Streets for the City; and be it

FURTHER RESOLVED: The City Council finds and determines, after its independent review and consideration, that the requirements of the California Environmental Quality Act (“CEQA”) have been met as detailed in the City Administrator’s Agenda Report accompanying this item, hereby incorporated by reference as if fully set forth herein.

ASHA REED
City Clerk and Clerk of the Council of the
City of Oakland, California

EXHIBIT A

GENERAL DESCRIPTION OF IMPROVEMENTS TO BE FINANCED BY THE ASSESSMENT DISTRICT

The project includes the construction of the following public improvements, including all planning, design, construction administration and general administration services, the acquisition of all necessary rights of way, the acquisition of licenses, franchises and permits and the construction of all auxiliary work necessary and/or convenient to the accomplishment thereof, in accordance with the plans and specifications to be approved by the City of Oakland. Public improvement construction may be phased as necessary and convenient for the City of Oakland. Phasing will be undertaken in a manner that results in a complete and functional portion of each system described below.

The following improvements are proposed to be constructed and installed in the general location referred to as the City of Oakland Utility Underground Assessment District No. 2021-232 (Piedmont Pines Phase II).

1. Construction of mainline underground power, telephone and cable conduit, with appurtenant manholes, pull boxes and surface-located transformers and like structures.
2. Construction of service conduit and appurtenances to property line.
3. Installation of new conductor within said conduit and underground structures by the utility companies.
4. Installation of replacement street lights and poles.
5. Removal of existing overhead power, telephone and cable wires, poles and street lights.

The improvements will be designed by Pacific Gas and Electric Company, AT&T, Comcast, and the City of Oakland (street lighting). The City of Oakland will inspect the work to ensure conformance to City ordinances, rules, warrants, regulations, standards and specifications where applicable.

Notes: (1) The foregoing improvements do not include any individual service connections which connect the public utilities in the joint trench to each individual residence or facility. Property owners will be responsible for the costs for such work in excess of a \$1,500 stipend to be provided by Pacific Gas and Electric Company. The City of Oakland does not intend to facilitate construction of the individual service connections but suggests that costs may be reduced by obtaining block-sized, or larger, bids from a licensed contractor.

- (2) Further, the foregoing improvements do not include service laterals to individual properties in excess of the first 100 linear feet (L.F.). The property owners will be responsible for the costs for such work in excess of the first 100 L.F. Pacific Gas and Electric Company, the Trench Lead, will bill individual property owners for the excess over the first 100 L.F.
