The 'Meet the Primes' event was created for small-, minority-, women-, disabled veteran- and LGBTQ-owned businesses. You will experience some of the Bay Area's most accomplished and forward-thinking large consultant firms.

### **Our goal for this event is simple:**

Increase the economic vitality and participation of the region's small / diverse business community via strategic introductions between key public agency representatives and the consultant firms that serve as primes on critical infrastructure projects for major bay area public agencies.
