

Encampment Management Implementation Strategy

Critical Components to Implementation

- **Expand System Capacity**
 - Double the number of outreach teams to create new positions which are specifically focused on supporting the encampment management policy
 - Add second Public Works encampment crew
- **Establish Regularity**
 - Maintain encampment database to track conditions over time
 - Complete routine assessments and reporting
 - Train outreach workers to utilize a mobile encampment assessment tool (app) to document encampment conditions and interactions in real-time
 - Conduct monthly meeting with each Council Office prior to any scheduled operations
 - Post outcomes, progress, and metrics on City website

Implementation Timeline**October**

- Compile comprehensive list of encampments sorted by district
- Complete census and site profile of all documented encampments
- Prioritize encampments according to equity indicators and public safety and public health findings
 - **Red** = critical conditions
 - **Yellow** = needs improvement
 - **Green** = good
- Meet with each Council Office to establish monthly meeting schedule to discuss district-specific encampment list, recommended actions, timeline of upcoming operations, and public communication and coordination
- Identify individuals within designated high sensitivity areas and begin intensive outreach services

November

- 60-day notice posted to vacate encampments in high sensitivity areas
- Continue intensive outreach services
- Continue public communication of the new policy
- Begin working with all encampment residents to achieve voluntary compliance
- Prioritize addressing encampments occupying two sides of the street
- Prioritize obstructions to rights-of-way (including sidewalks), ADA access points, traffic/bike lanes
- Monthly district Council meetings to discuss December operations
- Track and report outcomes via City website
