CITY ADMINISTRATOR

FROM: Katano Kasaine

SUBJECT: Cash Management Report

**DATE:** January 16, 2014

City Administrator

Approval

Date

2/24/14

COUNCIL DISTRICT: City-Wide

#### **RECOMMENDATION**

Staff recommends that the Council accepts the Cash Management Report for the Quarter Ended December 31, 2013.

#### **OUTCOME**

This is an informational report.

#### BACKGROUND/LEGISLATIVE HISTORY

The City and Successor Agency's Portfolio composition includes safety, creditworthiness, liquidity, and diversity. As of December 31, 2013, the portfolios are in compliance with the Investment Policy of the City for Fiscal Year 2013-2014. The portfolios' credit quality remains high and well within Investment Policy parameters. Liquidity remains sufficient to meet projected cash flow needs for the next six months. Provided in the attached report are each portfolio's current market value and yield as of December 31, 2013, as well as comparisons to other market benchmarks. This report confirms that no leverage (use of debt to supplement investments) was utilized nor were derivatives (such as interest rate swaps, futures, or options) held during the reporting period. Also included are reviews of key economic factors which may affect the portfolio's potential investment results.

#### **ANALYSIS**

#### Cash Position

The City's Portfolio balances increased from \$423.54 million of September 30, 2013 to \$457.83 million as of December 31, 2013. This increase was mainly due to receipt of \$122.76 million in property taxes, offset by debt service payments of approximately \$97.46 million and other operational expenses.

Item: \_\_\_\_\_\_ Finance and Management Committee March 11, 2014

The Successor Agency's portfolio slightly decreased from a balance of \$50.99 million as of September 30, 2013 to \$44.99 million as of December 31, 2013. Contributing to the portfolio decrease was debt service payments and other operational expenses.

#### Yield Comparison

The effective rate of return on total assets in the Operating Fund Portfolio for the month ending December 31, 2013 was 0.34%. The effective rate of return on total assets in the Successor Agency's Fund Portfolio for the month ending December 31, 2013 was 0.30%. The yields are different between the City and Successor Portfolios because the Successor Portfolio has a much shorter horizon due to the cash flows needs, while the City and the Port of Oakland Portfolio has had a more stable long term horizon, thus it had been invested in some longer-term high yielding securities. The Successor and City Portfolio outperformed their benchmark, the 1-year government agencies yield of 0.18% and the Successor and City Portfolio outperformed the yield on the Local Agency Investment Fund (LAIF) of 0.26%.

The performance comparison to LAIF must be considered in light of LAIF's historical tendency to lag market changes in both rising and falling interest rate environments. Moreover, the City does not actively sell securities in the portfolio to take advantage of cyclical swings in the market, which could result in the loss of principal. The primary investment objective of the City for the portfolio is to maximize safety, liquidity, and return in that respective order.

#### PUBLIC OUTREACH/INTEREST

Not applicable.

#### **COORDINATION**

The Budget Office and City Attorney's Office have reviewed this report.

#### COST SUMMARY/IMPLICATIONS

Since this is an informational report, there are no budget implications associated with the report.

#### SUSTAINABLE OPPORTUNITIES

*Economic*: The Cash Management Report summarizes the characteristics of the investment portfolios for the quarter. The portfolios' credit quality remains high and well within the parameters of the City's Investment Policy. Liquidity for both portfolios remains sufficient to meet the City's projected needs.

*Environmental*: To the extent that new investment opportunities are found in companies involved in environmentally positive activities, the City will invest in these companies (i.e. Commercial Paper, Medium Term Notes, etc.) if permitted by the City Investment Policy.

Social Equity: The City's policy is to invest, when possible, in companies that promote the use and production of renewable energy resources and any other types of socially responsible investments. Optimization of the portfolios, while observing those key areas, will not only produce interest earnings to the General Fund, but these monies may be available for services to disadvantaged areas, or enhanced recreational or social venues. Furthermore, the Treasury Division makes every effort to identify and purchase additional qualifying investments from renewable energy and other socially responsible companies.

### CITY OF OAKLAND AND CITY OF OAKLAND SUCCESSOR CASH MANAGEMENT REPORT FOR THE QUARTER ENDED DECEMBER 31 2013

PREPARED BY THE
CITY ADMINISTRATOR'S OFFICE
TREASURY DIVISION

**JANUARY 16, 2013** 

### CITY OF OAKLAND AND OAKLAND SUCCESSOR CASH MANAGEMENT REPORT FOR THE QUARTER ENDED DECEMBER 31, 2013

#### I. ECONOMIC REVIEW

#### MARKET OVERVIEW

According to the U.S Department of Commerce, Real Gross Domestic Product- the output of goods and services produced by labor is forecasted to increase at an annual rate of 3.2% in the fourth quarter of 2013. The Real GDP had increased 4.1% in the third quarter. According to Standard & Poor's, the 16-day government shutdown resulted in a \$24 billion reduction of the U.S. economy and is believed to have slowed down the growth.

The U.S. Labor Department reported the economy added 74,000 jobs in December and unemployment rate has dipped to 6.7 percent from the previous month. The private sector added 87,000 jobs as the retail sector lead the way with an increase of 55,000 jobs, while government jobs continued to drop, and decreased 13,000 jobs.

The Commerce Department reported that consumer spending, which accounts for about 70 % of U.S economic activity, increased at a 3.3 percent in the fourth quarter of 2013 compared to 2.0 percent in the third quarter. Retail sales increased 0.2 percent in December, as consumers spent more on clothing, food and beverage and gas during the holiday season.

Consumer confidence in the U.S. rose to a five month high in December 2013. The Thomson Reuters/University of Michigan final index of sentiment increased to 82.5 in December from 75.1 in November. The increase indicated that consumers were confident that the economy is improving.

According to the U.S. Commerce Department, construction on new U.S. homes dropped 9.8% in December to a seasonally adjusted annual rate of 999,000, as starts slumped for single-family homes and apartments. Despite December's decline, home-construction starts for all of 2013 increased by 18.3% from 2012 to 923,400, the highest annual total since 2007, also pointing to the housing market's continued recovery last year.

The government reported that building permits, a sign of fature demand, fell 3% in December to an seasonally adjusted annual rate of 986,000. But for all of 2013, permits were up 17.5% from 2012 to 974,700, also reaching the highest annual level since 2007. Despite mixed results in December, home builders have reason for optimism. They believe housing demand will increase, and sufficient job growth would enable more buyers to make a purchase.

#### INTEREST RATES

Inflation and unemployment continue to be the primary concern of the Federal Open Market Committee ("FOMC"). To support a stronger economic recovery, the Committee will continue its policy accommodation by purchasing additional agency mortgage-backed securities at a pace of \$40 billion per month and longer-term Treasury securities at a pace of \$45 billion per month.

The FOMC left the federal funds target rate unchanged at its October and December policy meetings, stating that the rate would remain in the exceptionally low range of 0 percent to 0.25 percent at least as long as the unemployment rate remains above 6.5 percent and inflation is above 2 percent. The

FOMC also kept the rate it charges on direct loans to banks (i.e. the discount rate) steady at 0.75 percent.

#### II. CITY OF OAKLAND

#### PORTFOLIO REVIEW

The City's Portfolio balances increased from \$423.54 million of September 30, 2013 to \$457.83 million as of December 31, 2013. This increase was mainly due to receipt of \$122.76 million in property taxes and receipt of other revenues, offset by debt service payments of approximately \$97.46 million and other operational expenses.

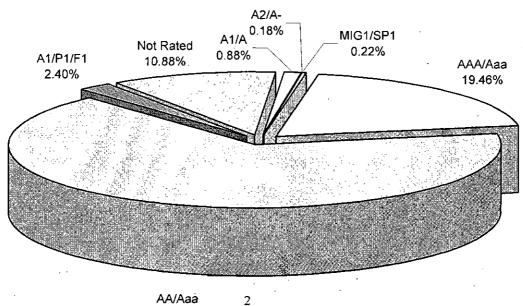

#### PORTFOLIO COMPOSITION

The Portfolio continues to comply with all provisions of the City's adopted Investment Policy for Fiscal Year 2013-2014, including compliance with applicable local ordinances and resolutions such as Nuclear Free Zone, Linked Banking, and Tobacco Divestiture.

The following discussion addresses the City's investment portfolio characteristics in terms of the Investment Policy's four objectives: safety, liquidity, diversity and return. Portfolio detail for each month of the current quarter is attached to this report.

Preservation of Capital/Safety. In the chart below, the City's holdings are depicted by credit rating category as of December 31, 2013. Approximately 65.98% of Operating Fund investments were rated in the AA/Aaa category while 19.46% in AAA/Aaa and 10.88 % primary unrated holdings represent the Fund's investments in the Local Agency Investment Fund ("LAIF"). The A1/P1 category contained 2.40%. On August 6, 2011, the government agencies were downgraded by Standard and Poor's Rating Agency to AA+ from AAA. Moody's Investors' Service and Fitch Ratings continue to maintain AAA rating for government agencies. The City's Investment Policy for FY 2013-2014 does not have a rating criteria level for government agencies.

#### City of Oakland Operating Fund Portfolio Credit Quality (As of 12/31/13)

<u>Liquidity</u>. Liquidity continues to be a primary objective when making investment decisions for the Operating Pool portfolio. With ongoing capital projects at the Port and within the City, and to ensure that sufficient liquidity is available to meet day-to-day expenditures, the City maintains a sufficient "cushion" in money market funds to meet unanticipated project expenditures.

Debt service payable from the City's Operating Pool for the Port and the City for the six months following December 31, 2013 is approximately \$114 million. Consequently, staff will continue to invest in short-term instruments and money markets as investment tools to maintain adequate short-term liquidity.

Investments maturing over the next six months are as follows:

Days	Amount(s)	Percent
0-30	\$ 138,907,959	30.33%
31-180	\$ 132,500,000	28.93%
Total	\$ 271,407,959	59.26%

Investments maturing within 180 days include \$49.80 million in LAIF and \$89.11 million in money market funds, both of which are considered to have a one-day maturity due to the ability to withdraw funds daily.

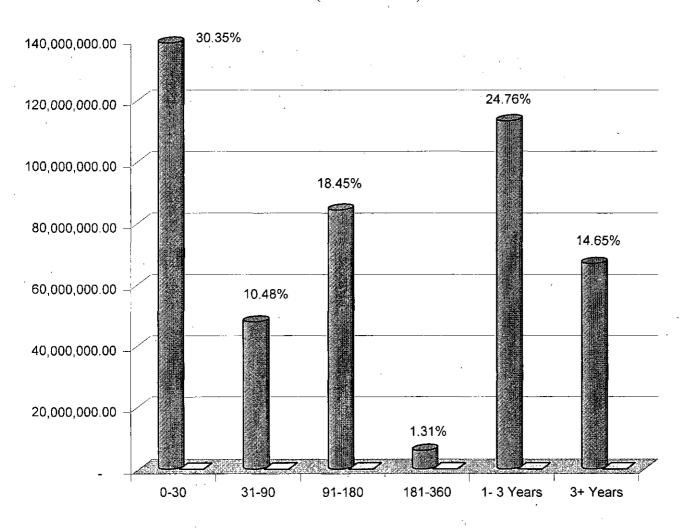

Five Year Historical Portfolio Balance: Listed below is the balance for the operating fund portfolio for each of the last 5 years.

Year	Amount	Percent Increase/Decrease From Prior Year		
December 2013	\$ 457,830,873	3.52%		
December 2012	\$ 442,249,758	18.44%		
December 2011	\$ 373,386,121	, 24.51%		
December 2010	\$ 299,889,216	10.98%		
December 2009	\$ 270,215,938			

The following graph depicts the Operating Fund Portfolio by dollars invested and the percentage in each maturity range as of December 31, 2013.

#### City of Oakland Operating Fund Portfolio Maturity

(As of 12/31/13)

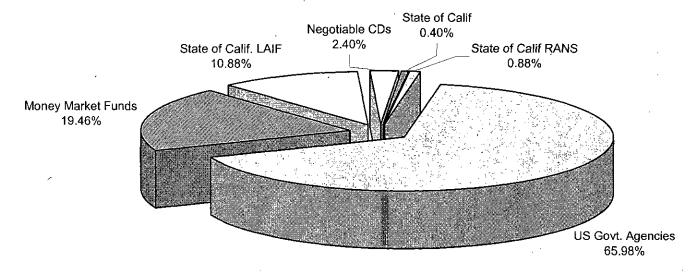

Days to Maturity

<u>Diversity.</u> To reduce the risks of investing, the portfolio is diversified among a variety of financial instruments, as depicted by the following chart. In addition to limiting the types of investments permissible in any one category as outlined in the Investment Policy, no more than 5% of the total cash portfolio may be invested in any one issue. This single-issue provision does not apply to money market funds or to LAIF, as they each are backed by a large portfolio of highly diversified assets.

#### City of Oakland Operating Fund Portfolio Diversity

(As of 12/31/13)

<u>Derivatives</u>. The Operating Fund Portfolio contained no derivative instruments (interest rate swaps, futures, or options) during this reporting period.

Yield. Total interest earned for the quarter ended December 31, 2013 was approximately \$383,703. The effective rate of return on total assets in the Operating Fund Portfolio for month-end December 31, 2013 was 0.34% as compared to 0.36% for September 30, 2013. It continues to be the City's practice to hold investments to maturity rather than to sell at a loss and adjust to the market's yield curve. The primary investment objective of the City for the portfolio is to maximize safety, liquidity, and return in that respective order.

Comparative yields for the quarter are shown below.

### City of Oakland Operating Fund Comparative Annualized Yields

(As of 12/31/13)

As of Month-end	1-Year Govt. Agency	LAIF <sup>1</sup>	Operating Fund
October 2013	0.17%	0.27%	0.35%
November 2013	0.17%	0.26%	0.39%
December 2013	0.18%	0.26%	0.34%

<sup>&</sup>lt;sup>1</sup>Effective monthly average return.

#### Benchmark Comparison:

The effective rate of return on total assets in the Operating Fund Portfolio for the month ending December 31, 2013 was 0.34%. The City's Operating Fund Portfolio out-performed the 1-year government agency which yielded a rate of 0.18% as of December 31, 2013. The City's Operating Fund Portfolio slightly performed better than the Local Agency Investment Fund ("LAIF"), which ended the month at 0.26%.

As of December 31 2013, the City's Portfolio Fund's average days-to-maturity (ADM) was 428 days versus LAIF's average days-to-maturity (ADM) was 209 days.

The performance comparison to LAIF must be considered in light of LAIF's historical tendency to lag market changes in both rising and falling interest rate environments. The City does not actively sell securities in the portfolio to take advantage of cyclical swings in the market, which could result in the loss of principal. The primary investment objective of the City for the portfolio is to maximize safety, liquidity, and yield in that respective order.

The summary below provides total portfolio income recognized for the last quarter as compared to the prior quarter and the same quarter one year ago.

<u>Valuation and Leverage</u>. Based on information received from Interactive Data Corporation, the market value of the Operating Fund was \$457.48 million, which was below book value by \$346,924. There was no leverage in the portfolio during the reported period, and liquidity was maintained at sufficient levels.

The following table illustrates the net unrealized gains or losses on the portfolio when comparing the portfolio's market value to both its original cost and amortized cost.

-	UNREAEIZED C	AINS'& LOSSES	<i>C</i>

#### III. CITY OF OAKLAND SUCCESSOR PORTFOLIO

#### PORTFOLIO REVIEW

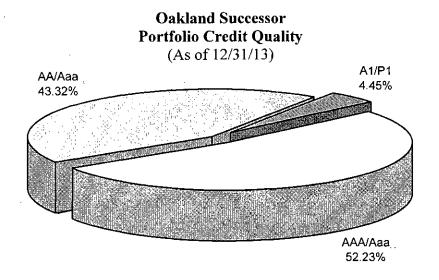

The Successor Agency's portfolio slightly decreased from a balance of \$50.99 million as of September 30, 2013 to \$44.99 million as of December 31, 2013. Contributing to the portfolio decrease was debt service payments and other operational expenses.

#### PORTFOLIO COMPOSITION

The Portfolio continues to comply with all provisions of the City's Investment Policy for Fiscal Year 2013-2014, including compliance with applicable local ordinances and resolutions such as Nuclear Free Zone, Linked Banking, and Tobacco Divestiture. In addition, the City will invest, when possible, in companies that promote the use and production of renewable energy resources and any other type of socially responsible investments.

The following discussion addresses the Successor investment portfalio characteristics in terms of the Investment Policy's four objectives of safety, liquidity, diversity and return. Portfolio detail for each of the months in the current quarter is attached to this report.

Preservation of Capital/Safety. The Successor's holdings by credit rating category are depicted in the chart below. Approximately 52.23% of Operating Fund investments were rated in the AAA/Aaa, while 43.32% were rated in the AA/Aaa and 4.45% were rated A1/P1. On August 6, 2011, the government agencies were downgraded by Standard and Poor's Rating Agency to AA+ from AAA. Moody's Investors' Service and Fitch Ratings continue to maintain AAA for government agencies. The City's Investment Policy for FY 2013-2014 does not have a rating criteria level for government agencies.

<u>Liquidity</u>. Liquidity within the Successor's Portfolio remains sufficient to meet only debt service needs of the Successor for the next six months and beyond. The debt service payment for the next six months for the Successor is approximately \$20 million. The estimated cash flow for Successor Portfolio is summarized below:
