TO REPLACE A DRINKING WATER SYSTEM IN A TOTAL AMOUNT NOT TO EXCEED EIGHTY-SEVEN THOUSAND TWO HUNDRED SIXTEEN DOLLARS AND FORTY-FOUR CENTS (\$87,216.44); AND (3) ADOPT APPROPRIATE CALIFORNIA ENVIRONMENTAL QUALITY ACT FINDINGS

WHEREAS, the U.S. Department of Agriculture Forest Service owns a 37.58 acre real property located outside of Quincy, California known as the Oakland Feather River Camp; and

WHEREAS, since 1924, the Forest Service has issued the City a Special Use Permit to provide outdoor recreational programming, art and cultural activities in a summer camp environment at Oakland Feather River Camp; and

WHEREAS, in 1995, the City executed a 25-year Special Use Permit, which was renewed until December 31, 2043, pursuant to Resolution No. 90017 C.M.S. adopted on December 5, 2023; and

WHEREAS, pursuant to the Special Use Permit, the City has a license agreement with the non-profit Camps In Common (CIC) to provide outdoor programming at the camp; and

WHEREAS, the current license agreement between CIC and the City expired in 2021, and the City Council adopted Ordinance No. 13776 C.M.S. on December 19, 2023, authorizing a new license agreement for a five-year term until December 31, 2028, with three five-year options to extend until no later than December 31, 2043; and

WHEREAS, under the current and proposed new license agreement, the City of Oakland is responsible for the repair and replacement of the water and sewage systems; and

WHEREAS, the 5,000-gallon septic tanks, drain field, and 14-year-old drinking water filtration system at Oakland Feather River Camp have reached the end of their service life and needs to be replaced; and

WHEREAS, the contractor Ackley Engineering has provided a cost estimate of Two Hundred Twenty-Five Thousand Seven Hundred Sixty-Two Dollars (\$225,762) to replace three septic tanks and a leach field, which is a vital component of the septic system; and

WHEREAS, the proposed replacement and repair of the septic tanks and leach field will ensure the effluent wastewater leaches into the ground so that it does not remain on the soil surface or enter the creek; and

WHEREAS, replacement of the drinking water system ensures the availability of potable water for campers and staff at the Oakland Feather Camp; now, therefore, be it
