Bradley Electric is the lowest responsive bidder, and is recommended for award of the construction contract.

Per City Ordinance No. 12422 C.M.S. approved on June 11, 2002, the Local Employment Program (LEP) and Local/Small Local Business Enterprise (L/SLBE) Program requirements do not apply to this project. The ordinance imposed a two-year moratorium of these requirements for public works contracts involving the installation of new traffic signals. W. Bradley Electric listed no L/SLBE participation. While the LEP and L/SLBE Programs are not applicable for this project, the Office of the City Manager, Division of Contract Compliance and Employment Services, continues to strongly urge the inclusion of local businesses and residents to the fullest extent possible where local businesses and residents have a fair and equal opportunity to compete. The Contract Compliance and Employment Services Division has verified the LEP and L/SLBE information as shown on Attachment A.

The subject project consists of the following: A) two new traffic signals at the intersections of International Boulevard at 25th Avenue and Broadway at Broadway Terrace; and B) traffic signal modification to enhance pedestrian safety at the intersection of Broadway at College Avenue.

KEY ISSUES AND IMPACTS

The subject traffic signal projects were approved by City Council in the 2001-2006 Capital Improvement Program, with funding appropriated in the 2001-2003 budget.

Execution of a contract will take a minimum of one month, resulting in a construction starting date of late April 2004. With construction scheduled for 60 working days, the expected completion schedule for construction is in August 2004. The expected contract completion date may vary due to possible time loss due to unforeseeable construction and inclement weather conditions. The Resident Engineer assigned to this construction project will monitor the contractor's progress to ensure the project is completed in a timely manner.

SUSTAINABLE OPPORTUNITIES

Economic: The improvements will have a positive impact on the local economy by improving vehicular and pedestrian safety, and the associated costs of injuries and property damage.

Environmental: The improvements to pedestrian facilities will aid in making walking a more attractive mode of transportation, thereby encouraging reduction in automobile usage and reducing vehicle emissions.

Social Equity: The improvements will improve overall living conditions by providing greater accessibility and safety to pedestrians. Senior citizens, persons with disabilities and children will greatly benefit from these improvements.

DISABILITY AND SENIOR CITIZEN ACCESS

This project includes accessibility improvements such as tactile pedestrian pushbuttons with audible units and wheelchair ramps with detectable warning domes, which will assist senior citizens and persons with disabilities.

RECOMMENDATION AND RATIONALE

Staff recommends that City Council approve the resolution authorizing the City Manager, or her designee, to award a construction contract to W. Bradley Electric for the Traffic Signal Projects at the intersections of International Boulevard at 25th Avenue, Broadway at Broadway Terrace, and Broadway at College Avenue in an amount of \$362,753.95.

ACTION REQUESTED OF THE CITY COUNCIL
