EXECUTIVE SUMMARY

Staff requests approval of a resolution authorizing the City Administrator to apply for, accept, and appropriate the CSPP Expansion Grant from the California CDE in an estimated amount of \$959,105, included in the FY 2015-2017 proposed budget, for program year 2015-2016 to fund child development and family literacy services in accord with said grants.

If approved, the Human Services Department (HSD) will begin providing child development and family literacy services to a total of 304 children and their families in the Oakland Head Start Program, during the program year that extends from July 1, 2015 through June 30, 2016.

In June 2007, HSD was awarded this grant from the CDE for the first time. Funds must be applied for each year through a renewal process. HSD has submitted renewal applications and received funding annually since the submission of its first renewal application for the 2009-2010 program year. Due to the State budget process, the City anticipates notification in early July that the CSPP grant has been awarded for 2015-2016 and of the awarded amount. Funds must be appropriated before September 1, 2015, which is the first day the Head Start program is scheduled to begin.

BACKGROUND/LEGISLATIVE HISTORY

In January 2007, the CDE first announced the availability of \$45,000,000 throughout the State of California for part-day preschool services, through the Prekindergarten and Family Literacy Program, **renamed** California State Preschool Program (CSPP). This funding was available for programs located in the attendance areas of elementary schools ranked in the base Academic Performance Index (API) decile one through three in 2005. Additionally, preference was given to underserved areas as identified by each Local Child Care Planning Council (LPC).

The CSPP funding is available for programs to serve three and four year olds for one to two years before kindergarten commences. Programs must provide age-appropriate and developmentally appropriate activities for children in participating classrooms designed to facilitate their transition to kindergarten, as well as provide ongoing opportunities for parents and legal guardians to work with their children on interactive literacy activities.

The City applied for and received this funding for FY 2007-2008 in order to expand upon services provided to Head Start children and families. The City has submitted applications for continued funding for FY 2008-2009 through FY 2014-2015, which have all been awarded and used to provide additional days of preschool.

The funding was also used to provide parenting education and family literacy services for 304 three and four year olds entering into their first and/or returning for their second year of preschool, and who would be transitioning into kindergarten the following fall, possibly to elementary schools in Oakland located in areas of high need, that also meet the funding criteria.

Together, the City of Oakland and delegate agency, Unity Council Head Start and Early Head Start programs, currently serve 1,747 children, up to age five, and their families, which include pregnant women. The City directly serves 1,030 Head Start children, ages three to five, and their families across 16 Centers, six Family Child Care homes, one Home-Based program, and one community partner, Saint Vincent's. The City also directly services 204 Early Head Start children, ages birth to three, and their families across two Centers, one Home-Based program, and two community partners, Brighter Beginnings and Saint Vincent's.

The Unity Council directly serves an additional 313 Head Start and 200 Early Head Start children and their families across four Centers and one Home-Based Program. See the Program Description in the Analysis section of this report for the complete list of Head Start CSPP sites.

ANALYSIS

Program Description

The Head Start CSPP will be provided at eight locations throughout Oakland. These sites were chosen according to the State guidelines for eligibility, because of their proximity to a low performing Oakland Unified School District elementary school (with a 2005 API decile ranking of one through three), located in a priority zip code as identified by the Local Child Care Planning Council, as well as site capacity and need for services. The site locations for the Head Start CSPP are: Brookfield, Eastmont, Lion Creek Crossing, Virginia Avenue, San Antonio Park, 92nd Avenue, Sungate, and Manzanita. The City of Oakland will directly serve 304 children in 19 classrooms. The following Table 1 includes the specific number of classrooms provided and children served at each location:

Table 1: Head Start CSPP Site and Classroom Roster

	Number of Classrooms	Number of Children
Brookfield	2	32
Eastmont	4	64
Lion Creek Crossing	2	32
Virginia Avenue	2	32
San Antonio Park	2	32
Sungate	2	32
92 nd Avenue	3	48
Manzanita	2	32
TOTAL	19	304

These classrooms will operate 163 days, providing an additional 22 days of service to the Head Start program year. These additional days will be provided by offering services Monday through Friday (currently, Head Start services are provided Tuesday through Friday for part-day classrooms). The 2015-2016 school year for both Head Start and the California State Preschool Programs will begin on September 1, 2015.

The City of Oakland's Head Start CSPP will offer a quality, developmentally, and culturally appropriate early childhood environment in which each child has the opportunity to develop at their own pace. Each child's relationship with their parent and primary caregiver and teacher will be fostered. Part-day services will be offered in three and a half hour sessions.

The City of Oakland's HSD actively promotes partnerships with families to support early literacy development in children. The CSPP aims to build on the strengths, knowledge, experiences, and resources of parents and family members, who have the greatest influence on their children's development, learning, and academic achievement. Parenting education and family literacy services will be provided for enrolled families.

The specific goals of the program are as follows:

- Provide high-quality, integrated, and responsive parent education and interactive family literacy activities, to help parents become full partners in educating their children.
- Provide high-quality, developmentally, culturally, and linguistically appropriate learning activities and environments, to assist children in gaining the skills necessary to succeed in school.
- Recruit and retain highly qualified staff to implement a quality child development and family literacy program for children and families.

- Develop and implement a comprehensive training plan for all program staff, to build upon skills and knowledge in early childhood and family literacy.
- Ensure that the program's centers are safe and appropriate for early childhood education services and that the program is fiscally accountable to regulations and funders.

SUSTAINABLE OPPORTUNITIES

Economic: There are economic benefits to the City from the operation of this program. The grant, along with funding from the Head Start grant, directly creates and sustains 32 jobs, including people directly employed in centers, plus an unknown number of jobs through its economic multiplier effect. Most of these jobs are held by Oakland residents. In addition, the program will buy goods and services to support its program and most of these will be purchased from Oakland firms or individuals.

Environmental: There are no foreseeable direct environmental benefits or impacts from this program to the City of Oakland. The program will use recyclable paper products.

Social Equity: The principal sustainable opportunity of this program is in the area of social equity. The program will deliver comprehensive, high-quality services to children and families in the City of Oakland. These services are designed to foster healthy development in low-income children. The program will provide a range of individualized services in the areas of education and early childhood development, medical, dental, and mental health services, nutrition, parent involvement, and family literacy. The range of services is responsive and appropriate to each child and family's developmental, ethnic, cultural, and linguistic heritage and experience. Recent scientific research has verified what early childhood educators have known for years: that how children are nurtured and educated in their youngest years has a significant impact on development, growth, ongoing academic performance and later life success.
