DATE: July 11, 2006

RE: Follow-up Report on the Status of the Implementation of the Equal Access Ordinance and Recommendations for Improving Language Access to City Services for Oakland's Diverse Population

SUMMARY

This report provides the City Council with additional information requested by the Finance and Management Committee on May 9, 2006 regarding the City's progress on implementing the Equal Access Ordinance.

FISCAL IMPACT

This is an informational report. Fiscal impacts are not included.

BACKGROUND

On May 8, 2001 the City of Oakland became the first city in the nation to pass an Equal Access to Services Ordinance (Ordinance No. 12324 C.M.S.) with the purpose of removing language barriers for limited English speakers attempting to access City services.

At the May 9, 2006 meeting at the Finance and Management Committee, the City Administrator's Office was directed to prepare a follow-up report responding to questions and suggestions regarding language access implementation. These included:

- **Definition of a Public Contact Position (PCP)**
- **List of employment classifications and identification as PCP**
- **Number of PCPs, their locations, positions and if filled by bilingual staff**
- **List of staff receiving bilingual pay**
- **Current recruitment efforts for PCP positions**
- **List of current position vacancies**
- **Creation of a Equal Access Committee**

Item: _____
Finance and Management Committee
July 11, 2006

KEY ISSUES AND IMPACTS

The City Administrator's Office of Equal Access has prepared preliminary responses for each of the seven issues listed above. Definitive recommendations regarding the Ordinance, program changes and department compliance will be presented in a comprehensive report in the Fall of 2006, following the completion of a Departmental Language Needs Assessment and the establishment and development of the Equal Access Committee as noted in number six and seven, respectively, below.

1. Definition of a Public Contact Position (PCP)

The Equal Access to Services Ordinance (Ordinance No. 12324 C.M.S. Section 2.30.020-g) defines Public Contact Position as "*a position, whether of a clerical, service, professional or sworn nature, that emphasizes greeting, meeting, contact, or provision of information and/or services to the public in the performance of the duties of that position.*"

After its adoption in May 2001, the above definition from the Equal Access to Service Ordinance was determined to be too broad. In order to identify specific City PCPs by employment classifications, an ad hoc committee of City Administration representatives refined the definition as *a position who serves the public 50% or more of the time whether in person, by phone or through correspondence.*

The 50% threshold established by the ad hoc Equal Access Committee reduced the number of classifications considered as PCPs. As staff continues to move forward to fully implement the Ordinance it has become apparent that the fifty percent threshold does not capture all of the classes that serve the public. Additionally, identification of PCPs by class does not allow for unique circumstances within a department, division, section or unit in which a particular position serves limited English proficient individuals (LEP's) on a regular basis. Due to these factors it is recommended that new criteria be established to identify PCP's either by class or position. The data collected in the Language Needs Assessment discussed in No.6 below will assist in this endeavor.

Staff is currently working with departments to identify employees who are presently working in PCP or non-PCP identified positions, who provide language assistance on a voluntary basis and who do not receive bilingual pay. This includes individuals who may have not been tested or may have failed the bilingual testing process.

2. List of Classifications Identified as PCPs

Attachment A provides a list of all the active classifications. Currently designated PCP classifications falling within the 50% threshold have been highlighted. Those classifications which the Office of Equal Access is considering for inclusion as PCPs are in italics.

With the assistance of the Equal Access Committee described in number seven, and the completion of the Departmental Language Needs Assessment, the Office of Equal Access will re-identify PCP positions throughout the City utilizing both classification and position as determining factors.

3. Current Number of Public Contact Positions in the City

There are a total of 906 City employment classifications. There are 5,258 active employees: 3,480 full-time, 113 permanent part-time and 1,665 temporary part-time. 1,276 City's positions, or 211 classifications, identified as PCPs.

Attachment B provides a list of all the current PCPs, their location, position and whether or not it's filled by a bilingual staff person.

4. List of Bilingual Employees

As of June 2006, City payroll records indicate 307 City employees receive bilingual pay. **Attachment C** provides a list of employees receiving bilingual pay.

In the meantime, City departments continue to employ alternate ways of providing language access:

- Continue to draw on existing bilingual employees in non-PCPs
- Request assistance from bilingual volunteers from CAO-Equal Access Office
- Outsource interpreters and translators or request help from nearby non-profit organizations' bilingual staff.

Administrative Instruction 558 (Bilingual Pay) was updated to reflect bilingual pay integration into the hiring process, guidelines for requesting foreign language verbal testing and payment process.

5. Bilingual Recruitment Efforts

It is lawful to require bilingual proficiency in public contact positions in order to ensure equal access to services. The Ordinance is careful to distinguish between bilingual proficiency and any kind of preference based on national origin, which is against the law. The City can require language proficiency if someone is in a PCP where that language will be used. The City cannot require proficiency in a particular language unless that language will be used in the place of employment.

The specific criteria for hiring bilingual personnel will be developed in FY 2006-07 based on the Ordinance's requirements and several other indicators: demographic data from the 2000 U.S Census report; the Ordinance's 10,000 population threshold; the

number of bilingual staff available in City departments; and results from the Departmental Language Needs Assessment study.

The Office of Personnel has expanded and improved its outreach and networking efforts to locate bilingual recruits by enhancing contact with a more culturally diverse media field; thereby enabling the bilingual recruitment process to be more targeted and effective, particularly for available vacancies. Based on current marketing methods compiled by the Office of Personnel, the majority of applicants learn about job opportunities through the City's website, followed by employee referrals, print media, television advertisement, job hotlines, word of mouth and job fairs. The Equal Access Committee members will be tasked with identifying refining outreach efforts to better target populations where the City currently has difficulty in meeting the threshold established in the Ordinance.

Foreign Language Testing Implementation

The City's Administrative Instruction 558, Bilingual Pay, states that employees are to be tested to ensure language proficiency. Testing candidates provides a consistent platform.

The Office of Personnel uses testing software developed by International Contact, Inc., a woman owned, Oakland based company. The software was developed to test basic oral proficiency skills in Spanish, Cantonese, Mandarin, and Vietnamese. Other languages will be tested on a one-on-one as needed basis by professional American Translators Association certified translators at International Contact, Inc. The long term goal is to use certified translators from the Equal Access Office to conduct testing.

Testing following selection by the hiring department has been determined to be the most efficient and cost effective method of implementing this directive. The City's Civil Service system dictates that, depending on the number of vacancies, a number of names are to be sent to the hiring department for interview. Once a hiring decision has been made, the Office of Personnel tests the individual that has been selected. The hiring department is charged a \$50.00 per candidate fee for each test. The Department only pays the fee for the candidate actually being considered for the position.

In-house Translation Service

According to Oakland Municipal Code Section 2.30.050 – Translation of Materials, clause (a) "*The City Manager shall establish an in-house translation service with court-certified or American Translators Association accredited translators for the purposes of translating written materials for city departments and providing translations for public meetings as needed...*"

Two recruitment efforts were conducted to fill in-house translation positions between October 2005 and March 2006. These positions would lessen the use of outside contractors. The goal was to hire one Chinese-speaking (both Cantonese/Mandarin dialects) and one Spanish-speaking ATA certified translators. The Office of Equal Access successfully added an ATA Spanish-speaking translator/interpreter but was unable to find a qualified Chinese-speaking candidate.

The above OMC requirement is under evaluation and may need to be revised in the future due to an existing lack of Chinese Cantonese-speaking certified ATA translators. The Northern California ATA Chapter confirmed on June 2006 that there are only four ATA certified Chinese Mandarin-speaking translators available in the entire Bay Area and none that can speak Chinese Cantonese – the main Chinese dialect spoken by Oakland’s constituency. Currently staff is considering recommendations for revising the Ordinance language to allow for more flexibility in hiring, with certification prior to permanent placement. This may ease the current difficulty in meeting the threshold for Cantonese/Mandarin translator/interpreters and provide an incentive for individuals to pass the stringent ATA exam.

6. List of Current Position Vacancies

Attachment D provides a list of current position vacancies in the City as of May 2006, from the Office of Personnel Resource Management. Those positions identified as PCP’s under the current criteria are highlighted. Those classifications considered for inclusion as PCP are in italic. The Office of Personnel Resource Management continues to work with departments, per No.5 above, to provide viable candidates with bilingual capacity.

7. Equal Access Committee

At the Finance and Management Committee on May 9, 2006, Councilmember Kernighan recommended the appointment of an Equal Access Committee. As a result, each Council Member was invited to propose a member of the community to represent their district within the Equal Access Committee.

The Equal Access Committee will advise City staff on how to best implement any proposed recommendations, which may include revisions to the Ordinance, where and how to increase recruitment potential, and better ways to meet the needs of the LEP population and inform them of City services. The Equal Access Committee will be staffed by the Assistant to the City Administrator in Equal Access to ensure that the meeting agendas and discussions stay on track with the goals and spirit of the Equal Access Ordinance.

The following individuals have been selected to serve on the Equal Access Committee in addition to City staff:

1. Karen Hoy, Manager of Language 411 at Family Bridges
2. Luz Buitrago, Executive Director, Law Center for Families
3. Jim Nguyen, Language Access/Consumer Advocate, Law Center for Families

The introductory meeting of the Equal Access Committee will be held on July 13, 2006 to establish objectives, review the City's Equal Access Ordinance and immediately make recommendations on meeting the Ordinance objectives.

RECOMMENDATIONS

Staff recommends the Finance and Management Committee accept this informational report providing supplemental information as requested by Committee members. Staff will return to the Council in Fall 2006 with a comprehensive report including recommendations on public contact position identification, amendments to the City's Equal Access Ordinance and revised standards for the continued implementation and compliance by City Agencies as determined by the Equal Access Committee and the Departmental Language Needs Assessment.

Respectfully submitted,

Deborah R. Liu
Assistant to the City Administrator
Equal Access
