**This report is hierarchy based. Crime totals reflect one offense (the most severe) per incident.**

These statistics are drawn from the Oakland Police Dept. database. They are unaudited and not used to figure the crime numbers reported to the FBI's Uniform Crime Reporting (UCR) program. This report is run by the date the crimes occurred. Statistics can be affected by late reporting, the geocoding process, or the reclassification or unbounding of crimes. Because crime reporting and data entry can run behind, all crimes may not be recorded.

- HSD monitors aggregate service statistics (i.e. demographics)
- HSD has restricted access to individual-level participant information – an evaluator is needed to do deeper analysis

## INTERIM PILOT EVALUATION PLAN

- Goal: gain a stronger understanding of how case management services are rolling out and preliminary outcomes
- HSD significantly revised and sped up a grant-funded evaluation
- Conducted file reviews to ensure data quality and use of new standardized assessments and tools
- Pilot will inform program development, data collection and future evaluation

# **Pilot Evaluation Continued**

## **EVALUATION QUESTIONS**

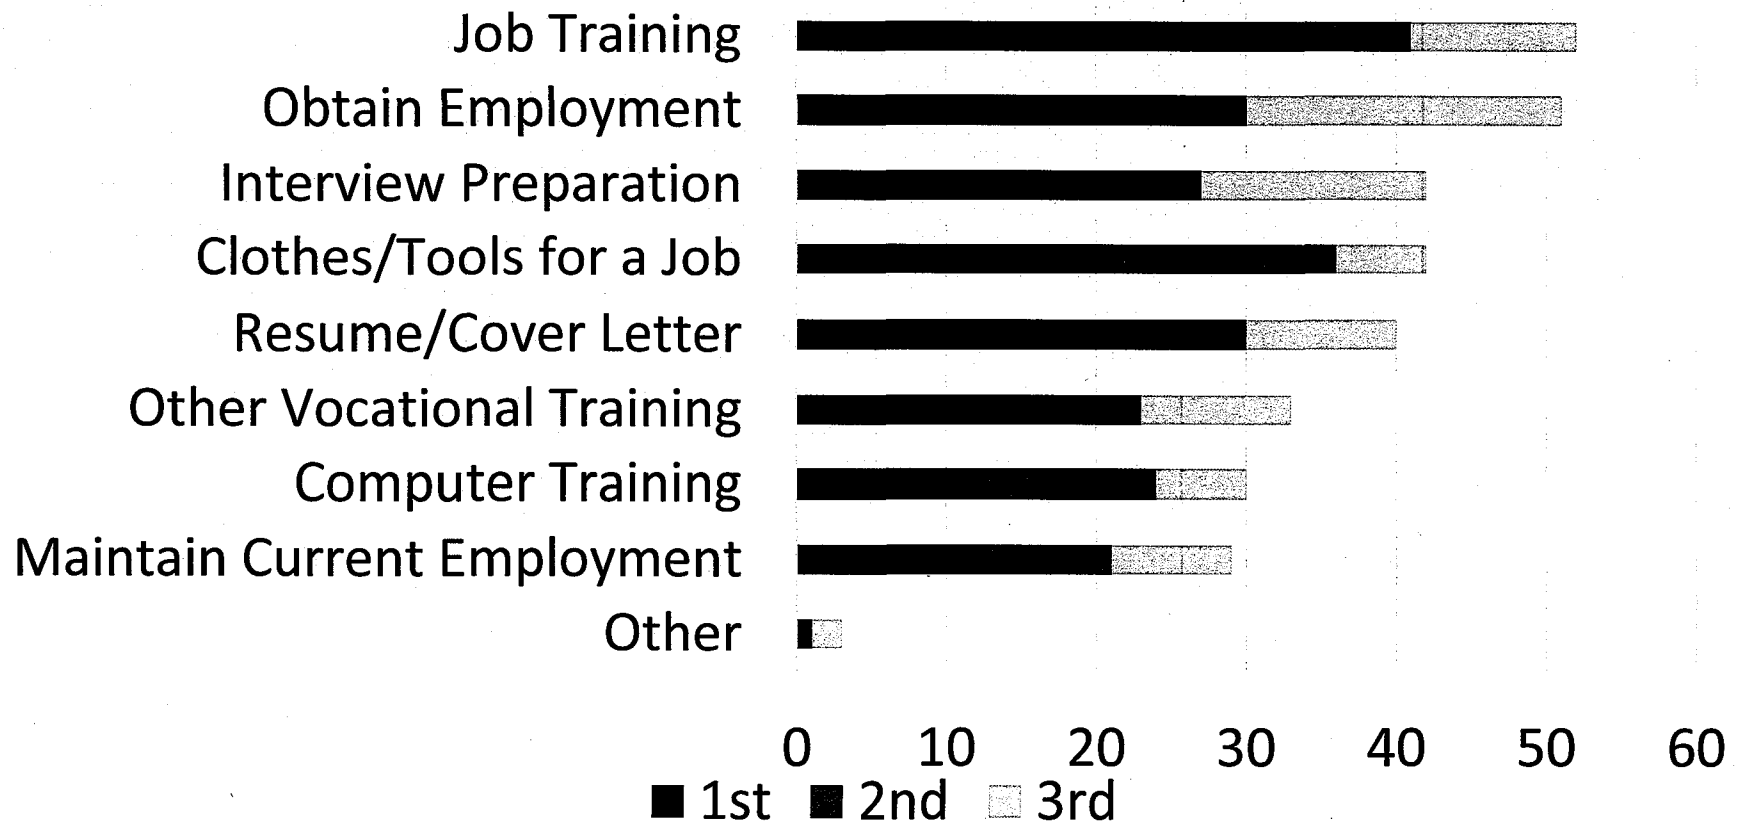

- What are the characteristics of adult case management participants?
- How much contact with law enforcement do they have before/during services?
- What services, supports, and milestones do participants obtain?
