RECOMMENDATION

Staff Recommends That The City Council Adopt A Resolution Granting A Conditional And Revocable Major Encroachment Permit To 1814 Franklin Investors, LLC To Allow Portions Of Existing Basement And Awning At 1814 Franklin Street To Encroach Into The Public Right-Of-Way Along Franklin Street And 19th Street, Major Encroachment Permit ENMJ16057.

EXECUTIVE SUMMARY

Approval of this resolution will authorize the Interim Director of the Department of Transportation to issue a Major Encroachment Permit to document and regulate existing encroachments in the right-of-way at 1814 Franklin Street.

An encroachment permit will require the property owner to comply with the conditions of approval issued previously by the City Planning and Building Department. The encroachments do not impact the use of the sidewalk fronting the property nor do they obstruct the path of travel for pedestrians or persons with disabilities. The encroachments are described in more detail in an **Exhibit** to the Resolution.

BACKGROUND / LEGISLATIVE HISTORY

The Oakland Municipal Code (OMC) Chapter 12.08 requires a major encroachment permit for building elements encroaching into the public right-of-way as stated in the OMC Chapter 15.04.679 for revisions to the California Building Code (CBC) Section 3201.5.

1814 Franklin Investors, LLC (Applicant) filed for a building permit (permit number B1700224) with the Building Department for structural repair of existing reinforced concrete sidewalk fronting the building. In order to issue the building permit to the Applicant, Building Department required the Applicant file for a revocable Major Encroachment Permit (permit number ENMJ16057) allowing the existing basement under the sidewalk and the existing historic awning above the sidewalk at the entrance to 1814 Franklin Street to remain in public right-of-way.

Item: _____
Public Works Committee

ANALYSIS AND POLICY ALTERNATIVES

The encroachments do not interfere with public use of the right-of-way or buried utilities and do not endanger the public welfare and convenience; there is no feasible alternative.

Existing encroachments (basement and awning or canopy) were built in 1920's as part of the original building construction. At that time, the OMC did not require encroachment permits for building components in the right of way. Currently, the OMC requires a revocable Major Encroachment Permit and an indenture agreement with the property owner to hold the property owner liable and responsible for private improvements in the public right-of-way. The indenture agreement allows the City to revoke the permit if necessary and requires the property owner to remove the encroachments and restore the public right-of-way if necessary.

FISCAL IMPACT

There is no fiscal impact on the City as the result of this Major Encroachment Permit. Staff costs for processing encroachment permits are covered by fees set by the Master Fee Schedule and have been paid by the applicant.

PUBLIC OUTREACH / INTEREST

This item does not require special public outreach other than the required posting on the City's website.

COORDINATION

The permit application was coordinated with Planning and Building Department, and reviewed by the Controller's Bureau and Office of the City Attorney.

SUSTAINABLE OPPORTUNITIES

Economic – No significant impact on the economy is identified

Environmental – No significant impact on the environment is identified.

Social Equity – No significant impact on social equity is identified.

CEQA

The California Environmental Quality Act ("CEQA") and the CEQA Guidelines exempt specific types of projects from environmental review. The following CEQA exemptions apply to this encroachment under CEQA Guidelines sections 15301 (existing facilities), 15183 (projects consistent with a Community Plan, General Plan, or Zoning), and 15061(b)(3) (no significant effect on the environment).

RESOLVED: That the City Council has reviewed all relevant documents relating to its grant of the encroachment permit that is the subject of this resolution; and be it

FURTHER RESOLVED: That the City Council finds and determines that the decision made hereby is made in conformance with the requirements of CEQA; and be it

FURTHER RESOLVED: That the City Council hereby grants to the Permittee a conditional revocable major encroachment permit to allow encroachment into the public right-of-way and according to the permit conditions set forth below; and be it

FURTHER RESOLVED: That said major encroachment permit is hereby conditioned by the Following special requirements:

1. This agreement may be voided and the associated permit for encroachments may be revoked at any time and for any reason, at the sole discretion of the City Council, expressed by resolution as being in the City's best interest, or the associated permit may be suspended at any time, at the sole discretion of the City Engineer, upon failure of the Permittee to comply fully and continuously with each and all of the conditions set forth herein and in the associated permit.
2. The Permittee hereby disclaims any right, title, or interest in or to any portion of the public right of way, including the sidewalk and street, and agrees that the encroachment is granted for an indeterminate period of time and that the use and occupancy by the Permittee of the public right of way is temporary and does not constitute an abandonment, whether expressed or implied, by the City of Oakland of any of its rights associated with the statutory and customary purpose and use of and operations in the public right-of-way.
3. The Permittee shall maintain fully in force and effect, at its own expense, at all times during the period for which the permit is in effect, good and sufficient public liability insurance in a face amount not less than \$300,000.00 for each occurrence, and property damage insurance in a face amount not less than \$50,000.00 for each occurrence, both including contractual liability, insuring the City of Oakland, its officers, agents, employees, and volunteers against any and all claims arising out of the existence of the encroachment in the public right-of-way, as respects liabilities assumed under this permit. The Permittee also agrees that the City Engineer, at his or her sole discretion, may review the type and amount of insurance required of the Permittee annually and may require the Permittee to increase the amount of and/or change the type of insurance coverage required as circumstances warrant.
4. The Permittee shall be solely and fully liable and responsible for the repair, replacement, removal, reconstruction, and maintenance of any portion or all of the private improvements constructed or installed in the public right-of-way, whether by cause, neglect, or negligence of the Permittee or others, and for the associated costs and expenses necessary to restore or remove the encroachment to the satisfaction of the City Engineer, and shall not allow the encroachment to become a blight or a menace or a hazard to the health and safety of the general public.
5. The Permittee acknowledges and agrees that the encroachment is out of the ordinary and

does not comply with City of Oakland standard installations. The Permittee further acknowledges and agrees that the City of Oakland and public utility agencies will

periodically conduct work in the public right-of-way, including excavation, trenching, and relocation of its facilities, all of which may damage the encroachment. The Permittee further acknowledges and agrees that the City and public utility agencies take no responsibility for repair or replacement of the encroachment which may be damaged by the City or its contractors or public utility agencies or their contractors. The Permittee further acknowledges and agrees that upon notification by and to the satisfaction of the City Engineer, Permittee shall immediately repair, replace, or remove, at the sole expense of the Permittee, all damages to the encroachment that are directly or indirectly attributable to work by the City or its contractors or public utility agencies or their contractors.

6. The Permittee shall remain liable for and shall immediately reimburse the City of Oakland for all costs, fee assessments, penalties, and accruing interest associated with the City's notification and subsequent abatement action for required maintenance, repairs, or removal, whether in whole or in part, of the encroachment or of damaged City infrastructure made necessary by the failure, whether direct or indirect, of the Permittee to monitor the encroachment effectively and accomplish preventative, remedial, or restorative work expeditiously. Upon revocation of the encroachment permit, the Permittee shall immediately, completely, and permanently remove the encroachment from the public right-of-way, repair any damage resulting therefrom, and restore the public right-of-way to its original conditions existing before the construction or installation of the encroachment, to the satisfaction of the City Engineer and all at the sole expense of the Permittee.
8. This agreement and the associated permit for an encroachment shall become effective upon filing of this agreement with the Alameda County Recorder for recordation as an encumbrance of the property and its title.
9. The Permittee acknowledges that the City makes no representations or warranties as to the conditions beneath said encroachment. By accepting this revocable permit, Permittee agrees that it will use the encroachment area at its own risk, is responsible for the proper coordination of its activities with all other permittees, underground utilities, contractors, or workmen operating, within the encroachment area and for the safety of itself and any of its personnel in connection with its entry under this revocable permit.

The Permittee recognizes that by waiving the provisions of this section, Permittee will not be able to make any claims for damages that may exist, and to which, if known, would materially affect its decision to agree to these encroachment terms and conditions, regardless of whether Permittee's lack of knowledge is the result of ignorance, oversight, error, negligence, or any other cause.

 - c. Permittee shall comply with all applicable federal, state, county and local laws, rules, and regulations governing the installation, maintenance, operation and abatement of the encroachment.
13. The encroachment permit and accompanying indenture agreement shall take effect when all the conditions hereinabove set forth shall have been complied with to the satisfaction of the

City Engineer, and shall become null and void upon the failure of the Permittee to comply with all conditions.

14. The Indenture Agreement alone does not allow work to be done which requires permitting and/or inspection, and the Permittee shall obtain any and all required permits before beginning work.

FURTHER RESOLVED: That the City Council, at its sole discretion and at a future date not yet determined, may impose additional and continuing fees as prescribed in the Master Fee Schedule, for use and occupancy of the public right-of-way; and be it

FURTHER RESOLVED: That this resolution shall take effect when all the conditions hereinabove set forth shall have been complied with to the satisfaction of the City Attorney and the City Engineer of the City of Oakland and shall become null and void upon the failure of the Permittee to comply with the conditions hereinabove set forth after notice and failure to cure such conditions in a reasonable manner; and be it
