AGENDA REPORT

TO:

Sabrina B. Landreth

City Administrator

FROM:

Ian Appleyard

Director, HRM

SUBJECT:

Semi-Annual Staffing Report

DATE: April 22, 2019

City Administrator Approval

Date:

RECOMMENDATION

Staff Recommends That The City Council Receive The Semi-Annual Informational Report On Public Works And Department of Transportation (DOT) Staffing Through March 25. 2019.

EXECUTIVE SUMMARY

This informational report, formally known as the "vacancy report," provides an update on citywide staffing as of March 25, 2019, and includes the status of vacancies, recruitment and the City of Oakland full-time workforce. The total budgeted full-time positions was 4,455.17 Full-Time Equivalent (FTE) with 645.66 FTE positions vacant, resulting in a 14.49% vacancy rate as of March 25, 2019. This report analyzes the status of each vacancy by department (Attachment A), the status of the 183.91 FTE positions that were added in FY 2018-19 (Attachment B), and the status of vacant positions in the Oakland Public Works Department (OPW) and the Department of Transportation (DOT) (Attachment C). This report contains the same information as the report to Finance Committee with an additional analysis of OPW and DOT vacancies.

Human Resources Management (HRM) Department's recruitment priorities are set by the City Administrator, and, subsequently, in coordination with individual departments. In some instances, high priority recruitments do not correlate to high-volume recruitments and, therefore, may not reduce the overall vacancy rate.

BACKGROUND / LEGISLATIVE HISTORY

The Human Resources Management Department (HRM) provides a semi-annual report to both the Finance and Management Committee and Public Works Committee. This report examines vacancy data, as provided by all City Departments, as of March 25, 2019. Additionally, this report analyzes several key organizational staffing elements, including unemployment rates, retention rates and employee tenure.

Date: April 22, 2019 Page 2

ANALYSIS AND POLICY ALTERNATIVES

For the purposes of this report, vacancies are described as **non-encumbered** and **encumbered**. The former is available to be filled and not linked for any other purpose, such as overtime, temporary staffing, or acting assignments. The latter is tied to one of the aforementioned purposes or, in some cases, a continuous recruitment is being conducted.

As of March 25, 2019, there were 645.66 FTE positions vacant citywide with 88.81 FTE encumbered as described above. Therefore, the citywide vacancy rate is 14.49%. If the encumbered vacancies were subtracted, there would be 556.85 vacancies and the rate would be 12.50%. The November 2018 report had an all-vacancy rate of 16.69%. Therefore, in six months the overall vacancy rate was reduced 2.2 percent.

It is also important to account for the "budgeted vacancy factor," which is distinct from the "vacancy rate." The budgeted vacancy factor is a fixed budget ratio applied to the total personnel allocation for a given department and varies between zero (0) and six (6) percent.

Status of Vacancies - City Wide

A significant reason for the changes to the vacancy rate over time is the addition of new positions to the City's budget. Over the past two fiscal years, 316.91 FTE were added to the City budget. **Table 1** below shows all vacant positions (encumbered and non-encumbered), which results in the current 14.49% vacancy rate. Table 2 shows only non-encumbered positions, resulting in a 12.5% vacancy rate.

Table 1: Citywide Vacancy Summary						
Type All Vacant %						
Total Sworn	1,435	61	4.25%			
Total Miscellaneous	3,020.17	584.66	19.36%			
Total 4,455.17 645.66 14.49%

When Departments submit vacancy information, standard descriptors are available from which to choose. Table 4 is a summary of vacancy status, sorted by most frequent (Recruitment Open) to least (Eligible List Available). As stated above, there are 88.81 FTE encumbered vacancies.

	Table 4: Summary of Vacancy Status

Status of Vacancies – Departments

Table 5 shows the total vacancy rate by department, sorted by high to low percentage. As noted above, some vacancies are encumbered and do not necessarily reflect accurate vacant rates within each department. As an example, 34 positions listed as vacant within the Fire Department are encumbered to use for minimum staffing overtime. Other positions are under continuous recruitment, meaning the department and HRM accept applications on an ongoing basis to fill vacant positions. Within the Police Department, 89 of the vacancies (39 Police Officer and 50 Police Officer Trainee position) are under continuous recruitment.

Table 5 Rates by Department

To understand how Oakland compares to regional jurisdictions, HRM surveyed nine agencies and received eight responses. The survey results, provided in **Table 6**, shows the average regional vacancy rate is 16.61 percent.

Table 6: Survey Agencies Vacancy Rates					
Comparator Agencies	No. of Depts	No. of Budgeted positions	No. of vacant positions	Vacancy Rate

**Vacancy data reported on an annual ba	**Vacancy data reported on an annual basis; available July 2019				

The above jurisdictions were surveyed as to difficult to recruit classifications. They responded by identifying Police Officer, Police Communications Dispatcher, Information Technology, skilled trades and engineer positions. The City of Oakland has been successful in staffing Police Officers, Police Dispatchers and Information Technology positions. However, the City of Oakland has difficulty recruiting for skilled trades, heavy equipment mechanics and workers, and internal services (human resources and finance).

Department of Public Works and Transportation

As of March 25, 2019, the OPW and DOT departments has a vacancy rate of 18.6% and 23.26% respectively. Of these vacancies, there are several entry-level classifications, including Public Works Maintenance Worker, Park Attendant, Custodian and Parking Control Technician (totaling 35 vacancies), which are being filled by provisional and part-time employees while the recruitment is occurring. Therefore, services in these areas are being delivered as the long-term staffing is being addressed. Additionally, at the time of this report, the Assistant Engineer II classification (11 vacancies) is open to recruit newly graduated students and the Heavy Equipment series (nine vacancies) is currently assigned to the City's recruitment consultant.

Recruitment Successes

In the past several months, HRM has focused on assisting departments hire for hard-to-recruit positions or positions with a high number of vacancies. Since November 2018, eight (8) Building Inspectors, 45 Police Officer Trainees (including 42 in the current class), six (6) Head

Item:
Public Works Committee
May 14, 2019

Start or Early Head Start Instructors, and 21 Public Works Maintenance Workers have been hired. In addition, HRM and the Oakland Public Library set forth an aggressive recruitment plan after the passage of Measure D which has led to 108 positions being filled since November 2018. Significantly, the City of Oakland is fully staffed with Police Communication Dispatchers and Head Start Instructors.

The City remains focused on growing its own to fill full-time positions. During the first quarter of 2019, nearly 70% of the full-time positions filled were with current City of Oakland employees. This helps departments with minimizing training time and retaining talent. It also incentivizes staff to seek internal and external training and career development opportunities. It should be noted that while internal promotions are exceptionally beneficial for the health of our organization and workforce, they result in a net-zero gain from the vacancy perspective in that each promotion creates another vacancy elsewhere.

Recruitment Strategies

HRM works closely with the City Administrator's Office and department directors to develop short- and long-term strategies for filling vacancies, including enhancing cross-departmental communication, identifying recruitment priorities, better outreach and education, and collaborating on efficiencies. Below are recent strategies that have short- and long-term positive impacts to the recruitment process.

- 1. Recruitment and Retention Committee: To better understand and address recruitment and retention issues facing the city, HRM has convened a Recruitment & Retention Committee consisting of directors from six of the largest departments. The goal of the committee is to strategically address the city's staffing needs in general, and departmental needs specifically. Committee's goals include:
 - Create a shared understanding of all aspects of the recruitment and retention issue.
 - Increase awareness and understanding of efficiencies that are currently available.
 - Identify resources and changes to improving employee retention.
 - Improve the candidate and new employee experience.
 - Explore and develop city branding.
- 2. New Process Efficiencies: After a thorough review of the hiring process, HRM, in conjunction with the departments, reduced the process from 53 to 32 steps. One significant obstacle was the time between a department's requisition approval and the opening of the job announcement. To reduce this time, HRM is conducting pre-recruitment checklists, which allow administrative and approval processes to run concurrently as opposed to sequentially. This completes the recruitment planning process prior to an HR Analyst being assigned and results in a more efficient posting of the job announcement. Feedback from departments has been overwhelmingly positive and has reduced the time to open a recruitment by 30-45% on average.

4	Item:
Pub	ic Works Committee
	May 14, 2019

3. HR Staffing Update: HRM has been recruiting to fill its own vacant positions during the past six months to increase recruitment capacity. A supervisory analyst position and a part-time annuitant have been hired since the last report. Currently, HRM is holding interviews to fill four vacant analyst positions; two Senior HR Analysts and two HR Analysts. One HR Analyst resigned to join a neighboring entity during this same time.

- 4. Recruitment Consultant: With Council's approval, a three-year contract was executed last year with Cooperative Personnel Service (CPS) to provide on-call recruitment services for departments. To date, CPS has assisted with 11 recruitments, primarily within the Public Works and Transportation Departments. As the consulting team familiarizes itself with the Oakland recruitment process, the number of recruitments the team is handling is expected to increase. CPS services have increase HRM's recruitment capacity by approximately 10 percent.
- 5. Continuous recruitments: For some difficult to fill positions, or positions with ongoing vacancies, HRM has opened continuous recruitments on the online application platform. This effort is increasing the supply of applicants for testing and potential appointment. Examples of classifications opened continuously include Head Start Instructor, Police Officer Trainee, Specialty Combination (Building) Inspectors, and various positions in the City Attorney's Office. Recently, the Policy Academy enlisted 42 trainees.
- 6. <u>Union Partnership</u>: Working with union leadership continues to be imperative in assisting with efficiently filling vacant positions and maintaining up-to-date classifications. An agreement between the City and SEIU, Local 1021 allowed the Public Works and Transportation Departments to hire up to twenty-five Provisional Public Works Maintenance Workers while HRM conducts the recruitment and testing to fill these positions permanently. The agreement allowed the provisional employees to be in-place for approximately 180-days instead of the 120-days usually permitted.
- 7. Improved Marketing: HRM continues to use various platforms to market jobs to potential candidates. As part of the Recruitment & Retention Committee, Department Directors and Managers are improving their social media presence to better market Oakland as an employer of choice. HRM has contracted with LinkedIn to provide a better "Life" section on the City's LinkedIn page and to use advanced data analytics to identify and contact potential applicants for hard to fill positions. We are also reaching out to KTOP to explore better marketing videos and campaigns highlighting job openings and the benefits of working for Oakland.
- 8. Other Efforts: HRM continues its partnership with the City Administrator's Office to identify potential efficiencies in the overall hiring process and to determine recruiting priorities based on the goals of the Mayor, Council, and City Administrator's Office.

Recruitment Challenges

There remain challenges that will continue to inhibit the progress the City of Oakland makes on increasing staffing levels.

Item:
Public Works Committee
May 14, 2019

1. National and Regional Market Conditions: According to the latest Bureau of Labor Statistics, the nation's unemployment rate is 3.8%. The California unemployment rate is 4.2% according to the California Employment Development Department. For the San Francisco, Oakland and Richmond region, the unemployment rate is 2.8%. These conditions are a significant issue when recruiting for qualified and diverse candidates in the public sector and has an impact on the number of applications HRM is receiving for vacancies. Several recruitments have extended the deadline to apply due to a low number of qualified applicants.

2. <u>Balancing Compliance and Efficiencies</u>: The Charter, Civil Service Rules and Labor Agreements are the pillars of the competitive civil service. HRM will continue to comply with governing laws, rules and agreements. Where there is an opportunity to reform and agree. HRM will continually seek efficiencies in a transparent manner.

Workforce Analysis

In addition to reducing employee vacancies through effective and efficient hiring practices, it is imperative to focus on retaining and developing our existing workforce. To further understand retention, included below are separation, resignation and tenure data. The results suggest that Oakland does very well in retaining employees. The projected FY18-19 resignation rate for non-sworn employees is 4.02% (91 total) with an average tenure of 6.2 years.

 Separations and Hires: To reduce the overall vacancy rate, City hiring needs to outpace separations. As demonstrated in Figure A, over the last five years, the number of hires tracks closely to the number of separations, which includes retirements, resignations, terminations and other reasons. However, for FY18-19, the number of all separations is projected to significantly decrease, from 290 to 199, (31% decrease).

Figure A: Separations and Hires by Fiscal Year
Separations and Hires by Fiscal Year

2. <u>Tenure of Separations</u>: According to the Bureau of Labor statistics, the national rate of tenure with a public-sector employer is 6.8 years (private sector is 4.2 years), which includes all separations. Over the last five years, all separated full-time City of Oakland employees average 12.7 years of service with the current fiscal year increasing to 14.25 years, far surpassing the national average. See **Figure B** below:

Average Tenure City of Oakland Employee 14.25 14.5 14 13.5 Years of Service 13 12.69 12.63 12.63 12.5 12.01 12.03 12 11.5 11 10.5 17-18 18-19 ytd 13-14 14-15 15-16 **Fiscal Years**

Figure B: All Separations Years of Service

3. <u>Voluntary Resignation Rates</u>: The resignation rate is calculated by dividing the number of voluntary resignations by the total number of employees. For the purposes of this analysis, only non-sworn full-time employees were considered. A typical resignation rate for local government during normal economic times ranges between 4.5% to 5.5%. Given the historically low unemployment, it would be anticipated that the rate would be significantly higher, perhaps 6-8 percent. **Figure C** shows the rate for non-sworn full-time City of Oakland employees is projected to be four percent (4%) this fiscal year.

Figure B: Historic Resignation Rates for non-sworn employees

4. <u>Voluntary Resignation Tenure</u>: Over the last five years, the average tenure of a non-sworn City of Oakland employee who voluntarily resigns is 6.1 years **Figure D** shows the number of years of service has steadily increased over the last three years, confirming that Oakland does well in terms of workforce retention.

Figure D: Tenure of resigned non-sworn employees

5. <u>Succession Planning</u>: **Figure C** shows the breakdown of the 118 full-time employees that have at least 30-years of service and are age 50 or older. The departments of Public Works and Transportation have the highest number. It is important that the City plan appropriately to retain institutional knowledge.
