RECOMMENDATION

Staff recommends acceptance of this semi-annual informational report on budgeted vacant positions and hiring for the period of August 19, 2014, through March 16, 2015.

OUTCOME

There are no specific outcomes associated with acceptance of this informational report.

EXECUTIVE SUMMARY

This is an informational report that provides an update on vacant positions and hiring from August 19, 2014, through March 16, 2015. *Table 1* on the second page of this report provides a citywide summary and *Attachment A* provides a list of the vacancies citywide, broken out by department or agency, including the primary fund associated with the position. *Attachment B* provides a list of positions that were added in the fiscal year (FY) 13/15 Adopted Policy Budget or later Council action and indicates the status of filling each position.

BACKGROUND/LEGISLATIVE HISTORY

The Human Resources Management Department (HRM) provides a semi-annual report on vacancies to the Finance and Management Committee as a standing item.

<u>ANALYSIS</u>

The lists of vacancies provided in *Attachment A* reflect "true vacancies" citywide. A "true vacancy" is defined as a vacant position that is available to be filled and is not personnel-encumbered in any other way, i.e. linked, frozen, funding allocated (fully or partly) to temporary personnel staffing, overtime, or to fund backfill/acting costs.

In the last report presented in October 2014, there were 341.01 Full Time Equivalent (FTE) positions vacant citywide; as of March 16, 2015, there were 345.97 FTE positions vacant citywide. In general, six percent to eight percent of positions are vaeant at any one time. The percentage of vacant positions supports the budgeted "vacancy factor" – which is a percentage of

a department's overall budgeted personnel cost – but the budgeted value of the vacancies may or may not be sufficient to cover the budgeted vacancy factor. The vacancy factor would not be met if, for example, all of a department's vacancies are in positions with the lowest value. Additionally, this report regarding vacant positions always reflects a snapshot in time. The number of vacant positions and which positions are vacant changes constantly. The budgeted vacancy factor is a fixed ratio applied to the total personnel allocation for a given department – the number of vacant positions and the percentage of vacant positions does not correlate directly to the budgeted vacancy factor.
