WHEREAS, unvaccinated persons are more likely to get infected and spread the virus. Most current hospitalizations and deaths are among unvaccinated persons; and

WHEREAS, on October 28, 2021 the California Department of Public Health updated it's COVID-19 Public Health Recommendations for Fully Vaccinated People including aligning with the CDC update on testing for exposed fully vaccinated, asymptomatic people; and

WHEREAS, The Oakland City Council (City Council) finds and declares that this ordinance is required for the immediate protection of the public peace, health, and safety for the following reasons: Establishing a vaccination requirement for patrons in certain higher-risk locations in is a subject of imminent concern in light of the current and ongoing hazards of the COVID-19 pandemic, including the continuous high rate of community transmission, and the current data on the safety and efficacy of the COVID-19 vaccines; and

WHEREAS, some public health officials have opined that attending a private meeting with fewer than 50 persons, such as a seminar or workshop where food or drink is provided incidental to the meeting, presents less of a risk of the spread of COVID-19 than a Patron eating and/or drinking in a public indoor setting such as restaurant or other establishment subject to this ordinance that includes a sit-down meal, due to the limited eating or drinking that occurs at such private meeting(s), the potential removal of masks for brief periods of time and the small size of the meeting; and
