Approved as to Form and Legality  
  
Deputy City Attorney

**OAKLAND CITY COUNCIL**  
RESOLUTION No. 84817 C.M.S.

---

**RESOLUTION ADDING A LGBTQ YOUTH SERVICES STRATEGY TO  
THE OAKLAND FUND FOR CHILDREN AND YOUTH STRATEGIC  
INVESTMENT PLAN 2013-2016**

**WHEREAS**, in November 1996, the “Kids First! Initiative” amended the Oakland City Charter and added Article XIII, thereby establishing the Oakland Fund for Children and Youth (“OFCY”) to support direct services for children and youth, and

**WHEREAS**, Section 1303 of the Charter requires that the Planning and Oversight Committee (“POC”) submit to the City Council for its adoption a three-year Strategic Investment Plan, and

**WHEREAS**, the City Council adopted the OFCY 2013-2016 Strategic Investment Plan by Resolution No 84130 C M S with the following priority areas 1) Healthy Development of Young Children, 2) Student Success in School, 3) Youth Leadership and Community Safety, and 4) Transitions to Adulthood, and

**WHEREAS**, in December 2012, the POC published a Request for Proposals based on the adopted OFCY Strategic Investment Plan 2013-2016 and conducted an “open and fair” competitive review process for the selection of grants for the OFCY 2013-16 grant cycle; and

**WHEREAS**, the OFCY staff and trained reviewers assessed 248 proposals for the Oakland Fund for Children and Youth in accordance with the criteria in the Request for Proposals, and

**WHEREAS**, on June 18, 2013, the City Council approved Resolution No 84465 C M S making 126 grant awards for the Oakland Fund for Children and Youth in the total amount of \$10,762,224, and

**WHEREAS**, in approving Resolution No 84465 C M S , the City Council’s discussion and comments recognized that service gaps exist in Kids First! programs for Lesbian, Gay, Bisexual, Transgender, and Queer (“LGBTQ”) youth, and included the desire that the POC would consider funding for LGBTQ specific safe spaces, and bring back such funding recommendations to the Council as soon as possible, and

**WHEREAS**, on July 10, 2013, the POC approved additional funding for LGBTQ youth specific programs, bringing total annual grant funding for LGBTQ specific programming through OFCY to \$344,687 through support to AIDS Project of the East Bay - Save Our LGBTQ (SOL) Youth program in partnership with the SMAAC Youth Center, Youth Uprising - YU Queer & Allies Initiative, and Our Family Coalition - Building Strong Children in LGBTQ Families program, and

**WHEREAS**, at the meeting of July 10, the POC also approved its intent toward development of a LGBTQ youth specific strategy, leading to the release of an RFP to solicit new programming to provide LGBTQ specific youth services in Oakland; and

**WHEREAS**, on July 30, 2013, the City Council approved Resolution No 84572 C M S approving an increased grant award for the Youth UpRising YU Queer & Allies Initiative and a new grant award for the AIDS Project of the East Bay in partnership with SMAAC Youth Center for the SOL Youth program, and

**WHEREAS**, following approval of Resolution No 84572 C M S , the POC and OFCY conducted a strategic planning process for LGBTQ Youth Services including gathering data and research for a needs assessment, research into best/promising practices, and community engagement through interviews, youth focus groups, provider luncheons, surveys, and a public forum, and

**WHEREAS**, the POC and community members selected a strategy for LGBTQ Youth Services supporting safe community spaces, and enhancing and strengthening the current infrastructure of support available for LGBTQ youth in Oakland, and

**WHEREAS**, the LGBTQ Youth Services Strategy targets specific age ranges, goals, intended outcomes, and community needs, and

**WHEREAS**, the LGBTQ Youth Services Strategy has been presented to City Council as an addendum to the OFCY 2013-2016 Strategic Investment Plan, and

**WHEREAS**, the LGBTQ Youth Services Strategy addendum to the OFCY 2013-2016 Strategic Investment Plan was approved by the POC, now, therefore, be it

**RESOLVED:** That the City Council hereby adopts an amendment to the 2013-2016 Strategic Investment Plan of the Oakland Fund for Children and Youth and Planning and Oversight Committee adding the LGBTQ Youth Services Strategy approved by the POC, attached to this Resolution as Exhibit A

**FEB - 4 2014**

## OFCY STRATEGY AREA

Youth Leadership and Community Safety

## FUNDING STRATEGY

### #12: Safe Community Spaces for LGBTQ Youth

#### STRATEGY DESCRIPTION SUMMARY:

OFCY will expand community-based programming and safe spaces specifically for LGBTQ youth in Oakland. Safe spaces specifically for LGBTQ youth in Oakland will support the formation of positive identities, foster peer connections, help youth to develop self-sufficiency skills and to work towards achievement of personal goals, and provide opportunities for youth to give voice and leadership in making a more inclusive community and city. Successful services for LGBTQ youth will work to address the need for family support and reconciliation services and enhance their capacity to support youth and their families.

OFCY will expand offerings and outlets for LGBTQ youth in community based settings by

- 1) Supporting consistent programming specifically for LGBTQ youth at a transit-friendly location or locations.
- 2) Supporting community-based agencies to expand their offerings and/or develop new programming and services specifically for LGBTQ youth.

Programs supported through the strategy would be expected to participate and support efforts to better coordinate and promote the network of LGBTQ youth service providers in Oakland.

## TARGET POPULATION

Oakland LGBTQ youth ages 14-20

## ACTIVITIES

OFCY will support agencies that provide.

- Safe space for LGBTQ youth by providing a welcoming and inclusive climate
- Connections to caring adults
- Positive youth development activities through consistent and diverse programming, provided by a qualified and culturally competent staff
- Access and support to a network of services, support and referrals for LGBTQ youth and their families
- The capacity to address the need for family support for LGBTQ youth.
- Programming to build strong and secure peer relations and attachments

## GOALS AND OUTCOMES

### Programming will achieve the following goals

- Expansion of programs and available services specifically for LGBTQ youth.
- Increased LGBTQ youth participation and engagement in high quality youth development programs specifically for LGBTQ youth
- Enhancement of the broader network of support available for LGBTQ youth and improved LGBTQ youth referrals to appropriate services
- Increased capacity in service providers to address family needs and provide family support
- Youth have access to enriching activities in safe and supportive places through quality programs

### OFCY Outcomes

- Increased levels of community engagement
- Increased confidence/self-esteem
- Increased connection to caring adults

## ALIGNMENT WITH OTHER SYSTEMS OF SUPPORT

Successful programming providing consistent and quality LGBTQ youth services must support and improve the network of support and referrals available for LGBTQ youth in Oakland

All programs supported through the strategy would be expected to participate and support efforts to better coordinate and promote the network of LGBTQ youth service providers in Oakland

## FUNDING ALLOCATION:

Between \$200,000 and \$300,000 in annual funding is projected to be available in FY2014-2015 and FY2015-2016 to support and enhance the infrastructure and network of support services for LGBTQ youth in Oakland available through safe spaces in the community. OFCY seeks to support expansion of LGBTQ specific safe spaces for youth in Oakland, and to support community-based organizations to expand their services or to develop LGBTQ specific programming and services

## DATA / RESEARCH SUPPORTING STRATEGIC NEED/ INVESTMENT:

National studies of adolescent youth indicate that 3% to 6% of youth identified as lesbian, gay or bisexual (LGB), reported some-sex attraction, or engaged in some-sex sexual activity<sup>1</sup>. A 2011 analysis by the Williams Institute of multiple national population-based surveys of adults estimates that approximately 3.5% of adults in the United States identify as lesbian, gay or bisexual, and an estimated 3% are transgender<sup>2</sup>.

There are 22,456 Oakland youth 15-19 years of age<sup>3</sup>. Three to six percent is equal to

## EXHIBIT A (Revised 012914)

### Strategy Summary: LGBTQ Youth Services

between 674 to 1,347 Oakland LGB youth. Based on the estimate that 3% of the population is transgender, the estimated number of Oakland transgender youth ages 15-19 is 67 individuals.

Recent studies found that the average age gay and lesbian teenagers first self-identify is between 13 and 16, compared to the 1980's when it was between 19 and 23. However, many individuals report knowing that they were lesbian, gay, or bisexual in the sixth or seventh grade or even earlier<sup>4,5</sup>. Self-identification at an earlier age can lead to the stigmatizing of youth, harassment, and discrimination, exposing youth to rejection at home and at school.

Family rejection, discrimination and harassment at school, and homelessness are threats to the health and wellbeing of LGBT youth. These can lead to negative physical and mental health outcomes, negative academic outcomes, increased rates of contact with the juvenile justice system, and increased risky behavior.

Compared to LGBT adults, LGBT youth are extremely vulnerable to the effects of discrimination and stigma because they have not yet had the opportunity to develop networks of support elsewhere if their schools and homes are hostile to them. According to the Centers for Disease Control and Prevention (CDC), the stigma of being LGBT, along with related harassment and discrimination, can cause LGBT youth to develop more troubling health behaviors than their heterosexual counterparts, including depression, homelessness, violence (e.g., bullying, teasing, harassment, physical assault, and suicide-related behaviors), early exposure to sexual activity and drug use. In a study conducted by the CDC, which surveyed 156,000 high school students from 2001-2009, LGBT youth were 63.8% more likely to exhibit risky behaviors, such as, physical violence, unprotected sexual activity, drug use and abuse, and self-inflicted violence, compared to youth not identifying<sup>6</sup>. These high rates of substance abuse, called the minority stress effect, are linked to high rates of discrimination and family rejection. Researchers have found, for example, that 51 percent of surveyed LGBT youth reported that they were either currently smoking or were former smokers<sup>7</sup>.

The risk of family rejection plays a larger role today than in past years. Lesbian, gay, and bisexual young adults who reported higher levels of family rejection during adolescence were 8.4 times more likely to report having attempted suicide, 5.9 times more likely to report high levels of depression, 3.4 times more likely to use illegal drugs, and 3.4 times more likely to report having engaged in unprotected sexual intercourse compared with peers from families that reported no or low levels of family rejection<sup>8</sup>.

LGBT youth who are accepted by their families are much more likely to believe they will have a good life and will become a happy, productive adult. In families that are not at all accepting of their adolescent's gay or transgender identity, only about 1 in 3 young people believe they will have a good life as a gay adult. But in families that are extremely accepting, nearly all LGBT young people believe they can have a happy, productive life as an LGBT adult<sup>9</sup>.

Studies show that between 78 percent and 86 percent of LGBT students experience verbal harassment in their schools because of their sexual orientation or gender identity. Nearly a quarter of LGBT students report being physically attacked in school<sup>10</sup>. These acts of bullying were not only student-to-student incidents. In a national survey, nearly a third of transgender respondents reported being verbally harassed by teachers or staff.

in a K-12 school<sup>11</sup>

In a new study by the Urban Institute, which surveyed 3,745 youth in 7th to 12th grades, 43% of LGBT youth reported being victims of physical dating violence, compared to just 29% of heterosexual youth<sup>12</sup> Numbers were even higher for victims of emotional abuse (59% of LGBT youth versus 46% of heterosexual youth) Transgender youth had some of the highest rates of victimization, despite making up a tiny percentage of the total respondents

### **COMMUNITY INPUT SUPPORTING STRATEGIC INVESTMENT:**

Community and youth input identified the need to provide more community-based programming specifically for LGBTQ youth, and cited the lack of current infrastructure in Oakland Community input was strong in supporting collaborative efforts to expand programming Youth and community input emphasized that for programs to be successful they must employ culturally competent staff OFCY broadly received feedback that there is a need to support community-based groups that currently do not have explicit LGBTQ programming to enhance their services to be more intentional and directed specifically for LGBTQ youth There was a significant amount of feedback regarding the need for current providers to better coordinate services and referrals, and to improve the quality of existing services Another consistent theme was the need to address family support, reconciliation and acceptance, and the lack of existing resources currently available to support youth in context with their family Input from service providers highlighted the need for ongoing training and technical assistance to support staffing and agencies to become more inclusive and provide more accepting and supportive spaces for queer or questioning youth

### **EVIDENCE-BASED RESEARCH/ PRACTICES FRAMING STRATEGIC INVESTMENT:**

Recognized best practices in serving LGBT individuals and families include services that provide a welcoming and inclusive climate, and the provision of linkages, referrals and resources appropriate for their LGBT clients<sup>13</sup> Another cited best practice are services that provide the tools for clients to recover from post emotional and psychological trauma related to living in stigmatizing and/or abusive family, school and community environments, and programming that helps to reduce and eliminate stigma and culturally-defined barriers

While family rejection can lead to homelessness, family acceptance has been shown to have protective effect, and accepting families help to protect LGBT youth against risky health behaviors<sup>14</sup> For youth experiencing or at risk of homelessness, reconnecting to family in a positive way can facilitate reunification and reduce long-term negative consequences<sup>15</sup> Researchers have found that accepting families come from all ethnic and class backgrounds, including families with no formal education or income<sup>16</sup>

Best practices established in serving LGBT youth in out-of-home care, which are also applicable to wider range of youth programming, include supporting family acceptance and reconciliation, creating permanent connections for LGBT youth, promoting positive adolescent development, and providing appropriate health, mental health, and education services to LGBT youth<sup>17</sup>

Community-based programming that is experienced in providing strength-based or asset-based services to LGBT youth are also cited as strong practices<sup>18</sup> Asset-based

## EXHIBIT A (Revised 012914)

### Strategy Summary: LGBTQ Youth Services

programming that promotes positive youth development is effective in helping youth achieve positive outcomes and reduce risky behaviors. Studies of resilience for youth who are a sexual/gender minority have demonstrated that positive social relationships moderate distress, while positive family support and acceptance leads to adolescent comfort and resilience in later life. Secure attachment during the coming out process functions to enhance coping with antigay prejudice, self-acceptance, and self-esteem<sup>19</sup>
