Supplemental to Funding Strategies to Reduce Homelessness in Oakland

# THE BITY OF BUK

2017 MAY 19 AM 9: 34

# AGENDA REPORT

TO:

Sabrina B. Landreth

City Administrator

FROM:

Sara Bedford

Director, Human Services

SUBJECT:

Funding Recommendations To

Address Homelessness In Oakland

**DATE:** May 18, 2017

City Administrator Approval

Date:

### RECOMMENDATION

Staff Recommends That the City Council Receive a Supplemental Report and Recommendation to Refer Select Recommendations for Addressing Health, Safety and Services Related to Street Homelessness for Funding Consideration in the City's Biennial FY 2017-2019 Budget Deliberations.

### **EXECUTIVE SUMMARY**

On April 25<sup>th</sup>, 2017 the Human Services Department presented an informational report on homelessness to the Life Enrichment Committee. That report included strategy recommendations and estimated costs for a range of interventions including Encampment Health and Safety, Interim Housing, and Permanent Housing. The Life Enrichment Committee requested additional information regarding several aspects of the report. This supplemental report is in response to that request.

### REASON FOR SUPPLEMENTAL

Staff submits this supplemental report to outline select recommendations for addressing the health, safety and services related to street homelessness. Staff has provided: a prioritized menu of recommendations for funding consideration; more detailed budgets for recommendations proposed; programmatic impacts of proposed interventions; and, potential funding partnership scenarios with County and other partners for consideration.

> Item: Life Enrichment Committee May 23, 2017

# **BACKGROUND / LEGISLATIVE HISTORY**

On April 25, 2017, HSD presented a detailed report on the current homeless services landscape, program models, metrics for measuring success, and scale and scope of the issue.

The chart below was included in that report and is designed to offer a *menu* of near-term options to provide shelter and mitigate health and safety issues for unhoused community members.

Strategy Recommendation	Estimated Cost	Notes
Encampment Health and Safety		
Health and Hygiene Services in Place	\$180,000/ year	Creation of an additional 5
Projects		sites per year
Renew Shelter Emergency Ordinance	None	Facilitates expeditious implementation of shelter/interim housing proposed here
Private Sector Coordination	Estimated \$137,000/ year	Staff person at the Program Analyst II level Coordinate donations, landlords, etc.
Create formal interdepartmental teams	TBD, costs may include	Staff of team includes: HSD,
with specialization in homeless services	dedicated OPD and PWA teams	PWA, OPD, Fire, Transportation, CAO
Interim Housing		
Safe Haven/ Camping & Parking Sites	\$1,000,000 /year	3 sites serving 40 people each at one time
Create second Henry Robinson— interim housing tied to rapid permanent housing placements	\$2,000,000/ year for services; leasing costs for non-city owned building would be on top of this amount. Building acquisition possible through housing bond funds from KK or A1. The Mayor has directed staff to include \$10M-\$15M of funds from the first available tranche to acquire such a building.	137 beds, approximately 300 people served over 1 year with 240 getting housed; includes 6 months post housing support (case management and financial assistance)
Permanent Housing Development		
Focus on rapid construction program models for deeply affordable units	TBD by HCD. HCD is already working on strategies to utilize new bond resources for this purpose.	Stackable micro-units, purchase and renovation of Single Room Occupancy hotels and other similar buildings, etc.
Explore regulatory or financial relief for income restricted second units e.g., tiny houses or secondary units.	Planning Dept. and HCD are working on potential financial models.	Homeowners could have rental units / tiny homes which could potentially stabilize income for them, e.g. low income seniors, and at the same time provide housing for homeless residents.

Item: \_\_\_\_\_ Life Enrichment Committee May 23, 2017

Coordinated Entry for Oakland	County funded	Will result in expanded street
		outreach and housing
		navigation (case
		management) for the most
		vulnerable; should lead to increased efficiencies
Employment for unsheltered residents	Estimate \$50,000 for 1	Explore program options that
pilot	year pilot, serving 45	use individuals who are
,	individuals	homeless under employment training e.g., at Safe Haven
		sites
Develop significant investment in capital		Explore strategies being used
costs and services costs to address		by other cities including:
homelessness		Public -Private campaigns     (SF)
		Ballot Measures to create
		dedicated revenue stream
		for homelessness (San
		Diego and Berkeley)
	·	Sales Tax (LA)
		Air B&B tax (Portland)

Funding to develop deeply subsidized housing — city and county bonds, a proposed state mental health services bond — is funding that will lead to longer term permanent housing solutions. However, it is also important to note that deeply subsidized and longer term supportive and permanent housing requires on-going funding for operational and service costs. In order to alleviate the housing crisis for people with deep and multiple needs, this on-going funding must be part of any capital program to construct more of this type of affordable housing. In other words, staff strongly urges the Council to include these on-going costs in any decisions about programs and facilities to decrease homelessness in Oakland.

The City's current investments in chronic homelessness are through HSD's Community Housing Division which has an overall budget of approximately \$12.6 million. The funding comes from a variety of sources including federal, county, state and local funding. These sources and their amounts are outlined in the chart below for FY 2016-17.

Item: \_\_\_\_\_ Life Enrichment Committee May 23, 2017 Date: May 18, 2017

Page 4

		Total Award
Funding Source	Services	16/17
	Rapid Rehousing, Outreach, Winter Shelter, Services in	
City General Fund	Permanent Supportive Housing	\$1,257,227.00
HOPWA	Housing Development, Prevention, Housing Subsidies	\$2,196,785.00
<b>HUD/Continuum of</b>	Interim/Transitional Housing for singles, families, youth; Rapid	
Care	Rehousing for Families, Youth,	\$4,838,673.00
ESG	Rapid Rehousing, Shelter, Outreach, Legal/Benefits Advocacy	\$640,050.00
	Rapid Rehousing, Services in Permanent Supportive Housing,	
CDBG	Emergency Food Distribution	\$1,141,625.00
Alameda County	Rapid Rehousing, Winter Shelter, Flexible subsidies	\$572,862.99
Oakland Housing	Housing Subsidies and Housing location services	
Authority	•	\$1,960,000.00
Total Funding		\$12,607,722

Of this amount, approximately \$2,000,000 is for HOPWA and is passed through for HIV/ AIDS Housing Development and services to both Contra Costa and Alameda County. Roughly \$1,000,000 is used for City administrative/ direct services staff and the balance of \$9,000,000 is grant funding for the range of services described below.

Service Type	FY 16/17 allocations
Services to support formerly homeless people in permanent housing	\$547,603
Outreach	\$365,000
Rapid Rehousing	\$1,968,604
Shelter (includes winter shelter):	\$569,949
Benefits Advocacy/Legal	\$45,000
Transitional/Interim Housing	\$3,377,764
Housing Subsidies (OPRI):	\$1,960,000
Food Distribution	\$100,000
Encampment Response (Compassionate Communities Pilot, Health and Hygiene Pilot	\$65,000
Total	\$8,997,920

The charts above do not include other City resources and costs for service such as Public Works and OPD that may be directed to support the work of addressing homelessness. And, in addition to direct County resources given to the City of Oakland, there are many more investments from the County that more broadly support homeless services. These include Permanent Supportive Housing programs (such as Shelter plus Care), and investments in affordable housing which are allocated on a county wide basis. In addition, County funds allocated through the County Social Services Agency and the Health Care Services Agency (including behavioral health and substance abuse services) also provide significant services to homeless individuals.

Although there are significant resources currently being dedicated to addressing homelessness in Oakland, it is not enough given the growing encampments and increasing number of homeless individuals and families. The chart in the next section of this staff report outlines some additional interventions that the Council could consider in the FY 2017-19 budget to supplement

Item: \_\_\_\_\_ Life Enrichment Committee May 23, 2017 our current investments in this area. These additions require budget trade-offs and will result in cuts elsewhere in the budget.

### **ANALYSIS AND POLICY ALTERNATIVES**

The Mayor and the City Administration have been clear that homelessness is not a problem that can be adequately solved by any city, including Oakland, in isolation. It requires a collaborative approach and reliance on blended funding streams, as has always been the case in the work that has been undertaken to address homelessness for decades. The City of Oakland's HSD work is tightly coordinated with larger countywide efforts to address homelessness in Alameda County. For example, the City is an active participant in Everyone Home, the countywide effort to end homelessness in Alameda County. The City has participated in planning efforts for coordinated entry and will closely partner with the County to implement Coordinated Entry in Oakland. In addition, in recent months the City and County have partnered in funding the Compassionate Communities pilot project to provide services at an existing encampment in West Oakland. Further, HSD also collaborates and coordinates with the City's Housing and Community Development Department (HCDD) in order to increase the supply of permanent supportive housing and assure that once stabilized, former homeless people can receive assistance from subsidy and other housing programs.

The Human Services Department, in alignment with the Mayor and City Administrator, recommends focusing on three priorities from the list of interventions that can be achieved in the near term and have potential for funding partnerships to enhance success and feasibility. They are also interventions that are consistent with the City's role in providing more immediate relief to unsheltered residents and partnering with the County and the Oakland Housing Authority for other higher impact interventions.

These actions outlined below are focused on what can be accomplished now, balancing current needs and limited resources. Priorities include:

- > The creation of *up to 10* health and hygiene services-in-place encampment interventions over the next two years.
- The development of at least one (of a recommended three) safe haven site(s)
- > The creation of a second Henry Robinson like model for Interim Housing leading to permanent housing.

### **FISCAL IMPACT**

Budgets for each priority intervention listed below are included in this report as Attachment D.

### Health and Hygiene Services In Place

As housing that is and will be in the pipeline is developed, the need for these types of interim interventions will decrease and they could be phased out. In FY 17/18, HSD recommends the creation and ongoing maintenance of four sites. For FY 18/19 we propose that the City add an additional five sites and continue monthly maintenance at all 10 sites. Each health and hygiene

Item:
Life Enrichment Committee
May 23, 2017

Subject: Funding Recommendations to Address Homelessness Date: May 18, 2017

intervention is estimated to cost about \$29,498 per year in its first year of operation. This includes the following costs:

	One time start-up costs (delivery of k-rails, delivery of equipment)	\$ 15,734
>	Annual Costs portable toilets / wash station service (estimate 2 per site)	\$ 13,764
	Garbage service (prioritized by City staff)	\$0
	Total Annual Cost per site	\$29,498
>	Total Annual cost for 5 sites in FY 17/18	\$147,490
	Total Annual Cost for 10 sites in FY 18/19	\$216.310

It should be noted that on-going garbage pick-up and larger bulk trash removal is currently conducted by Public Works.

The Human Services Department recommends utilizing \$100,000 (of the proposed \$250,000) in encampment related homelessness funding in the Mayor's FY 17-19 proposed budget for this project. Per discussion with County partners, funding for this type of non-service related intervention is appropriately born by City and volunteering community members and organizations, many of whom have already volunteered to support these interventions.

As mentioned in the prior report, over the past six months, management of the Compassionate Communities Pilot as well as other encampment related projects has created strong partnerships across multiple city departments (Human Services, Public Works, OPD, Traffic, and City Administration). There is now a core group of people from each of those departments who are a defacto homelessness team. As recommended in the prior report, on-going support for a dedicated encampment team from Public Works as well as the formal continuation of the existing interdepartmental team is highly desirable. The Mayor's budget has added funding for another KOCB team and for more Public Works support to clean up illegal dumping and to address issues related to street encampments.

### Safe Havens: Camping/ Parking

Safe Havens provide a safe place for unsheltered homeless residents to be, where they can be linked to services and work with service providers to obtain permanent housing. We propose to pilot one site where up to 40 high need individuals could locate at one time, with 65% of the individuals (26 people) becoming housed over the course of one year. As those who exit for permanent housing leave the site, additional people will be permitted to move in. All participants would sign a partnership agreement indicating their willingness to actively engage in services and limiting the duration of each person's stay (for example, to 6 or 12 months). The exact length of stay for the site will be decided once a full program design is finalized.

This site would function like a navigation center, but without walls. Some of the key lessons from the Compassionate Communities Pilot were the importance of site control to manage who enters the site and to limit the numbers of people staying there. HSD believes that the best way to manage these issues in a Safe Haven site is to have on site staffing.

We underscore that this is an interim intervention and idea that would serve as a pilot. Its longer term benefit would, at a minimum, be assessed over the initial year to determine if it is worth continuing.

	Item:
Life	<b>Enrichment Committee</b>
	May 23, 2017

Subject: Funding Recommendations to Address Homelessness Date: May 18, 2017

Each Safe Haven site will cost approximately \$425,000 as a single site (multiple sites may yield

some economies of scale. A basic budget includes staffing and operational costs as follows: > Staffing (Site Management, Housing Navigation services to assist people in obtaining housing) \$300,000

> Operations (portable toilets, client supplies, office supplies, laundry) \$118.216 \$7,000

➤ One Time Costs (storage shed, storage bins pre-fab office space)

Total Costs for Year 1

\$425,216

Page 7

> Optional One Time Costs (Tuff Sheds/hard sided structures in lieu of tents, bedding, etc.) \$66,000

The Human Services Department recommends utilizing \$150,000 (of the \$250,000) in encampment related homelessness funding in the Mayor's FY 17-19 proposed budget for this project (applied to the costs of site management and operations). HSD recommends and will pursue a match from Alameda County's boomerang encampment interventions set aside funds to support the balance of the budget specifically for the services, as is consistent with their role. Initial staff level conversations with the County have included this option. The request to the County will be for a \$275,000 match.

Staff recommends the optional expense of using hard sided structures (like Tuff Sheds or something similar) rather than tents at a safe haven site. The cost of these structures, plus cots and bedding, would add approximately \$66,000 to the overall cost. However, staff in concert with the Mayor's Office, and with assistance from the Council, believes that there is an opportunity to offset these types of expenses through private donations.

The Safe Haven pilot recommendation requires identification of appropriate land, ideally city owned or leased. Staff has been working actively to assess options, including land owned by the City and other public agencies. Staff has been working on narrowing down a list of City owned property, which was provided by the City's Real Estate office. (See Attachment E) Please note that the process of narrowing down is not complete and the list contains sites, which are not and would not be appropriate for the siting of a safe haven location. We understand that siting of any potential Safe Haven location is sensitive and any decision would have to be undertaken weighing and balancing several factors, including size, proximity to public transportation, ensuring equity in addressing encampments in all parts of the city, neighborhood support/ neighborhood impacts of a safe haven site.

# Interim Housing- Creation of a large, low barrier, interim housing program - A second Henry Robinson/Housing Fast Support Network (HFSN)

As another interim, but more medium-term solution, the Mayor and City Administration are aligned in recommending the following proposal as having the most potential to have a substantive benefit to unsheltered individuals and therefore it is HSD's highest priority recommendation.

The current Henry houses 137 individuals at any one time, serves 300 clients over the course of the year, and exits over 240 people per year to permanent housing. Only interventions of this

	ltem: _		
Life	<b>Enrichment</b>		
	Ma	ay 23	2017

Subject: Funding Recommendations to Address Homelessness

Date: May 18, 2017

scale and success rate will start to make an impact in reducing the numbers of people experiencing street homelessness in Oakland. With a second program, 600 literally homeless individuals could be served each year with approximately 500 of them becoming permanently housed. Funding this model at less than the estimated cost would result in a smaller program, serving fewer people each year.

Staff recommends the purchase and rehabilitation of similar sized facility to create a "second Henry" through the use of bond funding approved through Measure KK last November. This has been determined to be an eligible expense and would contribute to achieving the 20% and below AMI goal of the Council. The City's role as a provider of housing in general makes this an appropriate role for the City. The Mayor has directed staff to pursue acquisition of a site for this purpose as soon a funding becomes available from the first tranche of infrastructure and affordable housing bond funds. However the associated services necessary to stabilize people and prepare them for more permanent housing options is not an eligible expense for bond funding. Therefore, we need to look to other funding sources, which is the challenge.

Services and operating costs for a large, low barrier Interim Housing model would be approximately \$2,000,000 per year. This includes:

	Operations	\$951,422
	Administration	\$120,000
٨	Total	\$2,000,000

Staff has identified the following potential sources of funding for the services/operating costs:

- ➤ HUD CoC HUD has indicated that they are introducing a new program model into their NOFA competition this year (expected to happen over the summer) which combines short term transitional housing with rapid re-housing. This is very similar to the current model at "The Henry" and could potentially be used to fund some costs of a second program, if a building were identified and purchased within the next few months.
- County Funds- the City is in active conversation with the County about what other County resources could be identified to support the creation of a second large Interim Housing model in Oakland.
- Oakland Housing Authority (OHA) The City is also in current discussion with the OHA to partially fund the Henry Robinson Interim Housing Program through Moving To Work funds. This same type of OHA funding may replicable to cover a similar percentage of service costs at a new program site (e.g. "a second Henry").
- > City General Funds some percentage of City funding should be considered as part of any services funding in order to leverage MediCal funds.

It is important to recognize that each funding source above has its own competitive funding process, and there are no guarantees of funding, but Oakland has been competitive in drawing down County and other sources of funding in the past. While we cannot commit all partners to specific amounts, the budget below represents an estimate of how funding for a second low barrier Interim Housing program *might* be framed based on our current HFSN model. It is important to note *this is simply a sample and has NOT been reviewed, approved or vetted by partner agencies.* Initial discussions with all partners to confirm interest in such a project have taken place but without specific numbers or any Board approvals.

Subject: Funding Recommendations to Address Homelessness

Date: May 18, 2017

# **PUBLIC OUTREACH/INTEREST**

This report did not require public outreach other than the posting of this report on the website.

### COORDINATION

Coordination has occurred between the Human Services Department, Office of the City Attorney, Controller's Bureau, and the City Administrator's Office.

Additional Coordination has taken place between the City of Oakland Human Services Department and staff of the County Health Department and County Housing and Community Development Department as well as with Everyone Home.

# **SUSTAINABLE OPPORTUNITIES**

Economic: As noted in the report, all funds identified in this report are for the purpose of providing housing and services to the homeless to eliminate and prevent homelessness. Such outcomes are achieved through rapid rehousing assistance

**Environmental:** The provision of housing for at-risk and homeless persons is intended to address the environmental degradation caused by homeless families and individuals precariously housed or living on the streets.

Social Equity: The expenditure of these funds is targeted to the most vulnerable and at-risk populations in this City and is providing essential and basic human services, housing and support.

# RECOMMENDATION

Staff Recommends That The City Council Receive An Informational Report On Funding Strategies For Consideration in City Council's Fiscal Year (FY) 2017-19 Biennial Budget Deliberations. The Investments Outlined Below Are Designed To Relieve Human Suffering Currently Being Experienced For People Who Find Themselves Homeless Especially Those Who Must Live Unsheltered On Streets.

### **EXECUTIVE SUMMARY**

The current housing crisis has not only caused displacement of long term Oakland residents to other communities but many of our most vulnerable, low income residents have been driven into literal homelessness, often unsheltered. The current system for all types resources -- shelter, interim and transitional housing, permanent supportive housing – is inadequate to meet the current and projected need, based on economic and housing cost trends. There is a crisis of health, safety and dignity for unsheltered Oakland residents who are forced to live on streets and under freeways. There is an outcry from sheltered residents to address the issue in their neighborhoods, to respond with compassion and a remarkable number of requests to offer assistance.

The 2015 Homeless count had 2,200 individuals who were literally homeless and of that number 1400 were unsheltered. The balance were in transitional housing or shelters. Staff fully expects the 2017 count to be higher and all homeless counts are considered undercounted by a factor of two or three.

To address this need, staff recommends investments in the following interventions to begin to meet the needs of chronically homeless individuals living on the streets and their sheltered neighbors. These investments are designed to create options to shelter and mitigate health and safety issues while the currently designated funding to develop deeply subsidized housing - city and county bonds, a proposed state mental health services bond - will lead to permanent solutions. The potential actions outlined in this staff report are focused on what can be accomplished now, balancing current needs and limited resources.

> Item: Life Enrichment Comte April 25, 2017

The chart below outlines the recommended actions and their costs.

Potential Strategy	Estimated Cost	Notes
Encampment Health and Safety		
Health and Hygiene Services in Place Projects	\$180,000/ year	Creation of an additional 5 sites per year
Renew Shelter Emergency Ordinance	None	Facilitates expeditious implementation of shelter/interim housing proposed here
Private Sector Coordination	Estimated \$137,000/ year	Staff person at the Program Analyst II level Coordinate donations, landlords, etc.
Create formal interdepartmental teams with specialization in homeless services	TBD, costs may include dedicated OPD and PWA teams	Staff of team includes: HSD, PWA, OPD, Fire, Transportation, CAO
Interim Housing		
Safe Haven/ Camping & Parking Sites	\$1,000,000 /year	3 sites serving 40 people each at one time
Create second Henry Robinson—interim housing tied to rapid permanent housing placements	\$2,000,000/ year for services; leasing costs for non-city owned building would be on top of this amount. Building acquisition possible through housing bond funds from KK or A1.	137 beds, approximately 300 people served over 1 year with 240 getting housed; includes 6 months post housing support (case management and financial assistance)
Permanent Housing Development		
Focus on rapid construction program models for deeply affordable units	TBD by HCD, using new bond resources	Stackable micro-units, purchase and renovation of Single Room Occupancy hotels and other similar buildings, etc.
Explore regulatory or financial relief for income restricted second units such as tiny houses		Home owners could have rental units / tiny homes tied to housing homeless residents.
Other Options/ Programs		
Coordinated Entry for Oakland	County funded	Will result in expanded street outreach and housing navigation (case management) for the most vulnerable; should lead to increased efficiencies
Employment for unsheltered residents pliot	Estimate \$50,000 for 1 year pilot, serving 45 individuals	Explore program options that use individuals who are homeless under employment training e.g, at Safe Haven sites
Develop significant investment in capital costs and services costs to address homelessness	en la state de la companya de la com	Explore strategies being used by other cities including:  Public -Private campaigns (SF)  Ballot Measures to create dedicated revenue stream for homelessness (San Diego and Berkeley)
		Sales Tax (LA)     Air B&B tax (Portland)

Any strategy that the City adopts to address homelessness must ensure that resources and interventions are targeted to the people most likely to benefit from them. Attachment A provides a rough estimate of the breakdown of high, medium and low need individuals who experience homelessness in Oakland, Attachment A- Modeling levels of need .docx

Addressing homelessness in Oakland is occurring in the context of changing policies at the county and federal level. At the county level, significant resources are being added to the existing homeless services infrastructure. These resources are targeted to people with the highest levels of need (as described in Attachment A) and to increase system efficiencies. The strategies outlined in this report are designed to be complementary to the county efforts as well as provide a broader reach within Oakland — addressing a wider population of homeless individuals (including high, medium and low need) and keeping in mind the specific needs of

Item: \_\_\_\_\_ LE Committee April 25, 2017

Page 3

Oakland, with its high numbers of unsheltered homeless individuals, high numbers of encampments, and the significant impact of homelessness on the City's housed residents.

# **REASON FOR URGENCY**

The last homeless Point In Time Count, conducted in January 2015, found 1384 individuals sleeping on the streets of Oakland on any given night. These numbers were widely assumed to be an undercount at the time and, although the 2017 numbers are not available yet, it is very possible that the Point In Time count numbers will increase. Additional recent events including the pending closure of the services in place site at 35<sup>th</sup>/Magnolia (displacing 40 homeless individuals), the pending closure of the City's main Winter Shelter (displacing 65 homeless individuals), and the fire at 2551 San Pablo (displacing over 100 individuals from an existing building that was deeply affordable) have served to highlight the crisis nature of this issue. While there is some relief on the horizon in the form of extremely low income units to be built or rehabbed through the recent county and city bond measures, there is an urgent need for more City focused actions to address this problem.

# **BACKGROUND / LEGISLATIVE HISTORY**

Just as the reasons for homelessness are diverse and complex, the solutions to homelessness are similarly varied. No single response will work effectively given how people come into and stay homelessness. That said, there are demonstrated federal, state and county strategies that we know work in Oakland and can alleviate this crisis.

In the past two years, the City Council has received 3 reports about homelessness in Oakland. These include:

- A September 29, 2015 report regarding the Winter Shelter Strategy for FY 2015-2016. ..\Winter Shelter 2015\85845 CMS - winter shelter 15-16 staff report.pdf
- A January 7<sup>th</sup>, 2016 report with additional information on the Homeless Crisis in the City of Oakland . .\Homeless Investments 2016\Published Homeless Crisis Rpt Jan19CC.pdf

All of these reports have recommended some combination of strategies to address the short term, medium term and long term solutions to homelessness. These reports have resulted in the City Council providing additional funding to enhance and expand existing strategies to respond to this problem. This report on homelessness echoes many of the recommendations presented in previous reports and recommends specific interventions for funding including immediate strategies to address encampments and a request to replicate an existing, successful interim intervention model. In addition, it addresses some specific items as requested by the Council including:

- Information On Coordination with State, County and other jurisdictions
- Progress On Identifying Land For A Sanctioned Encampment
- Status And Feasibility Of Tiny Homes As A Partial Solution

- Using hotels along MacArthur Blvd. for housing
- Involving the private sector to help address homelessness

# Changing Federal/County Landscape of Strategies to Address Homelessness

### Coordinated Entry

Coordinated Entry is a standardized method to connect people experiencing homelessness with the resources available in a community. The US Department of Housing and Urban Development (HUD) has mandated that all communities implement a coordinated entry system as their method for distributing resources including emergency shelter, interim housing, rapid rehousing, and permanent supportive housing. See Attachment B: Definition of Housing Interventions.

### Prioritization

Prioritizing chronically homeless people with the highest levels of needs for available resources is a core aspect of a coordinated entry homeless system. The shift from a system of first come, first served to one that prioritizes people based on chronic homeless status and vulnerability is designed to significantly reduce the numbers of unsheltered homeless individuals.

# The Case for Coordinated Entry

Most jurisdictions, like Oakland, do not have enough services, housing, or funding to end homelessness in their communities. Prioritization focuses limited resources on those with the most barriers to housing, who also use the most resources within the system (e.g. are the most costly to serve given the lack of coordinated entry such as numerous emergency room visits rather than connecting individuals to the right type of health care to address needs). These individuals are most affected by homelessness and are the least likely to successfully find housing on their own. Over time, as the system houses people with the highest barriers, resources are freed up to serve those with lower barriers.

### What exists now

- The City of Oakland began implementing coordinated entry for homeless families in November 2015.
- The City of Berkeley began implementing coordinated entry for all homeless populations in January 2016.
- In 2016, Alameda County Health Care Services Agency began implementing a coordinated entry system, called Home Stretch, which is the single access point countywide for the system's most intensive housing and supportive services (permanent supportive housing).

### **Next Steps**

Alameda County Health Care Services Agency (Whole Person Care Funding), Everyone Home, and the County Housing and Community Development Department are in the process of investing resources throughout the county to implement the strategies discussed above. The

Item:	
LEC	committee
Apri	125, 2017

Page 5

goal is to launch a coordinated entry system for all homeless populations in the county by September 2017. HSD applied for funding to implement coordinated entry in Oakland. Regardless of whether Oakland or another entity is awarded CES, it will lead to an increase in street outreach, assessment and housing navigation and eventually fewer unsheltered people.

# **ANALYSIS AND POLICY ALTERNATIVES**

### **IMMEDIATE STRATEGIES TO ADDRESS ENCAMPMENTS**

### Health And Hygiene Services in Place

While housing is the end goal in addressing homelessness, there is also value to improving basic quality of life for people experiencing homelessness while they remain unhoused. In March, 2017, the City began a pilot intervention on Wood Street between 24<sup>th</sup> St. and 26<sup>th</sup> St to provide health, hygiene and safety interventions to an encampment. K-rails were placed to protect homeless residents from nearby traffic; portable toilet and wash stations and regular garbage pickup have been provided to address health and hygiene needs. Street outreach and street based case management, while not specifically increased for this site, continues to be available through existing services. There are many encampments around the City which could benefit from similar interventions. Each intervention costs approximately \$25,000 to set up and maintain for a year, which includes the cost of k-rails and portable toilets. These interventions target all people living in an encampment regardless of their level of need and have a positive impact on both the homeless and housed residents in an area. These interventions are not a solution to homelessness. Rather they are a way to manage the current crisis in the short term.

The City Council could consider funding for the creation of 5 additional Health and Hygiene Services in Place projects in FY 17/18 and 5 additional sites in FY 18/19 for a cost of \$180,000 per year.

### Renewal of Emergency Shelter Crisis Ordinance

The foundation for implementing many of the ideas discussed in this report rests on having city planning, zoning, building, and life-safety codes that support these interventions for addressing homelessness. On January 5, 2016 the City Council adopted Ordinance 13348 C.M.S declaring a shelter crisis in Oakland. That ordinance expired in January 2017. California Government Code section 8698 et seq. - Shelter Crisis - states that upon a declaration of a shelter crisis state or local provisions prescribing "standards of housing, health, or safety shall be suspended to the extent that strict compliance would in any way prevent, hinder, or delay the mitigation of the effects of the shelter crisis." The code further states that a jurisdiction "may, in place of such standards, enact municipal health and safety standards to be operative during the housing emergency consistent with ensuring minimal public health and safety."

The emergency shelter crisis ordinance can be renewed once specific proposals are specified and it can contain specific language related to implementing California Government Code section 8698 et seq. In addition, while California Government Code sections 8698 et seq. refers only to property owned by a political subdivision which "includes the state, any city, city and county, county, special district, or school district or public agency authorized by law" The City Council may also explore broadening its emergency ordinance to include private property which is employed in the use of alleviating homelessness.

Item:		
	Comi	mittee
Apri	125.	2017

### Private Sector Collaboration

HSD recognizes that the City and its nonprofit partners cannot solve homelessness on our own. HSD's vision is to create a collective response to homelessness that involves a broad swath of the community. The City could solicit community involvement and have the internal capacity to manage community partnerships more effectively.

# The City Council could consider funding a position, or contract with a Community Organization to manage all aspects of community partnerships including:

- Organizations/ Faith Based Organizations/ Individuals who want to provide goods, services, or volunteers on one-time or ongoing basis
- Raise private funds, from foundations, businesses, corporations and wealthy individuals (throughout the Bay Area, and beyond) to support the programs and projects associated with Oakland's efforts to address homelessness.
- Engage merchant, business and other local associations such a Lions Club to get involved in addressing homelessness
- Create a Fund-A-Structure effort cost out and then fundraise privately for structures and other capital costs associated with Oakland's efforts including: health and hygiene interventions, sanctioned sites, safe parking/safe camping, and more permanent structures such as a second HFSN.
- Engage contractors, builders, unions, and others to volunteer labor to set up temporary sites and structures where feasible.

A city staff person in this role would cost approximately \$137,000. There also may be grant or foundation funding available for such a position.

### Explore Dedicated Oakland Police Department Officers- Homeless Engagement Officers

HSD and OPD are actively discussing the possibility of having dedicated Homeless Engagement Officers. Many communities around the country are using dedicated police officers as part of their strategy to address homelessness. These officers develop expertise in homelessness and related issues for both homeless individuals and surrounding, sheltered neighbors. The positions would be similar to officers assigned to schools or particular traffic beats who develop areas of expertise and skill sets with subject matter expertise because of exposure to that set of certain tasks and populations.

The primary role of the Oakland Homeless Engagement Officers would be to build and maintain trusting relationships with homeless residents of Oakland; work with city and county agencies, nonprofits, and community groups to provide targeted services for those in need while addressing quality of life concerns in the communities; work on site with the Department of Public Works when encampments are cleaned or removed; provide enforcement to prevent re-encampment in designated areas; and to provide a sense of security to homeless encampment residents and to nearby housed residents.

Item:	
LE Co	ommittee
April	25, 2017

Page 7

This option will continue to be discussed and considered, given other OPD priorities and staffing. A report back to Council could be considered with the 2017-19 budget deliberations during May and June.

# INTERIM HOUSING WITH EXTREMELY LOW BARRIERS TO ENTRY, INTENSIVE SERVICE DELIVERY

### Safe Havens: Camping/ Parking

In addition to the Health and Hygiene interventions described above, staff recommend providing additional, deeper services at existing encampments and at locations set up by the city. Safe camping/parking sites are a platform from which services can be delivered and housing goals achieved.

# Safe Haven Work to Date: Compassionate Communities

The Compassionate Communities Pilot Program was described in detail in the Homeless Encampments/Compassionate Communities report which was presented to the Council in December 2016. A summary of the project, its outcomes, and lessons learned is below.

### Situation

- In October 2016, the encampment at 35 St. and Peralta had a cohort of 40 individuals who had been there regularly for over a year.
- The goal of the pilot was to end unsheltered homeless status for individuals in the pilot site within 6 months
- Unsheltered residents were provided with:
  - o Intensive housing navigation (case management)
  - o Linkages to housing programs
  - o Portable bathrooms and hand-washing stations
  - o Garbage pick-up

### Successes (as of 4/1/17)

### Impact on homeless individuals

- 24 clients of the original cohort have been housed
  - o 8 have moved into permanent housing
  - 16 moved into transitional housing at the Housing First Support Network (HFSN)
- 6 of the original cohort remain at the site
- 7 of the original cohort have left the site and are not locatable
- 3 are currently incarcerated
- Most residents of the site demonstrated increased engagement in services

### Neighborhood Impacts:

 Significant reduction in incidence of illegal dumping and garbage build up within & surrounding the site.

Item:	
LE Committee	E
April 25, 201	1

 Significant reduction in the incidence of hazardous health conditions for the housed community and unsheltered residents within & surrounding the site (human waste debris, syringes, etc.)

### **Lessons Learned**

- Nearly half of the campers were housed in the first two months. With the right type of
  housing options, a surprising number of people were ready to quickly to move indoors. The
  HFSN was the primary source of housing for this pilot and needs to be expanded (see
  below).
- Site control is essential to managing who comes in and out of the site if eventual closure within a time certain is the goal to prevent backfill. Any sanctioned site must have this element and there is a cost to assuring that time frame is met.
- There is a subset of people (about 20%) who may take much longer to engage in services and housing options
- Intensifying housing navigation services (housing case management) was key to providing the support to come inside.
- Campers were responsible for and maintained the cleanliness of the site and were supportive of the effort. However, the site was not completely self-governing.
- Housed residents were grateful for immediate cleanliness improvements but still want encampments to be moved. Drug dealing and drug use is most often cited as chief complaints.
- Management of this project has created strong partnerships across multiple city departments (Human Services, Public Works, OPD, Traffic, and City Administration). There is now a core group of people from each of those departments who are a de facto homelessness team.
- Having dedicated OPD officers has been successful. It enabled enforcement of a no camping zone outside of the site, allowed OPD to become well versed in homelessness issues, and allowed people at the site to interact with OPD in a very different way. There has been increased OPD presence and engagement at other homeless encampment interventions as a result of this partnership.
- Shared talking points were critical for all parties. Regular and consistent messaging to sheltered and unsheltered residents was vital.

### **Next Steps**

The pilot site was scheduled to be closed at the end of March, 2017. The City was hoping to obtain a second site where anyone still at the 35<sup>th</sup>/Peralta site could move when the pilot site was closed. Although only 6 people from the original cohort remain at the pilot site, the spaces have been backfilled by other homeless individuals and there are currently around 40 people still in this location. At the time of this writing, the City is assertively pursuing a lease with Caltrans for another site that can be used as a Safe Camping location and the pilot project remains in place for the time being.

### Safe Haven: Camping Parking

The City is actively looking for locations to situate **three longer term safe camping/safe parking sites**. In addition to the Caltrans lot mentioned above, the Department of Real Estate has compiled a list of city owned properties, including vacant lots and parks that could potentially be used for this purpose. Staff is reviewing the list to find feasible locations.

item:	
LE Committee	
April 25, 2017	,

Locations for safe camping/safe parking will be identified so that the impact to the surrounding community can be managed and a cleaner and safer environment for housed and unhoused residents can be maintained. These sites could provide "services in place" if a current encampment location is conducive to the models below. Alternately, new sites may be identified and people will be invited to participate in programming at the new locations.

The new safe camping/parking projects would have similar aspects to the initial Compassionate Communities Pilot, and will incorporate our learning from that pilot as well as a stronger alignment with County and HUD policy regarding coordinated entry and prioritization. We note again that dedicated and consistent support and intervention services are essential to this approach and involve an ongoing City cost.

If the Council moves forward with such an approach, the three sites could be used in the following ways:

- 1. A site will operate as safe camping and be in alignment with the coordinated entry process, serving individuals who are chronically homeless with the highest levels of needs. The intention is not to be geographically specific in targeting people but to use the coordinated entry and prioritization processes to offer spaces to the most vulnerable, chronically homeless individuals. Access to housing resources will be allocated through the coordinated entry/prioritization process. This site will provide a safe space for people to stay while they work intensively with their Housing Navigators (case managers) to get referred to Home Stretch for Permanent Supportive Housing. As clients become housed, new, high needs clients will move into the site. We anticipate that a site for high needs individuals can serve 40 individuals at any one time, with 65% of the individuals (26 people) becoming housed over the course of the year. As people exit for housing, additional people will move in.
- 2. A site will operate as safe camping and will have a geographical focus with specific existing encampments invited to participate. This site will serve individuals with a range of needs. We anticipate that this site will serve 40 people at a time for up to 6 months. Access to housing resources will be allocated through the coordinated entry/prioritization process meaning that some residents will receive homeless specific housing assistance and others will be assisted to increase income, access mainstream housing, and/or reunify with friends and family. Not all people will end their homelessness through this strategy.
- 3. A site will operate as a safe parking location. This site will prioritize families who are living in their cars as well as other vehicle dwellers as space permits. Access to housing resources will be allocated through the coordinated entry/prioritization process meaning that some residents will receive homeless specific housing assistance and others will be assisted to increase income, access mainstream housing, and/or reunify with friends and family.

Similar to the Compassionate Communities pilot, these sites will have Portable toilets, wash stations, and regular garbage pickup. Since the need for site control was a major lesson learned in the pilot, it would be most effective for the City to contract with a nonprofit agency to provide some site management activities (coordination with other service providers, weekly community meetings, managing site cleanliness) and with a security company to provide 24 hour security, thus ensuring that the sites are only occupied by designated people.

liam:	•
Item:	
LE Co	ommittee
A med 1	DE 2047
Apni	25, 2017

Page 10

The City will also contract with a nonprofit agency to provide intensive street based housing navigation services to residents of a site. While the expected new county money will fund an increase in street based housing navigation throughout the City, those funds will be targeted only to the highest needs individuals. Housing Navigation services, funded by the City and provided as a part of these safe camping/safe parking projects, would be available to any individual of the encampment including medium and low need individuals.

Safe camping sites could use individual tents as their housing or could use more substantial modular units (such as Tuff Sheds) that have doors and windows and can accommodate two people. Tents have the advantage of being able to accommodate individuals living separately and modular units have the advantage of being more durable and offering more weather protection and security. In practice, tents and modular units could be used interchangeably. However, staff recommends using modular units due to their weather protection, durability. stability, and capacity to create an organized arrangement.

Funding for up to three, year-long pilot sites would cost \$1,000,000/ year. The recommendation requires identification of appropriate land, ideally city owned or leased. Staff is actively assessing options.

# Creation of a large, low barrier, interim housing program - A second Henry Robinson/Housing Fast Support Network (HFSN)

The HFSN, is a 137 bed Interim Housing program that serves people who enter directly from the streets. All people entering the Henry are homeless, extremely low income and nearly half have serious mental illnesses. Many also suffer from alcohol abuse, drug abuse, physical disabilities, and chronic health conditions. Overall, 80% report some form of disability. The HFSN is currently the main entryway into the homeless services system and the major path to get homeless people off of the streets in Oakland, especially for those in the West Oakland and Downtown areas, Each year, the program serves almost 300 people and successfully assists over 80% of their clients to end their homelessness and return to being housed members of the community.

In many ways, the HFSN operates like a Navigation Center in SF - taking people and their possessions directly from the streets for short term, interim stays. Staff requests that the City Council consider a second HFSN and that this facility be even more low barrier and more aligned with the SF Navigation Center model - creating a space that can accommodate groups of people, all of their belongings and their pets. The cost of an additional large scale interim Housing program is approximately \$2 million/ year in services and operating costs plus the cost of acquiring a building. Using a prefabricated building(s) on a city owned lot is one option that would help to keep costs down.

### PERMANENT HOUSING DEVELOPMENT

### Feasibility Of Tiny Homes As A Partial Solution

There is currently a great deal of interest in Tiny Houses as a solution to homelessness. Many communities around the country are using some form of Tiny Houses as part of their approach to addressing homelessness. However the definition of Tiny Houses can vary greatly from a limited interim structure to one which can be used for permanent housing.

Item:		· 
LE	Com	mittee
Ap	ril 25	, 2017

Unlike many communities around the country which are using Tiny Homes as part of their approach to addressing homelessness, the City of Oakland does not have land available in the quantities that would allow stand-alone Tiny Homes to significantly impact the numbers of literally homeless people on the streets. However, HSD believes that Tiny Homes can play a role in addressing homelessness in Oakland in the following ways:

- 1. Tiny Homes for homeless college students: In the 2016-2017 mid cycle budget, the City Council added \$80,000 for Laney College to design and build two Tiny Homes prototypes. These prototypes, or other Tiny Home models, could be used to house homeless college students on land provided by the college.
- 2. Tiny Homes in backyards to house homeless individuals: Some communities around the country, such as Portland OR, have changed their zoning and other codes to allow people to place Tiny Homes in their backyards if the homes are used to house homeless households for at least 5 years. In Portland's model which will be piloted this summer, homeless families will live in the homes rent free. In exchange for housing a homeless family for five years, the property owners will get a tax abatement and the tiny house—which they'd eventually be able to use or rent out. This project is just beginning so its impact is not documented. Staff believes that this approach could be one approach for a segment of the homeless population who are fairly stable and do not need of intensive services. If the City Council wishes to pursue such a program, staff will need to complete more analysis and research regarding incentives and resolving other issues as well as figure out the likely financial costs to the City.
- 3. Stackable Units: To reach a density that will impact people who are literally on the streets, the City could consider stackable Tiny Homes. There are a variety of companies who are designing and building these units which can be put together quickly to create apartment building like complexes. These Tiny Homes could be used as Transitional/Interim Housing or as Permanent Supportive Housing. The County is currently increasing their investments in services connected to permanent housing, or tenancy sustaining services while the two recently passed bond measures may be able to provide capital dollars for the creation of stackable tiny homes, or micro units. Additional research and analysis is required to figure out costs and approaches to demonstrate feasibility.

# Using 455 7th Street to house homeless individuals

The former Oakland City jail is vacant and has been for over a decade. While staff has not investigated this building specifically, there is concern about housing homeless individuals in a site formerly used as a jail, as well as the current physical condition and status of building systems. Homelessness is already stigmatized and often conflated with criminal activity. HSD feels that turning this facility into any type of homeless service would perpetuate that stigma and would be a deterrent to access for homeless individuals.

Item: \_\_\_\_\_ LE Committee April 25, 2017

Page 12

# Using hotels along MacArthur Blvd

The City Administrator's office, in partnership with HSD and the Department of Housing and Community Development, has been looking into the feasibility of using hotels along MacArthur Boulevard for interim housing for homeless individuals. Currently, staff have made site visits to some of the hotels along MacArthur and have identified one hotel, the Twin Peaks, as a possible location for the City to master lease unit. In addition, other motels such as the Rodeway Inn in East Oakland are being explored as suitable housing. Staff is also looking into preservation/ conversion of Single Room Occupancy (SRO) hotels (e.g., Sutter, Mitchell, Clarldge) as possible sites for permanent or interim housing. More assessment remains to be completed to determine the best use for these units in the City's continuum of homeless services.

### OTHER OPTIONS

Employment Services/Job Readiness Training

Staff recommends that funding be allocated for job readiness services which specifically focus on literally homeless people who are living in encampments. Job Readiness includes skills development such as coming to work on time, getting along with supervisors and co-workers, and completing assigned tasks. There are opportunities to use these skills in encampment clean up efforts and neighborhood beautification efforts.

Funding for a pilot project is estimated at \$50,000/ year for one year to support 45 people in supportive employment, job placement as appropriate.

### ADDITIONAL INFORMATION REQUESTED BY COUNCIL

Coordination with State, County and other jurisdictions:

The City of Oakland's HSD work is tightly coordinated with larger countywide efforts to address homelessness in Alameda County. The City is an active participant in Everyone Home, the countywide effort to end homelessness in Alameda County. The City has participated in planning efforts for coordinated entry and intends to partner with the county once coordinated entry funding decisions are announced. In addition, in recent months the City and County have partnered in funding the Compassionate Communities pilot project to provide services at an existing encampment in West Oakland.

Item: LE Committee April 25, 2017

# **FISCAL IMPACT**

Potential Strategy	Estimated Cost	Notes
Encampment Health and Safety		
Health and Hygiene Services in Place Projects	\$180,000/ year	Creation of an additional 5 sites per year
Renew Shelter Emergency Ordinance	None	Facilitates expeditious implementation of shelter/interim housing proposed here
Private Sector Coordination	Estimated \$137,000/ year	Staff person at the Program Analyst II level Coordinate donations, landlords, etc.
Create formal interdepartmental teams with specialization in homeless services	TBD, costs may include dedicated OPD and PWA teams	Staff of team includes: HSD, PWA, OPD, Fire, Transportation, CAO
Interim Housing		
Safe Haven/ Camping & Parking Sites	\$1,000,000 /year	3 sites serving 40 people each at one time
Create second Henry Robinson—interim housing tied to rapid permanent housing placements	\$2,000,000/ year for services; leasing costs for non-city owned building would be on top of this amount. Building acquisition possible through housing bond funds from KK or A1.	137 beds, approximately 300 people served over 1 year with 240 getting housed; includes 6 months post housing support (case management and financial assistance)
Permanent Housing Development		
Focus on rapid construction program models for deeply affordable units	TBD by HCD, using new bond resources	Stackable micro-units, purchase and renovation of Single Room Occupancy hotels and other similar buildings, etc.
Explore regulatory or financial relief for income restricted second units such as tiny houses		Home owners could have rental units / tiny homes tied to housing homeless residents.
Other Options/ Programs		
Coordinated Entry for Oakland	County funded	Will result in expanded street outreach and housing navigation (case management) for the most vulnerable; should lead to increased efficiencies
Employment for unsheltered residents pilot	Estimate \$50,000 for 1 year pilot, serving 45 individuals	Explore program options that use individuals who are homeless under employment training e.g. at Safe Haven sites
Develop significant investment in capital costs and services costs to address homelessness		Explore strategies being used by other cities including:  Public -Private campaigns (SF)  Bailot Measures to create dedicated revenue stream for homelessness (San Diego and Berkeley)  Sales Tax (LA)  Air B&B tax (Portland)

# PUBLIC OUTREACH/INTEREST

This report did not require public outreach other than the posting of this report on the website.

# **COORDINATION**

Coordination has occurred between the Human Services Department, Office of the City Attorney, Controller's Bureau, and the City Administrator's Office.

Item:
LE Committee
April 25, 2017

# **SUSTAINABLE OPPORTUNITIES**

**Economic:** As noted in the report, all funds identified in this report are for the purpose of providing housing and services to the homeless to eliminate and prevent homelessness. Such outcomes are achieved through rapid rehousing assistance

**Environmental:** The provision of housing for at-risk and homeless persons is intended to address the environmental degradation caused by homeless families and individuals precariously housed or living on the streets.

**Social Equity:** The expenditure of these funds is targeted to the most vulnerable and at-risk populations in this City and is providing essential and basic human services, housing and support.

# ACTION REQUESTED OF THE CITY COUNCIL

Staff recommends that the City Council review and consider the potential strategies outlined in this staff report for funding in Council's FY 2017-19 biennial budget deliberations. The investments outlined are designed to relieve human suffering due to homeless, especially for those who must live unsheltered on streets.

For questions regarding this report, please contact Lara Tannenbaum, Community Housing Services, Acting Manager, at 238-6187.

Respectfully submitted.

SARA BEDFORD

Director, Human Services Department

Prepared by: Lara Tannenbaum, Acting Manager

Attachment A-Modeling Levels of Need Attachment B- Definition of Housing Interventions

Item:

LE Committee April 25, 2017

### Attachment A: Modeling the level of need among people experiencing homelessness in Oakland.

In the 2015 Point In Time Count for Oakland the total number of people experiencing literal homelessness (living on the streets, in shelters, in transitional housing) in Oakland was approximately 2200 individuals. Based on data from other communities around the country as well as from what we know in Oakland, we can roughly estimate that this breaks down to:

- 25% (550) of people are chronically homeless and have high levels of need. These are
  people who need significant levels of assistance to end their homelessness and are
  likely to need Permanent Supportive Housing (PSH)- housing that is both deeply
  affordable (20% AMI or below) and has permanent intensive services attached to each
  unit.
- 50% (1100) of people are medium need requiring significant assistance to end their homelessness through time limited interventions such as Transitional Housing or Rapid Rehousing (subsidy assistance) and intensive case management.
  - o We estimate that half of this population, or 550 individuals, will resolve their homelessness through these services.
  - We estimate that the other half of this population, or 550 individuals, will require on going affordable housing (at 20%-80% AMI), but may not need on going intensive services
- 25% (550) of people are low need. These are people who may have recently become
  homeless, who have a work history and no disability, and who could be assisted to end
  their episode of homelessness through interventions such as move in assistance
  (deposit and first month's rent), short term Rapid Rehousing subsidies, employment
  support, or family reunification.

When the City receives the 2017 Point in Time numbers a more robust modeling will be developed including an analysis of who is entering into homelessness, what the levels of need are, and who is exiting homelessness.

Attachment A

### **Attachment B: Definitions of Housing Interventions**

Permanent Supportive Housing (PSH) is housing for people who are homeless and have a disability or families in which one adult or child has a disability. Supportive services designed to meet the needs of the program participants are available. PSH may be building based (an entire building) or may be scatter site (individual units around the city).

Rapid rehousing (RRH)— involves providing temporary financial assistance and services to return people experiencing homelessness to permanent housing. Core components include assistance locating housing, paying for housing and maintaining housing. Clients have a lease in their name and gradually contribute more and more towards their rent until they are able to take over the entire rental payment. RRH programs vary in length from 6 months to 24 months.

Transitional/interim Housing refers to a supportive – yet temporary – type of accommodation that is meant to bridge the gap from homelessness to permanent housing by offering structure, supervision, and support. Length of stay can be up to 24 months but in Oakland we have transitioned our Transitional/Interim programs to have shorter lengths of stay and have a goal of exiting people to housing within 6 months.

Emergency Shelter - is a facility whose primary purpose is to provide temporary shelter for homeless people in general or for specific populations of homeless individuals. Emergency shelters play a critical role in a crisis response system. Low barrier, permanent housing-focused shelters not only ensure that homeless individuals and families have a safe place to stay, but that their experience of homelessness is as brief as possible.

### INFORMATION ABOUT ATTACHMENT E - LIST OF PUBLICALLY OWNED LAND

The attached list is extensive and staff is still in the process of evaluating potential sites for various facilities for sanctioned safe housing and other, sanctioned camping and other projects. We have color coded the sites with the most opportunity as follows:

Green: represents the site characteristics and location that would be workable.

Yellow: represents some of the site characteristics but some aspects need more evaluation.

Red: flagged as a possible concern given certain site characteristics and location.

Please note that larger print copies of this list will be available at the Council meeting for those who are not able to view on line.
