WHEREAS, the City of Oakland has been on the forefront of climate policy for decades;

WHEREAS, the people of Oakland and California have a right to know about the sources of carbon pollution by some of the world's most profitable corporations that do business in California; and

WHEREAS, SB 253 would provide a comprehensive, public reporting of the GHG emissions inventories for corporations with revenue over \$1 billion who do business in California; and

WHEREAS, under SB 523, companies subject to the act would, from 2026 onwards, be responsible for annually reporting a complete GHG emissions inventory, aligned with the GHG protocol; and
