CITY OF OAKLAND

## AGENDA REPORT

**TO:** Sabrina B. Landreth  
City Administrator

**FROM:** Sara Bedford

**SUBJECT:** Head Start/Early Head Start Program  
FY 2016-2017 Grant Application

**DATE:** June 26, 2015

City Administrator  
Approval

Date

7/1/15

**COUNCIL DISTRICT:** City-Wide

### RECOMMENDATION

Staff recommends that the City Council adopt:

**A Resolution Authorizing The City Administrator To Apply For Funding For Head Start/Early Head Start Grantee City Of Oakland Through The Funding Opportunity Number HHS-2016-ACF-OHS-CH-R09-1085 In An Estimated Amount Of \$18,587,933 Per Year For A Five-Year Period From 2016 Through 2021 From The United States Department Of Health And Human Services Administration For Children And Families, Office Of Head Start.**

### OUTCOME

Adoption of the proposed resolution would allow the City Administrator to apply for funding in order for the existing grantee, City of Oakland, Head Start/Early Head Start Program, to continue to provide high quality comprehensive, integrated early care, education and family services, to Oakland's most vulnerable residents, including pregnant women and families with children, birth to five-years-old, for Fiscal Year (FY) 2016-2021.

### EXECUTIVE SUMMARY

The Oakland Head Start/Early Head Start program is evidence-based, data driven, and designed to provide high-quality comprehensive services that include education, health, nutrition, disabilities, and family support. The program's commitment to excellence is demonstrated in its ongoing implementation of high-quality programming, with a strategic emphasis on school readiness (preschool and kindergarten), parent, family and community engagement, and staff/professional development.

Item: \_\_\_\_\_  
Life Enrichment Committee  
July 14, 2015

Ongoing fiscal support of the Human Services Department's existing Head Start/Early Head Start program will allow the program to continue to provide high quality comprehensive, integrated early care, education and family services, to Oakland's most vulnerable residents, including pregnant women and families with children, birth to five-years-old, for five years from FY 2016 through 2021.

In addition, ongoing fiscal support of the Oakland Head Start/Early Head Start program is a smart investment for the current and future economic development of the City of Oakland. As Dr. James Heckman, Nobel Prize winning economist from the University of Chicago, indicated the annual economic rate of return to society for early childhood investments is 10 percent per dollar invested. Dr. Heckman's research further indicates that a reduction in crime, promotion of schooling, and a more skilled workforce, are the results of these investments.

The Funding Opportunity Announcement to provide Head Start and Early Head Start services for Oakland, CA for FY 2016-2017, with funds in an estimated amount of \$18,587,933 per year, will be released sometime in July 2015 and will be due 60 days later. Funding applications require Head Start/Early Head Start Board approval. The City Council serves as the Head Start/Early Head Start Program Board; therefore, the City's application requires a resolution from the City Council. This resolution will allow staff to apply and comply with the funding requirements. Staff will return to City Council in the spring of 2016 with the specific terms of Oakland's approved grant, assuming a successful application. This dollar amount includes base funding of approximately \$18,346,765 per year (for use in program operations, staffing, materials, equipment, facilities, etc.) and Training and Technical Assistance (T/TA) funding of approximately \$241,168.

### **BACKGROUND/LEGISLATIVE HISTORY**

The Head Start program provides high-quality, comprehensive early education programming to low-income children and families so that children start school ready to succeed. The Head Start program is a national leader, innovator, and preventive program strategy in the field of early childhood education. As an early childhood education and family services strategy, developed out of President Lyndon B. Johnson's historic War on Poverty Initiative in 1964, the Head Start Program, launched in 1965, has long been considered a model in the field of early care and education.

Through its distinct and responsive design, governance structure, management systems and comprehensive, collaborative, and integrative service delivery model, the Head Start and Early Head Start program has the capacity and proven record of accomplishment in successfully helping vulnerable families with children, ages birth through five. The Head Start/Early Head Start program helps to not only support school readiness and success for children, but financial stability and asset building for families, as well.

The City of Oakland has been a grantee of the Head Start Program since January 1971 serving Head Start eligible families with children, ages three to five years old. In 1988, the City entered into a grantee-delegate relationship with the Unity Council to serve additional Head Start eligible families and children in the Fruitvale District of Oakland. As a Head Start grantee, the City of Oakland delegated the operation of an Early Head Start Program to the Unity Council in 1998, to serve Early Head Start eligible families with children, ages prenatal through three years old.

In 2009, the City of Oakland became a direct grantee of the Early Head Start Program, through the American Recovery and Reinvestment Act (ARRA) and United States Department of Health and Human Services, Administration for Children and Families, making it possible to serve additional Early Head Start eligible families and children in Oakland.

In 2007, Congress enacted legislation that required, for the first time in the program's history, greater competition within communities for Head Start funding. The goal of the legislation and the subsequent regulations, which were effective on December 9, 2011, is to ensure that Federal Head Start funding is directed to the organizations most capable of delivering high-quality early education that puts children on a pathway to improved outcomes, school success, and opportunity.

The Office of Head Start (OHS) offers applicants the opportunity to apply for funding to serve children from birth to age five and pregnant women in one application. This provides the opportunity to create a high-quality early childhood education and comprehensive services program with a particular emphasis on the transition from Early Head Start to Head Start or to another high-quality early education program.

Applicants are strongly encouraged to bring new and innovative evidence-based or evidence-informed ideas to maximize the extent to which Early Head Start and Head Start, in collaboration with other partners and early childhood education providers, can prepare children and their families for school. Applicants are urged to explore synergies and partnerships with existing early childhood programs.

### **SUSTAINABLE OPPORTUNITIES**

***Economic:*** The grant creates more than 100 jobs, including people directly employed in centers, plus an unknown number of jobs through its economic multiplier effect. Most of these jobs are held by Oakland residents. In addition, Head Start and Early Head Start buys most of its goods and services from Oakland firms or individuals to support its programs.

***Environmental:*** There are currently no direct environmental benefits or impacts from the Head Start and Early Head Start program to the City of Oakland. The program uses recyclable paper products.

**Social Equity:** The Oakland Head Start and Early Head Start Program delivers comprehensive, high-quality services to children and families in the City of Oakland. These services are designed to foster healthy development in low-income children, ages birth through five. Head Start and Early Head Start provide a range of individualized services in the areas of education and early childhood development, medical, dental, and mental health services, nutrition, and parent involvement. The range of services is responsive and appropriate to each child and family's developmental, ethnic, cultural, and linguistic heritage and experience. Recent scientific research has verified what early childhood educators have known for years: that how children are nurtured and educated in their youngest years has a significant impact on later growth and development.
