Interests & Experiences

Please tell us how your qualifications and participation will relate to the requested board and/or commission's mission.

I am currently transitioning between offices, and leaving the Governor's Office of Planning and Research, where I spent 3+ years working on planning issues for the State, in conjunction with local governments and community groups. While there, I updated the statewide General Plan Guidelines, interpreting and giving guidance on both statutory requirements and best practices for planning at the local level. The process took years, and included collaboration with dozens of local governments, community based organizations, academics, and agencies across sectors. Community engagement, outcome oriented planning, and decision making based on community values of equity, environment, and innovation are essential to my mission driven ethos. I am a resident and lover of Oakland. After living in DC for 3 years, I returned to Oakland with a mission of investing time in the city. We are at a pivotal point in Oakland's future, with immense opportunities to improve our infrastructure, increase and improve housing, and raise the quality of life and built environment for all Oakland residents. I want to help make that happen, and have a combination of planning, policy, and personal expertise that can help.
