In reference to the City's mandate regarding Central Services Overhead (CSO) charges, total CSO associated with the \$35,783 (for salary and wages only) equals \$3,506; (based upon a calculation rate of 9.8%). However, according to the granting agency, indirect costs (CSO) charges are disallowed. Therefore, the Department requests a waiver for all Central Services Overhead charges.

BACKGROUND

In August, 1993 the Oakland City Council adopted a "Deemed Approved" program (Ordinance No. 11624 C.M.S.) designed to improve enforcement against problem alcoholic beverage sale establishments through a cooperative effort of the Oakland Police Department, the Office of

Planning and Building and other state and county agencies. (A portion of the fees levied against alcohol beverage outlets for sale violations are used to fund ABAT.) The Deemed Approved Program not only subjects alcoholic beverage establishments to specific performance (sales) standards, it also provides education, monitoring and enforcement to licensees and is designed to work as an administrative abatement mechanism.

In 2001, ABAT assumed additional duties associated with tobacco law enforcement by providing educational materials to local bar and convenience store outlets and providing police officers with training on the enforcement of tobacco laws. During calendar year 2002, the A13AT decoy operations at Oakland liquor/convenience stores resulted in 15 stores being cited for violations of California Penal Code Section 308, (sale of tobacco products to minors).

KEY ISSUES AND IMPACTS

The Tobacco Law Enforcement Project is expected to encompass 175 bar and liquor store establishments within the City of Oakland. This will be accomplished through the distribution of materials to establishment owners regarding current tobacco laws. These outreach efforts will supply operators with the information necessary to comply with laws governing the sale and consumption of tobacco products. When it is deemed appropriate, project participants may also conduct decoy "sting" operations.

SUSTAINABLE OPPORTUNITIES

Economic

Supplies and reprographic needs will be purchased locally.
Success of the project may reduce the amount of sales taxes collected from tobacco products.
