	Equitable Lead Hazard Abatement Program (ELHAP) and Lead Settlement Fund implementation	In 2001, ten cities and counties in California, including the City of Oakland and the County of Alameda brought a lawsuit against companies that manufactured, distributed, and promoted lead paint. In October 2019, the public entities entered a Memorandum of Understanding to satisfy their obligations under various contingency fee agreements with outside counsel, and to allocate among the prosecuting jurisdictions the balance of settlement funds. The City of Oakland and County of Alameda received a \$23,985,922.92 settlement fund allocation. Approximately \$14M (60%) of the lead settlement funds would be spent in the City of Oakland for lead poisoning prevention purposes. From the 60% settlement funds allocated to Oaklan 20% of the funds are allocated to fund work pursuant to recommendations in the Racial Equity Impact Analysis, "Eliminating Lead Paint Hazards in Oakland & Alameda County" (September 2021). The remaining 40% of the lead settlement funds are held in trust by the County of Alameda for use in lead poisoning prevention services and activities pending the City and County agreeing on programming and disbursement.
		In the past, HCD administered a remedial response program, which included coordinating relocation of households while their unit is being restored, but this program was paused due to staffing and budgetary constraints. In response to a number of organizational changes, PBD advanced adoption of an Ordinance in Dec. 2022 which detailed a comprehensive approach to regulating lead-based paint disturbance, inspection: and abatement under the City's jurisdiction. In January 2024, the City issued an RFP to perform Program Design and recommendations for establishing the ELHAP. Green and Healthy Homes Initiative was selected through this process and staff anticipates contract execution in October 2024. The consultant's recommendations are expected by August 2025 with a presentation to occur in September 2025 - based on the results of this analysis, HCD will determine if and how it will redesign and reconstitute the Remedial Response Program, or other similar programs.

	Inclusive Community Engagement	Citywide program led by CAO to coordinate community engagement work across the City and identify tools and best practices for City staff so that they can better ask for and respond to community input. Includes the interdepartmental Inclusive Community Engagement Working Group which convenes twice per month to review Community Engagement plans and advance the City's inclusive engagement goals. In addition, CAO maintains a Community Engagement Guidebook to support staff in their planning and provides tools for staff to use to track participation in community engagement processes. Also works with Citywide Training to provide quarterly trainings on inclusive community engagement, to support staff in using the tools and the guidebook.
City Administrator	Internal & External Working Groups	Oakland's history of structural racism has created barriers to engagement and participation among low- income, Black, Indigenous and other communities of color. The barriers are multiplied for women, LGBTQ, people living with disabilities, and Limited English Speakers who are part of these racial groups. Community engagement has been conducted in an ad-hoc way across the City, from formal Board, Commission and City Council Meetings to informal outreach and engagement activities often led by departmental Public Information Officers, or by other staff or consultants hired to lead City initiatives. Barring some baseline requirements that are mandated through policies such as the Brown Act, the Sunshine Ordinance, the Equal Access Ordinance, and the Americans with Disabilities Act, the City hasn't had systems or standards in place to support coordination and consistency in engagement activities across the organization. In 2020 an interdepartmental group began meeting regularly to coordinate community engagement work across the Cit and identify tools and best practices for staff, and these meetings continue through the Inclusive Community Engagement Working Group. The overarching goal is to proactively identify and remove barriers to inclusive community engagement to ensure that City plans and policy decisions are informed and shaped in collaboration with members of communities most impacted by racial disparities. Coordinate interdepartmental efforts for a wide array of activities including: Wildfire Prevention (to prevent wildfires in the City), Lake Merritt (manage issues and activities at the Lake), Caltrans (to ensure proper maintenance of property and rights-of-way), Neighborhood Services Manager (implement City's Community Policing Program), Abandoned Auto Working Group to address the transition of this service to OakDOT and continue to identify new resources to make the service delivery more effective, the Hazardous Materials
